

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, OCTOBER 29, 1998 - 0530 MST
NATIONAL PREPAREDNESS LEVEL II

Friday 10/30/98 will be the last daily report. We will begin weekly reports Friday 11/6/98 at 1000 MST through the winter, unless significant activity reported. The weekly reports will include the prescribed and WFU Year-to- date statistics.

CURRENT SITUATION:

Minimal initial attack fire activity was reported. The National Interagency Coordination Center processed orders for a helicopter and miscellaneous overhead. High fire dangers were reported in California, South Carolina, Tennessee, Virginia and Georgia.

SOUTHERN AREA LARGE FIRES:

CALVARY, Shenandoah NP. The fire is in bug killed timber from gypsy moth infestation. Dry conditions, rocky terrain and the amount of dead and down timber are causing control problems.
