

INCIDENT MANAGEMENT SITUATION REPORT
 SUNDAY, APRIL 25, 1999 - 1000 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Good progress continues to be made on fires in the Southern Area. The National Interagency Coordination Center processed orders for a helicopter, equipment and miscellaneous overhead.

SOUTHERN AREA LARGE FIRES:

HICKORY ISLAND, Okefenokee NWR. This fire is burning near Folkston, GA. The fire continues to grow to the northeast in inaccessible terrain. The fire remains within the projected boundary. Rehabilitation efforts on the fireline are continuing.

APALACHICOLA COMPLEX, National Forests in Florida. A Type I team (Melton) is assigned. This complex includes the Owl Creek (2,624 acres) and Cow House (6,765 acres) fires. Higher humidities aided control efforts and helped facilitate burnout operations. Crews continued to strengthen secondary control lines to the east next to private property.

STONY CREEK, Cherokee National Forest. This fire is burning in blown down timber in rough, steep terrain 12 miles northeast of Elizabethton. Full containment was expected yesterday. No new information was received.
