

INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, MAY 13, 1999 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Minimal initial attack activity was reported nationally. One large fire remains in the Southern Area. Good progress is being made on the fires in the Province of Ontario, where three large fires remain uncontained for a total of 256,000 acres. Mobilization through the National Interagency Coordination Center was minimal, while demobilization continued. Very high and extreme fire indices were reported in Michigan, New Hampshire, Arizona, New Mexico, Texas and in the Canadian Provinces of Manitoba, Ontario, Quebec and New Brunswick.

SOUTHERN AREA LARGE FIRES:

BROWN FIRE, Everglades National Park. This fire is located near Homestead, Florida. The fire was active in the interior pine lands, however, higher humidities prevented burn out operations in light fuels. Firefighters were pulled off the fire yesterday due to thunder cell activity over the fire.

OUTLOOK:

A FIRE WEATHER WATCH IS POSTED IN ARIZONA FOR GUSTY WINDS THROUGHOUT THE STATE. Arizona will be mostly sunny. Minimum humidities will be 5-15 percent in the lower elevations and 10-20 percent in the higher elevations. Winds will be south at 15-25 MPH, with gusts to 40 MPH. High temperatures will be in the 80's to near 104 in the lower elevations and in the 60-80 degrees in the higher elevations.

New Mexico will be partly cloudy with a slight chance of showers and thunderstorms north and east. Minimum humidities will be 20-30 percent. The north and east part of the state will experience breezy conditions. High temperatures will be in the 60's to 70's for the mountains and low 80's to 90's for the lowlands.

West Texas will be mostly sunny. Minimum humidities will be 40 percent. Winds will be from the southeast at 5-15 MPH. High temperatures will be in the 80's.

Florida will be mostly cloudy with scattered afternoon and evening thunderstorms. Winds will be west at 5-15 MPH. Minimum humidities will be 40-60 percent. High temperatures will range from 80-90 degrees.

Michigan will be partly cloudy. Minimum humidities will be 25-35 percent. Winds will be from the east at 10-20 MPH. High temperatures will be in the mid 40's to mid 50's.
