

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 7, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

CURRENT SITUATION:

Initial attack activity was light to moderate nationwide. Ten new large fires were reported in the Eastern Great Basin, Rocky Mountain, Southern California, Northwest, Northern Rockies and Southwest Areas. Crews reached containment goals on ten large fires, most of which were in Rocky Mountain and Southern California Areas. The National Interagency Coordination Center continues to process numerous orders for aircraft, equipment, crews and overhead. An Area Command Team was mobilized to Northern Rockies Area. No major changes in the weather pattern are forecast in the near future. All eleven western states, plus Oklahoma and Texas, are reporting very high to extreme fire danger indices.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires on the Bitterroot National Forest. An Area Command Team (Meuchel) is assigned to manage the large fires on the Beaverhead-Deerlodge National Forest. An Area Command Team (Mann) has been ordered to manage the large fires on the Lolo National Forest. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

SULA COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stam) is assigned. The fires in this complex, located near Sula, MT, include the Maynard, Gilbert, Spade, Mink and Crazy fires. The fire activity became intense when winds up to 20 mph were experienced. The fire caused an orderly demobilization of the Sula Ranger Station, the Incident Command Post and residences in the East Fork drainage. No injuries were reported. The Sula Store and the Sula Ranger Station were undamaged. Some power and phone lines are down. Two residences have been confirmed as destroyed.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Frye) is assigned. This complex of fires is burning actively seven miles south of Darby, MT. Plume dominated, extreme fire behavior has been observed. Evacuations from Sula to Lost Trail Pass and the East Fork of the Bitterroot River have been ordered.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type II Incident Management Team (Corbin) is assigned. This fire is three miles northwest of Hamilton, MT. The fire is making a major run eastward along Blodgett Creek. Residences in the area are immediately threatened. The fire has spotted across Mill Creek to the north, causing a mandatory evacuation of the community of Pinesdale.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of at least 24 fires in the Selway-Bitterroot and Frank Church River of No Return

Wildernesses, 40 miles southwest of Hamilton, MT. Precautionary structure protection efforts are being initiated at Paradise, Coopers Flat and Magruder administrative sites.

THOMPSON FLAT COMPLEX, Lolo National Forest. This complex of ten fires near Superior, MT was formerly reported as the Flat Creek Complex. Significant progress has been made on the fires south of Superior that were threatening structures. Crews will begin concentrating efforts on the large fires to the north today. Fire behavior was reported as running, spotting and crowning.

UPPER NINEMILE COMPLEX, Lolo National Forest. The fires are located near Huson, MT. The following fires are included in this complex: Siegal Pass #7, East Fork Beecher, Pats Creek, Grave Creek, Big Blue, Alpine Divide and Lower Blue. Voluntary evacuation of five cabins in the area has occurred. Access problems and rugged terrain are deterring containment efforts.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type II Incident Management Team (Colla) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel and Magpie fires. A burnout operation has been initiated on Clear Creek. The fires south of the Flathead River may potentially join with the Grave fire on the Lolo National Forest.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Johnson) is assigned. A Type I Incident Management Team (Hefner) is assigned. Smoke and air operations along Highway 12 has necessitated the use of pilot cars to lead traffic through the fire area.

COUGAR CREEK, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Gauger) is assigned. The fire is 30 miles southwest of Philipsburg, MT. A few smokes have been located along the fireline. Crews are making progress, assisted by helicopter bucket drops.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Carvalho) is assigned. The complex consists of the Falls Creek and Copper Creek fires, 30 miles southwest of Philipsburg, MT. The fires are creeping and smoldering. Protection measures are in place for three threatened structures.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Specht) is assigned. Observed fire behavior includes torching inside the perimeter and spotting down canyon from Mussigbrod Lake. An anchor point has been established at the lake.

BOULDER HILL, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Ariss) is assigned to both this fire and the High Ore Road fire. This fire is two miles north of Boulder, MT. The upper end of the fire has been the most active.

HIGH ORE ROAD, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Ariss) is assigned. The fire is three miles northeast of Basin, MT. Intense fire activity has been observed along Bishop Road, with some spotting across the road. One home in the area was protected by retardant drops.

JUDITH COMPLEX, Lewis and Clark National Forest. A Type II Incident Management Team (Hoff) is assigned. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. A new spot fire has been located outside the fireline on the Lost Fork River. Mopup is underway.

CANYON FERRY COMPLEX, Helena National Forest. A Type I Incident Management Team (Waterbury) is assigned. This complex, located 12 miles north of Helena, MT, consists of the Bucksnot and Cave Gulch fires. A burnout operation has been initiated on the northern and eastern perimeters to secure existing firelines. Packers are transporting water and supplies to this area of the fire.

