

INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, NOVEMBER 22, 1999 - 0800 MST
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity continued in the Southern Area. Containment objectives were met on several large fires. The National Interagency Coordination Center mobilized a helicopter, large transport aircraft, and miscellaneous overhead. Very high to extreme fire indices were reported in Missouri and Oklahoma.

SOUTHERN AREA LARGE FIRES:

STANTON COMPLEX, Daniel Boone National Forest. A Type I Incident Management Team (Bennett) is in place and is now handling all fires on the Stanton Ranger District. The fires are eleven miles east of Stanton, Kentucky. Wetting rain was received on the fires, but left large areas of unburned fuel with a broken and irregular fire edge. Steep cliffs throughout the area are also causing containment problems.

AVEY COMPLEX, National Forests in North Carolina. A Type II Incident Management Team (Kearney) is assigned. The fires are five to eight miles from Robbinsville, North Carolina. Light rain was received over the fires. Crews continue mop-up and have begun rehabilitation efforts.

CITICO, Cherokee National Forest. A Type II Incident Management Team (Kearney) is assigned. Air tankers and helicopters were successful in holding the west flank of the fire. Crews began fireline construction.

ROUND MOUNTAIN, Oklahoma Division of Forestry. This fire is near Elohim City, Oklahoma. This will be the last report unless new information is received.

FRESH CORN, Cherokee National Forest. This fire is near Tellico Plains, Tennessee. Containment was expected yesterday. This will be the last report unless new information is received.

SKEGG BRANCH #2, George Washington & Jefferson National Forests. This fire is three miles south of Elkhorn City, Kentucky. No new information was received.

OUTLOOK:

A RED FLAG WARNING IS POSTED FOR SOUTHERN CALIFORNIA FOR STRONG, GUSTY NORTHEAST WINDS AND LOW HUMIDITY FOR THE MOUNTAINS AND VALLEY AREAS BELOW CANYONS AND PASSES

There will be a strengthening north to northeast flow over Southern California today that will combine with drying air to produce light to moderate Santa Ana winds which will weaken in the afternoon through Tuesday. In the mountains, high temperatures will be in the upper 40's and 50's and winds will be 35 MPH. Humidities will be 10 to 20 percent. The deserts will have high temperatures in the 60's and 70's with humidities at 10 to 20 percent and winds at 25 MPH. The rest of the area will be sunny, high temperatures in the 60's, humidities 10 to 25 percent and winds at 35 MPH.

A possible Red Flag warning is posted for Oklahoma today for winds and low humidities.

Missouri will be mostly cloudy with a chance of showers in the west and partly cloudy in the east. High temperatures will be 65 to 75 and humidities 45 to 50 percent.

Kentucky and Tennessee will be mostly cloudy with high temperatures in the 60's to 70's and humidities at 55 to 70 percent.

Virginia and North Carolina will experience considerable cloudiness with high temperatures reaching 60 to 70 and humidities 55 to 70 percent.
