

INCIDENT MANAGEMENT SITUATION REPORT
 SATURDAY, APRIL 24, 1999 - 1000 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Higher humidities in Southern Area aided firefighters with suppression efforts. Mobilization has stabilized. The National Interagency Coordination Center processed orders for airtankers, helicopters, a lead plane and miscellaneous overhead.

SOUTHERN AREA LARGE FIRES:

HICKORY ISLAND, Okefenokee NWR. This fire is burning near Folkston, GA. The fire continues to grow to the northeast. Inaccessible terrain and heavy fuels are contributing to control problems.

APALACHICOLA COMPLEX, National Forests in Florida. A Type I team (Melton) is assigned. This complex includes the Owl Creek (2,624 acres) and Cow House (6,765 acres) fires. Higher humidities aided control efforts and helped facilitate burnout operations. Crews continued to strengthen secondary control lines to the east next to private property.

PIGSKIN, Daniel Boone National Forest. This fire is burning near Whitley City, KY. Good progress was made on containment yesterday. Higher humidities moderated fire behavior.

STONEY CREEK, CHEROKEE NATIONAL FOREST. This fire is burning in blown down timber in rough, steep terrain.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED IN THE SOUTHERN MOUNTAINS AND SOUTHERN LOWLANDS OF NEW MEXICO FOR GUSTY WINDS AND marginally low relative humidities.

New Mexico will be variably cloudy and windy with a chance of showers and afternoon thunderstorms mainly north and east. Winds will be south to southwest 15 to 30 MPH. High temperatures will range from the upper 40's to the 60's in the mountains and north, and in the 70's to the mid 80's elsewhere.

Arizona will be mostly cloudy north with scattered afternoon showers and thunderstorms, and snow above 7500 feet. The south will be partly cloudy with a slight chance of morning showers. Winds will be south to southwest 10 to 20 MPH, with local gusts to near 30 MPH.

Kentucky and Tennessee will be partly cloudy with north to northeast winds 10-15 MPH. Kentucky will have high temperatures in the 60's. Tennessee will have highs in the 60's to mid 70's.

North Carolina will be much cooler, with morning clouds and a slight chance of showers in the southeast, becoming partly cloudy later. Winds will be north to northeast 15-25 MPH with local gusts to near 35 MPH. Highs will be 60 to 65 in the northeast and 65 to 75 elsewhere.

Florida will be partly cloudy with isolated showers on the southeast coast and in the Keys. Isolated afternoon showers or thunderstorms are forecast for the southern interior and southwest. Winds will be variable 5 to 10 MPH. Highs will be in the 90's in the interior central and south, and 80's elsewhere.