MCDONALD II, Lewis and Clark National Forest. A Type II Incident Management Team (Doman) is assigned. The fire is 36 miles southwest of Choteau, MT. An emergency plan has been completed for threatened areas. Cabin protection operations have been successful and the crew has been released.

THREE BEARS, Nez Perce National Forest. This fire, 29 miles from Elk City, ID, is burning actively on both sides of the Salmon River. The Allison Ranch site is being protected. Preparations are in progress to protect additional sites.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Bennett) is assigned. This fire is 19 miles east of Seeley Lake, MT. Some spotting is occurring near Moser Mountain and north toward the Falls Creek drainage. However, fire spread has been minimal over the past 24 hours.

SOUTH FORK NEMOTE #4, Lolo National Forest. This fire is 12 miles northeast of Alberton, MT. Three dozers, two water tenders and one helicopter loaned from the Upper Monture fire are working to suppress this fire. Containment difficulties are being caused by heavy logging slash, extremely dry fuels and low relative humidities.

PARKE PEAK, Glacier National Park. This fire was ignited by lightning on 7/23 in the northwest corner of the park. The fire's size increased by 100 acres during the past 24 hours and two spot fires have been found north of Kintla Creek. Due to heavy fuel loadings, inaccessible terrain and increased fire activity, a confinement strategy is being implemented.

TAYLOR SPRINGS FIRES, Bitterroot National Forest. This group of seven fires is 26 miles southeast of Darby, MT. All fires are burning actively for the second day. Poor access has hindered suppression efforts.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

WASATCH COMPLEX, Wasatch-Cache National Forest. A Type I Incident Management Team (Dague) is assigned. A Type II Incident Management Team (Saleen) is transitioning with Dague's Type I Team today. This complex consists of the Oak Hill, Iron Mine Lake, Cottonwood, East Vivian and Wallsburg fires. All are located southeast of Salt Lake City, UT. Holding actions, mopup and rehabilitation operations continue on the accessible sections of the Oak Hill fire. Air attack succeeded in stopping fire spread and reduced the number of spot fires in the area above Willow Canyon and American Fork Canyon. Highway 92 and the Timpanogos Monument remain closed. The Wallsburg fire has been declared controlled.

OLDROYD COMPLEX, Fishlake National Forest. A Type I Incident Management Team (Hutchinson) and a Type II Incident Management Team (Shell) are assigned. This complex includes the Oldroyd, Mona West, Broad, Mourning Dove and Yance fires near Richfield, UT. Firefighters are making good progress on all the fires in the complex. Favorable weather conditions continues to assist firefighting operations. Rehabilitation operations are in progress on all dozer and hand lines.

BRUIN POINT, Moab Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned to this and the Range Creek fire. This fire is burning in timber 30 miles east of Price, UT. Active spotting and burning continued yesterday, yet good progress was made on construction of dozer lines. Fire behavior includes torching and crowning in dense conifer stands with spotting up to one quarter mile.

CLEAR CREEK, Salmon-Challis National Forest. Two Type I Incident Management Teams (Hart and Bateman) are assigned. The fire is 12 miles west of Salmon, ID. The 3rd Battalion 5th Marines from Camp Pendleton, California, commanded by Col. Callihen, is assigned. Training will be completed today. Plans are being made to protect the town of Salmon's municipal watershed. Structure protection remains in place. Weather

conditions have moderated, slowing fire activity. The fire has destroyed the two longest wood pole power line crossings in the country.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Vail) is assigned. The fire is 23 miles north of McCall, ID. The 3rd Battalion 16th Field Artillery from Ft. Hood, Texas, commanded by LTC Daryl Williams, is assigned. Fire activity moderated for the second day with minimal acreage increase. Some downhill spread occurred on the north flank. Military crews continued mopup operations. Some were moved to more active divisions.

SALT LAKE DESERT COMPLEX, Salt Lake District, BLM. This complex, consisting of the Aragonite, Bismark and Box Canyon fires, are three miles north of Eureka, UT. Interior torching and minor flare-ups were observed along the fireline on the Bismark fire.

EASTERN IDAHO COMPLEX, Upper Snake River District, Eastern Idaho Area, BLM. A Type I Incident Management Team (Humphrey) is assigned. This complex includes the following fires: Coffee Point North, Flattop, Fisher Springs, Rattlesnake, Moonshine, Gentile Valley, Putnam, Tin Cup, Supon, Camus Creek, Sheep Station, Station Creek, Willow Creek and West Fork. Uncontrolled fires within the complex include West Fork, Supon and Moonshine.

