

INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, AUGUST 31, 1999 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL IV

CURRENT SITUATION:

Initial attack activity was moderate in most areas. New large fire activity was reported in the Southern California, Eastern Great Basin, Western Great Basin, Northern Rockies and Southern Areas. Large fire activity continued in the Northern California, Southern California, Eastern Great Basin, Western Great Basin and Southern Areas. Competition exists for Type I crews. The National Interagency Coordination Center mobilized helicopters, infrared aircraft, telecommunications equipment, commissary, engines, shower unit, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, Utah, Nevada, South Dakota, Wyoming, Arkansas, Mississippi and Oklahoma.

SOUTHERN CALIFORNIA LARGE FIRES:

PINE, Riverside Ranger Unit, California Department of Forestry. This fire is located on State Highway 243 at the junction of Twin Pine Road near the town of Silent Valley. Current threats are to a watershed and structures. There have been six out buildings, one travel trailer, one motor home, three autos and one sailboat lost.

WILLOW, San Bernardino National Forest. A Type I Incident Management Team (Stutler) is assigned. This fire is located near Willow Creek, northeast of Lake Arrowhead. Current threats are to communication sites and underground gas lines. Intense winds and steep terrain are causing control problems. Evacuations of the Oak Springs and Bowens Ranch are in place. The fire has switched directions and is heading north, northeast toward the Apple and Lucerne Valleys. Mandatory evacuations are in place for High Road in Lucerne and the town of Patzer Butte. The town of Milpas is on a voluntary evacuation. The National Forest is closed at Highway 138 west of Silverwood Lake, through Crestine up to Highway 18 below Big Bear Lake and to Cushemberry Springs.

MIXING, San Bernardino National Forest. A Type II Incident Management Team (Conrad) is assigned. This fire is located on State Highway 243 near Mountain Center, CA. Steep terrain and heavy fuels are contributing to control problems. State Highway 74 between Mountain Center and Lake Hemet is open to residents by escort only. An evacuation center is set up in Idyllwild school.

BRIDGE, Angeles National Forest. A Type I Incident Management Team (Carvelho) is assigned. This fire is located on Highway 39 north of the city of Azusa, CA. Steep terrain and high fire intensities are causing control problems. A mandatory evacuation for the town of Falling Springs and Crystal Lake is in place. State Highway 39 is open to residents with identification.

COULTERVILLE, Madera-Mariposa-Merced Ranger Unit, California Department of

Forestry. This fire is located one mile west of Coulterville, CA. The fire is burning on the down slope side of Highway 132. The town of Coulterville is threatened.

WIND, Kern County Fire Department. This fire is located in Sand Canyon at the junction of Highway 58 and Cameron Road. Strong winds are causing control problems. MERCED, Madera-Mariposa-Merced Ranger Unit, California Department of Forestry. This fire is located at the junction of Merced Falls and Coronado Roads. The fire is moving quickly through grass in rolling hills. Firing operations are in progress. Structures at Lake McClure are threatened.

SHANNON, Los Angeles County. This fire is located in the town of Acton, CA. Three out buildings and one residence was destroyed.

NORTHERN CALIFORNIA LARGE FIRES

SHASTA-TRINITY COMPLEX, Shasta-Trinity Ranger Unit, California Department of Forestry. A California Department of Forestry Incident Management Team (Johnson) is assigned. This complex consists of the Rock (700 acres), East (288 acres), Mammoth (500 acres), Burney LCA (118 acres), Donkey (60 acres), Spring (875 acres) and Backbone (20 acres) fires. No other information was reported.

MHRD COMPLEX, Plumas National Forest. A Type I Incident Management Team (Giachino) is assigned. The complex consists of nine fires of which four are contained. Current threats are to structures in the State Highway 70 corridor and the Dixie Valley.

FRRD COMPLEX, Plumas National Forest. A Type I Incident Management Team (Hutchinson) is assigned. This complex consists of six lightning fires north and west of Lake Oroville. Personnel continue to make good progress on the Bean and Devil's Gap fires.

HIGH COMPLEX, Shasta-Trinity National Forest. A Type I Incident Management Team (Foster) is assigned. Unified Command with the California Department of Forestry (Young) is in effect. This complex consists of 19 lightning fires 22 miles north of Redding. Continued burnout of indirect fireline is planned for today.

