NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Large fire activity continued in Alaska, the Southwest and Eastern Great Basin. Minimal initial attack activity occurred elsewhere. The National Interagency Coordination Center mobilized Type I and Type II helicopters, radio equipment and miscellaneous overhead. Very high to extreme fire indices were reported in Arizona, New Mexico, West Texas, Southern California, Nevada, Oregon and Utah.

ALASKA LARGE FIRES:

DONNELLY FLATS, Fort Greely Army Base. A Type I Incident Management Team (Stam) is assigned. This fire is located ten miles south of Ft. Greely, AK. No significant fire activity occurred as a result of light precipitation received on the fire area throughout the day. Size increase is due to more accurate mapping.

MINTO, Tanana Zone BLM. A Type II Incident Management Team (Cowin) is assigned. This fire is near Minto, AK. The fire received light precipitation throughout the day, enabling crews to make good progress on fireline construction.
