

INCIDENT MANAGEMENT SITUATION REPORT
 SATURDAY, OCTOBER 9, 1999 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Minimal initial attack activity was reported from all Geographic Areas. Demobilization of resources from California continues as containment objectives are achieved. Very high to extreme fire indices were reported in Oregon, California, Utah, Idaho and Illinois.

NORTHERN CALIFORNIA LARGE FIRES:

BIG BAR COMPLEX, Shasta-Trinity National Forest. An Area Command Team (Roberts), a Type I Incident Management Team (Bateman) and a Type I Incident Management Team (Frye) are assigned. The complex is 28 miles northwest of Weaverville, CA. The complex consists of the Megram and Onion fires. Crews continued to make good progress on direct fireline into Red Cap Creek.

BIG BAR COMPLEX	CA	SHF	105527	58	UNK	2295	52	60	13	0	7.2M	39.4M

SOUTHERN CALIFORNIA LARGE FIRES:

KIRK COMPLEX, Los Padres National Forest. A Type I Incident Management Team (Foster) is assigned to the Kirk Complex North, which includes the Tassajara, Five and Mountain fires. A Type I Incident Management Team (Hutchinson) is assigned to the Kirk Complex South, which includes the Hare and Kirk fires. Fire activity diminished on the north and crews continued improving fire line on the south.

GLORIA, San Diego Ranger Unit, California Department of Forestry. This fire is five miles east of Campo, CA. No other information was reported.

CNF = Cleveland National Forest.

OUTLOOK:

A quick moving storm passed through the Pacific Northwest and northern Intermountain Region last night. There will be a few lingering morning showers over Washington, northern Oregon and northern Idaho that will dissipate by the afternoon with clearing skies. Northern portions of the west can expect breezy afternoon conditions with little change in temperatures or relative humidities. High pressure over the Great Basin will continue to influence dry and warm conditions from southern Oregon and Idaho southward. This afternoon high temperatures will range from the 60's and 70's in southern Oregon and Idaho to the 80's and lower 90's in southern California and Nevada. Minimum afternoon relative humidities will range from 5 to 25 percent. Santa Ana winds have weakened to locally breezy conditions over southern California.

A slow moving cold front in eastern Texas and western Louisiana will spread showers and thunderstorms over the entire Gulf states. Maximum temperatures will range from the mid 70's through the 80's. Minimum afternoon relative humidities will range from 55 to 85 percent.
