

INCIDENT MANAGEMENT SITUATION REPORT

FRIDAY, JUNE 26, 1998 - 0530 MDT

NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

The Rocky Mountain Area reported increased initial attack and large fire activity. Significant initial attack and large fire activity continued in the Southern Area. Minor initial attack activity was reported elsewhere. The National Interagency Coordination Center processed orders for two Type I and one Type II Incident Management Teams, airtankers, helicopters, radios, overhead and water tenders to the Southern Area. Orders for tactical aircraft and miscellaneous overhead were processed for the Rocky Mountain and Southwest Areas. Very high and extreme fire indices were reported in Florida, Georgia, Kansas, Oklahoma, Texas, New Mexico, Arizona, Colorado, Utah, Nevada and southern California.

SOUTHERN AREA LARGE FIRES:

BUNNELL COMPLEX, Florida State, Flagler, Volusia, and St. Johns Counties. A North Carolina Incident Management Team (Hendricks) is assigned. One hundred and forty homes west of Ormond Beach were evacuated yesterday. The evacuation was to facilitate movement of heavy equipment into the area to attack the Lafayette Landing fire. The homes themselves were not in danger at the time. There is another large fire burning north and west of Bunnell.

OAK HEAD, Osceola National Forest. A Type I Incident Management Team (Greenhoe) is assigned. This fire is located 20 miles north of Lake City. Strong northwest winds caused control problems along the east and northeast sides of the fire. Extremely dry fuels continue to hamper control efforts.

SUWANNEE COMPLEX, Florida State, Columbia, Union, Bradford and Baker Counties. A Type I Incident Management Team (Wands) is assigned. A unified Command is in effect with the Florida Division of Forestry. The complex currently consists of fourteen fires. Several hotspots and interior islands continue to burn out, but

are not posing any threat to the control lines at this time. The National Guard is assisting with mapping, transportation and GIS plotting of the fires.

HORSE SAVANNAH, South Carolina State. This fire is located in Horry County. Equipment from Piedmont Region, Wedgefield and Florence have responded. Concerns are for smoke affecting the Grand Strand Airport at North Myrtle Beach.

PADUCAH COMPLEX, Texas State. A Type II Incident Management Team (Davis) is assigned. This complex consists of five fires in Cottle and King Counties. All fires are contained except for the Matador. No other information was reported.

UNK = UNKNOWN NR = NOT REPORTED

ROCKY MOUNTAIN LARGE FIRES:

CIMARRON COMPLEX, Pike-San Isabel NF. This lightning caused fire is four miles north of Wilburton, Kansas on the Cimarron National Grasslands. Single digit relative

humidities, temperatures in the 100's and abnormally low fine fuel moisture are hampering suppression efforts and causing concern for firefighter safety.

CIMARRON CX	PSF	CO	400	70	6/26	20	0	5	0	0	UNK	UNK

ALASKA LARGE FIRES:

CARLA LAKE, Fort Greely Army Base. This fire is 15 miles southwest of Delta Junction. A Type II Incident Management Team (Ribar) is assigned. Cloudy and cool weather continues to keep fire behavior to a minimum. The Type II Team is tentatively scheduled to transition to a Type III Team this weekend.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED IN NORTHERN ARIZONA FOR DRY AND WINDY CONDITIONS. Arizona, Nevada, Southern Utah, New Mexico and Texas will be hot and dry with gusty southwest winds at 15-30 MPH. High temperatures will range from 75 to 90 in the mountains and 95 to 110 in the valleys and deserts.

Florida and Georgia will be hot with scattered afternoon thunderstorms. Thunderstorm activity will be significant throughout southern Florida. High temperatures will be in the 90's.

Alaska will be partly to mostly cloudy with a chance of showers and isolated thunderstorms. High temperatures will be in the 50's along the coast with 60's to low 70's in the interior.
