

## INCIDENT MANAGEMENT SITUATION REPORT

SUNDAY, JULY 12, 1998 - 0900 MDT

NATIONAL PREPAREDNESS LEVEL III

### CURRENT SITUATION:

Large fire activity continued in the Southern and Northwest areas. The National Interagency Coordination Center continued to process orders for equipment, aircraft and miscellaneous overhead. A Type I Incident Management Team was mobilized from the Eastern Area to the Southern Area. Very high and extreme fire indices were reported in Florida, Georgia, Texas, New Mexico, Arizona, Utah, California, and Nevada.

### SOUTHERN AREA LARGE FIRES:

FLAGLER/ST. JOHNS COMPLEX, Florida State, Flagler and St. Johns Counties. A Type I Incident Management Team (Hutchinson) is assigned. The complex remains in a drought despite recent showers. All fires in the complex are now lined. Mop up continues with crews, engines and helicopters.

VOLUSIA COMPLEX, Florida State, Volusia County. Unified Command is in effect with Florida State (Webster). A Type I Incident Management Team (Bennett) is assigned. Infrared flights are assisting crews and engines with mop up. Excess personnel and equipment are being made available for reassignment.

PERRY COMPLEX, Florida State, Taylor County. A Type II Incident Management Team (Gauger) is assigned. Unified Command is in effect with Florida State. Interior flare ups are expected as the weather turns hot and dry.

JACKSONVILLE II COMPLEX, Florida State, Nassau, Duval and Clay Counties. A Type I Incident Management Team (Monahan) is assigned. Fire management is under Unified Command with Florida State (Caullette). A new 20 acre fire was contained and is being mopped up. No resources were mobilized through Jacksonville staging in the last twenty four hours.

SUWANNEE OAK COMPLEX, Florida State, Columbia, Union, Bradford and Baker Counties. A Type I Incident Management Team (Dague) is assigned. Unified command is in effect with Florida State (Crow). One new fire was suppressed at five acres. Heavy mop up continues as conditions in the complex become drier.

WITHLACOCHEE, Florida State, Hernando, Pasco, Lake Sumter and Citrus Counties. A Type II Incident Management Team (Kennedy) is assigned. All fires in the complex are in or near containment. Rain showers assisted mop up efforts.

HONEY SCRUB, Okefenokee NWR. This fire is burning in dry scrub and grass in the Okefenokee Refuge. Resources are being mobilized, including a Type I Incident Management Team (Dubois) from Eastern Area. The fire is threatening Stephen Foster State Park, State highway 177, private lands, recreational lands and endangered species. There are no structures threatened at this time. Sixty park visitors, campers and local residents are being evacuated as a precaution. Water levels in the Okefenokee Swamp are 2.5 feet below normal. Georgia forestry firefighters and private land owners are concentrating on plowing line on the high ground in front of the fire, and performing burn-out operations. Flame lengths up to sixty feet were reported. Limited access and dry, volatile fuels are the principle control problems.

#### ALASKA LARGE FIRE:

CARLA LAKE, Fort Greely Army Base. This fire is 15 miles southwest of Delta Junction. The fire is burning in both modified and limited management option areas and is expected to burn until a significant amount of rain or snow is received. Two crews will be demobilized tomorrow. This will be the last report unless significant activity occurs.

#### OUTLOOK:

Florida and southern Georgia will be partly cloudy with scattered afternoon thunderstorms. High temperatures will be in the upper 80's to mid 90's.

Southern Nevada, Utah, Arizona, New Mexico and western Texas will be mostly sunny and hot. Isolated afternoon thunderstorms will occur in southern Utah, Arizona and in the New Mexico mountains. High temperatures will range from the upper 70's in the mountains to 118 in the valleys and deserts.

Southern Oregon will be sunny and warmer. Temperatures will range from 80's to the lower 90's.
