

INCIDENT MANAGEMENT SITUATION REPORT  
WEDNESDAY, NOVEMBER 17, 1999 - 0800 MST  
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fire activity occurred in the Southern Area. There was moderate initial attack activity in the Eastern and Southern Areas. The National Interagency Coordination Center mobilized helicopters, large transport aircraft, infrared aircraft, an airtanker, telecommunications equipment, crews and miscellaneous overhead. Very high to extreme fire indices were reported in Idaho, Utah, Arizona, Colorado, Kansas, Wyoming, Illinois, Indiana, Missouri, Arkansas, Georgia and Oklahoma.

SOUTHERN AREA LARGE FIRES:

BLOOD COMPLEX, Georgia Interagency Coordination Center. This fire is near Blairsville, Georgia. A Type I Incident Management Team (Melton) is assigned. Two fires burning within the Blood Mountain Wilderness have combined. Steep terrain and strong winds are causing control problems.

BOOTENS GAP, Shenandoah National Park. This fire is ten miles east of Shenandoah, Virginia. A Type I Incident Management Team (Carvelho) has been ordered. The fire started in gypsy-moth-killed timber in mountainous terrain. Containment is being hampered by high winds and low relative humidities.

BUZZARD CREEK, Daniel Boone National Forest. This fire is nine miles northeast of Whitley City, Kentucky. Containment was expected last night. No new information was received.

WHITTLETON BRANCH, Daniel Boone National Forest. This fire is seven miles northwest of Campton, Kentucky. Containment was expected last night. No new information was received.

TOWN BRANCH #2 COMPLEX, Daniel Boone National Forest. This complex is three miles east of Manchester, Kentucky and consists of seven fires ranging from 1 to 776 acres. No new information was received.

STANLEY CREEK, Georgia Interagency Coordination Center. This fire is near Blue Ridge, Georgia and is burning in heavy fuels.

AVEY CREEK, National Forests in North Carolina. This fire is five miles from Robbinsville, North Carolina. This fire combined with the Horse Fire and is now considered one.

GOLDIE DEADEN, National Forests in North Carolina. This fire is eight miles from Robbinsville, North Carolina. No other information was reported.

PINE RIDGE, National Forests in North Carolina. This fire is seven miles from Robbinsville, North Carolina. No other information was reported.

FORT LEWIS MOUNTAIN, Virginia Department of Forestry. This fire is five

miles north of Salem, Virginia. Personnel completing burnout operations have assisted with containment. Several home developments are threatened, but there have been no evacuations. Terrain and low availability of crews is hampering containment.

PONTZER, Virginia Department of Forestry. This fire is ten miles north of Woodstock, Virginia. Winds and low relative humidities hampered containment objectives yesterday. Snags are hampering containment efforts at night due to safety hazards.

DOG SLAUGHTER RIDGE 99, Virginia Department of Forestry. This fire is seven miles northeast of Shenandoah, Virginia. The fire is threatening the Shenandoah National Park. Crews were successful in utilizing old dozer lines to conduct a burnout operation to assist with containment objectives.

#### OUTLOOK:

\*\*\*A FIRE WEATHER WATCH IS POSTED IN SOUTHERN GEORGIA THIS AFTERNOON FOR LOW RELATIVE HUMIDITIES AND STRONG WINDS AT 10 TO 20 MILES PER HOUR WITH HIGHER GUSTS\*\*\*

Georgia will be sunny with high temperatures in the upper 50's in the extreme north and up to 70 in the south.

North Carolina will be sunny with high temperatures in the upper 50's and lower 60's. Temperatures will be in the 40's in the northern mountains.

Kentucky will be sunny with high temperatures in the 50's in the northeast and up to 65 in the far west side of the state.

Southern California will have increasing clouds with a chance of rain in the afternoon north of Point Conception, and mostly sunny to the south. High temperatures will be in the 50's to mid 60's in the north and in the mountains, 60's and 70's to the south, and 80's in the lower deserts.
