

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, APRIL 21, 1999 - 1000 MDT
NATIONAL PREPAREDNESS LEVEL I

CURRENT SITUATION:

Fire activity continues in Southern Area due to red flag conditions. Florida is seeing fire behavior similar to that experienced last year. The National Coordination Center processed orders for aircraft, six crews, equipment, and a Type I Overhead Team.

SOUTHERN AREA LARGE FIRES:

HICKORY ISLAND, Okefenokee NWR. This fire is burning near Folkston, GA. Inaccessible terrain and heavy fuels are contributing to control problems. Acreage change due to a typographical error.

OWL CREEK, National Forests in Florida. A Type I team (Melton) is assigned to this fire and the Cow House fire. Fire activity was stable yesterday with minimal movement. Very low humidities and moderate winds have hampered control efforts.

COW HOUSE, National Forests in Florida. A Type I team (Melton) is assigned to this and the Owl Creek fire. This fire is located approximately 20 miles south of Tallahassee. Interior islands and swamp fuels continued to burn yesterday. Extremely low humidities, high winds and drought conditions are contributing to suppression problems.

SINGECAT, National Forests in North Carolina. This fire is approximately 30 miles east of Asheville and is burning in steep, pine forest. Line construction and improvement continues. Helicopters assisted ground forces by dropping water on hot spots.

CYPRESS CREEK, National Forests in Florida. This fire is near Lake City, Florida. No other information available at this time.

OUTLOOK:

A Red Flag warning is in effect for most areas in Florida this afternoon. The state will experience mostly sunny conditions with highs in the mid 80's and southwest winds reaching 10 to 15 mph.

There is a Red Flag warning for most of South Carolina today. Expect sunny skies with high temperatures in the lower to mid 80's. The mountains and coast will encounter temperatures in the 70's.

Georgia will be partly sunny today and highs are expected to be in the 80's.

North Carolina will be partly sunny with highs in the 70's to lower 80's. The far northeastern portion of the state will experience temperatures in the upper 60's.

A Red Flag warning is in effect for the southern and eastern portions of New Mexico today, with a fire weather watch in effect for the rest of the state. Conditions will be fair to partly cloudy and windy, with continued warm weather in the south. It will be cooler in the north, with a chance of showers and thunderstorms. Highs in the mountains and the north should reach the 50's to lower 70's, with 80's expected elsewhere. The southern lowlands will reach highs in the mid 90's.

Texas has a wind advisory in effect today for several portions of the state. Conditions will be mostly sunny to partly cloudy with a slight chance of thunderstorms in the late afternoon. Windy and warm conditions are expected with highs reaching the 80's and 90's.

A wind advisory is in effect today for portions of southeast Arizona. The rest of the state will experience mostly sunny and breezy conditions with highs reaching 60 in the mountain areas and the lowest deserts getting as

high as 100 today.
