

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, JULY 25, 1999 - 0900 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Increased fire activity occurred in the Northern Rockies, Northern California, Eastern Great Basin, Northwest and on large fires in the Western Great Basin. Good progress was made on large fires in southern California. The National Interagency Coordination Center mobilized infrared aircraft, lead planes, helicopters, radio equipment, supplies, caterers, shower units, crews and miscellaneous overhead. High to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, Utah, Nevada, Wyoming and New Jersey.

SOUTHERN CALIFORNIA LARGE FIRES:

SPANISH, Santa Barbara County Fire Department, California. A Type II Incident Management Team (Smith) is assigned. This fire is eighteen miles west of Cuyama, California on Spanish Ranch. Control lines are completed and holding. Islands of unburned brush and stands of mixed conifer pose a threat to the San Rafael Wilderness. Line improvement and burning out unburned pockets of fuel is planned for today. Erratic winds and steep terrain are hampering suppression efforts. Demobilization is planned for Monday.

LAC = Los Angeles County Fire Department, California

EASTERN GREAT BASIN LARGE FIRES:

EAGLE CANYON, Northwest State of Utah. This fire is near Henefer, Utah. Summer cabins and wheat fields are threatened. Steep slopes, strong winds and spotting are contributing to control problems.

COAL MINE, Salt Lake City Field Office, BLM. This fire near Grouse Creek, Utah is burning in Juniper, sage and grass. Strong winds and spotting are causing control problems.

CEDAR BUTTE, Upper Snake River District, BLM. This fire is twenty five miles northwest of Blackfoot, Idaho. A cold front with accompanying high winds caused an increase in fire behavior. Highway 26 was closed due to blowing ash, dust and smoke. Demobilization has begun.

SOLDIER, Salmon/Challis National Forest. A Fire Use Management Team (Wallace) is assigned. This lightning ignited wildland fire is being managed to accomplish resource objectives. The fire is burning thirty

miles northwest of Stanley, Idaho. No new information was reported.

BOD = Lower Snake River District, BLM

NORTHERN ROCKIES LARGE FIRES:

BURNED POINT, Lewis and Clark National Forest. A Type I Incident Management Team (Bennett) is assigned. This fire is twenty miles south of Augusta, MT. burning in grass and timber. Good progress is being made on line construction and containing spotfires. Several recreational cabins north and east of the fire continue to be at risk. Strong winds, low relative humidities and steep terrain are creating control problems.

WILLOW, Lewistown Field Office, BLM. This fire is near Grass Range, Montana. Strong winds, high temperatures and low relative humidities are hampering containment efforts. A major concern is on the west end where the fire is backing toward heavy timber.

PINCHOT, Nez Perce National Forest. This fire is thirty one miles east of Lowell, Idaho. This fire is burning on the Selway Bitterroot Wilderness and was human caused. The Selway River Trail is currently threatened.

TIN, Lewistown Field Office, BLM. This fire is twenty miles from Winnett, MT. All line held despite very high winds. No other information was reported.

SOS = Southern Land Office, Montana State

WESTERN GREAT BASIN LARGE FIRES:

LOCKWOOD, Northwest Nevada State. This fire is five miles east of Reno, NV burning in grass, sage, and Pinon-Juniper. Unpredictable winds and steep terrain continue to make suppression operations difficult. Several

structures in the Gooseberry Mine Area are threatened.

ROCKY MOUNTAIN LARGE FIRES:

ISLAND PARK, Big Horn National Forest. A Type II Incident Management Team (Hartman) is assigned. This fire is fifteen miles northeast of Ten Sleep, Wyoming burning in heavy Lodgepole Pine thinning slash. The Deer Haven Lodge and 12 summer cabins are threatened. The fire is being held along Forest Road 27 away from West Ten Sleep Creek.

SOUTHWEST AREA INCIDENTS:

MONSOON 99, Grand Canyon NP. A Type II Incident Management Team (Anderson) is assigned. The incident is eight miles north of the Grand Canyon Village. Good progress was made on the South Kaibab Trail. Crews continue to reconstruct retaining walls on the North Kaibab Trail. The incident will be turned over to the National Park Service on Monday.

OUTLOOK:

Montana will have isolated afternoon thunderstorms with temperatures in the 70's and 80's and minimum humidities 20 to 30 percent. Winds will be westerly at 10 to 20 MPH with gusts to 30 MPH.

Wyoming will be partly cloudy with widely scattered afternoon thunderstorms. Temperatures will be in the 80's and 90's with relative humidities from 20 to 25 percent. Winds will be northwest to west at 5 to 15 MPH.

The south central and eastern portions of Utah will have isolated thunderstorms. Temperatures will be in the 70's in the higher elevations and in the 80's elsewhere. Minimum relative humidities will be 15 to 30 percent. Winds will be northerly at 5 to 15 MPH with gusts to 25 MPH.

California will be sunny with high temperatures in the 70's and 80's in the north and 80's and 90's in the south. Minimum relative humidities will be 20 to 35 percent in the higher elevations and 10 to 15 percent in the desert valleys. Winds will be out of the north 5 to 15 MPH in the north, with southwest winds 10 to 20 MPH in the south.

Idaho will be mostly sunny with temperatures in the 70's and 80's and minimum relative humidities 15 to 20 percent. Winds will be west to northwest at 5 to 10 MPH.

Oregon and Washington will be warm and dry with temperatures in the 70's and 80's with minimum relative humidities 15 to 25 percent in the valleys and 25 to 30 percent elsewhere. Winds will be southwest to west 10 to 15 MPH.