YELLOW PINE COMPLEX, Modoc National Forest. A Type II Incident Management Team (Welch) is assigned. This complex consists of the Yellow (4,669

acres), Pine (29,772 acres) and Boles (523 acres) fires which are 20 miles south of Tulelake. The fire received rain yesterday. Activities are focused on mopup and rehabilitation. Demobilization of the complex is beginning.

BIG BAR COMPLEX, Shasta-Trinity National Forest. A Type II Incident Management Team (Bacon) is assigned. This complex is 28 miles northwest of Weaverville. The complex consists of five lightning fires, the Onion (2,620 acres), Fawn (1,780 acres), Soldier/Megram (285 acres) and Dee's (1 acre). Indirect fireline construction continues. Burnout of fireline has been initiated and will continue with higher relative humidity assisting.

BTU = Butte Ranger Unit, California Department of Forestry.

EASTERN GREAT BASIN FIRES:

FLAT, Salt Lake District, BLM. This fire is located 40 miles west of Salt Lake City, UT. Extremely low fuel moisture caused extreme fire behavior. Wetting rains were received on the fire, which allowed firefighters to speed up containment objectives. Containment was expected last night.

EAST SLICK, Lower Snake River District, BLM. A Type II Incident Management Team (Vorce) is ordered. This fire is five miles south of Glenns Ferry, ID. The fire is being driven by wind from a cold front. Steep terrain and sandy soil are causing control problems.

IFD = Upper Snake River District, Eastern Idaho Area, BLM.

NWS = Northwest, Utah State.

SLD = Salt Lake Field Office, BLM.

WESTERN GREAT BASIN LARGE FIRES:

SELLEM, Ely Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned. This fire is 80 miles southwest of Ely, NV. The fire received wetting rain in the morning, but high winds dried fuels by afternoon and fire behavior increased. Fire crews continue to mopup and improve the firelines.

NORTHERN ROCKIES LARGE FIRES

ASH CREEK, Crow Agency, BIA. This fire is located near Wyola, MT. Predicted winds up to 50 MPH is a major concern.

ANACONDA, Glacier National Park, NPS. This fire is located near West Glacier, MT. This lighting ignited wildland fire is being managed to accomplish resource objectives. Very little fire activity occurred yesterday.

BRINEY, Southern Land Office, Montana State. Limited information was received.

SOUTHERN AREA LARGE FIRES:

PITCHFORK, Texas State. A Texas State Incident Management Team (Davis) is assigned. This fire is located in King County, TX. This will be the last report unless new information is received.

MCCORMACK, Texas State. This fire is located ten miles north of Lake Meredith Re-creation Area, TX. This will be the last report unless new information is received.

CORBETT RANCH, Texas State. This fire is located near Possum Kingdom Lake. Very active fire behavior and dry fuels are contributing to control problems.

TXS = Texas State.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR THE SACRAMENTO VALLEY OF NORTHERN CALIFORNIA FOR GUSTY NORTHEAST WINDS AND DECREASING RELATIVE HUMIDITY. ***

*** A FIRE WEATHER WATCH IS POSTED FOR SOUTHEAST MONTANA FOR STRONG WEST WINDS AND LOW RELATIVE HUMIDITY. ***

A deep upper level trough will bring cooler conditions, scattered showers and high mountain snow showers to Washington, Oregon, Idaho and northwestern Montana. Breezy conditions will remain through this morning. In the lee of the Rocky Mountains, over eastern Montana and Wyoming, strong west to southwest winds of 20 to 30 mph are expected along a cold front. The front will trigger scattered afternoon showers and thunderstorms. As high pressure builds over Oregon, northern California will experience northeast winds which will reduce relative humidities in the valleys. Winds are expected to be 15 to 25 mph over the Sacramento valley. Monsoonal moisture will bring widely scattered showers and thunderstorms to New Mexico, southeast Utah and Colorado, as well as the higher terrain of Arizona.

Mostly sunny conditions will range over the Great Basin, with southwest winds of 15 to 20 mph.

Texas and Oklahoma will be sunny and hot with temperatures in the 90's. A slight chance of thunderstorms in the Texas and Oklahoma panhandle as well as west Texas, with mainly south winds at 10 to 20 mph.