BOULDER, Bridger-Teton National Forest. A Type II Incident Management Team (Zimmerman) is assigned. This fire is 15 miles east of Jackson, WY, in the Gros Ventre Wilderness. No new information was received.

RANGE CREEK, Moab Field Office, BLM. A Type II Incident Management Team (Suwyn) is assigned to fire and the Bruin Point fire. This fire is burning in timber 30 miles east of Price, UT. The fire is presently unstaffed. There was minimal fire activity observed yesterday. Four major spots were observed.

GRASS, Lower Snake River District, BLM. This fire is burning in grass fuels 16 miles north of Three Creek Town, ID. The fire started on 8/5 and has grown dramatically in size. Current threats are to structures, outbuildings, cattle, corrals and grazing land.

COW HOLLOW, Salt Lake District, BLM. This lightning-caused fire is burning west of Rush Valley, UT. The fire made significant runs to the west and south. A number of homes have been evacuated in Big Hollow Canyon.

10 MILE PASS, Salt Lake District, BLM. This lightning-caused fire is burning 17 miles east of Vernon, UT. Thunder cells over the fire caused intense fire behavior. Difficult terrain is impeding control efforts. GOODRICH, Payette National Forest. This fire is burning in grass and brush within two miles of Goodrich, ID. Firefighters completed a dozer line and accomplished a burnout operation.

FLOSSIE COMPLEX, Payette National Forest. This fire is 50 miles northeast of McCall, ID. The fire made a significant push and burned over the Chamberlain Guard Station. The structure was not destroyed. Two ranches are still threatened.

NORTH FORK WILDERNESS COMPLEX, Salmon/Challis National Forest. These

fires are located 40 miles northwest of Salmon, ID. There are ten fires in this complex, including the Butts and Filly fires.

CHOURNOS, State of Utah. This lightning-caused fire is 30 miles west of Ogden, UT. Intense fire behavior has been observed including wind driven upslope events.

CRATERS, Upper Snake River District, Eastern Idaho Area. This fire is on the south end of the Craters of the Moon National Park and is burning in extremely rough terrain. No new information was received.

LOGAN COMPLEX, Wasatch-Cache National Forest. A Type II Incident Management Team (Carr) is assigned. This complex includes the High Point and the Millville 2 fires, both located near Logan, UT. The High Point fire is controlled and the Millville 2 is expected to be controlled today.

WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

TROUT, Humboldt-Toiyabe National Forest. This fire is burning in pinyon pine and juniper about 30 miles northwest of Las Vegas, NV. Helicopter and air tanker retardant drops were very effective in holding the fireline and securing hot spots.

O'NEIL BASIN COMPLEX, Elko Field Office, BLM. A Type II Incident Management Team (Murphy) is assigned. This complex consisting of the Camp Creek, Cold Springs, Wildcat, Sun, Mahogany, and Stag fires is 40 miles

southeast of Jackpot, NV. There is still fire in all the major drainages in the fire area.

TWIN PEAK, Carson City Field Office, BLM. This lightning-ignited fire is burning in pinyon pine and juniper 60 miles east of Fallon, NV. The fire burned through constructed line, gaining about 1,500 acres. It continues to threaten livestock and wildlife habitat.

FIREBALL, Winnemucca Field Office, BLM. This fire is burning 23 miles northeast of Fernley, NV. The fire continued to spread rapidly, burning through sagebrush and grass fuels. Two miles of indirect dozer line were constructed and burned out. Crews will continue mopup operations and cold trailing today.

CHERRY, Ely Field Office, BLM. This fire, 30 miles northwest of Ely, NV, was contained on 7/19 but has spotted outside containment lines. The fire continues to smolder and torch as it burns through sagebrush, mountain mahogany, white fir and bristlecone pine fuels. A helitorch will be used to establish fireline along the ridge.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

KING, Kern County Fire Department. A Type I Incident Management Team (Ristow) is assigned. The fire is two miles southeast of Havilah, CA. A firing operation has been initiated to secure the northeast portion of the fire. Structure protection resources are in place.

MANter, Sequoia National Forest. A Type I Incident Management Team (Studebaker) is assigned. This fire is 15 miles northeast of Kernville, CA. Crews continue to work hot spots near the fireline in all divisions. Warmer, drier weather, small interior runs, spotting and torching are causes for concern. Burnout operations are ongoing.

NORTH FORK, San Benito-Monterey Ranger Unit, California Department of Forestry. The fire is two miles east of King City, CA. A California Department of Forestry Type I Incident Management Team (Trap) is assigned. Inaccessibility, high winds and low relative humidities are impeding containment efforts.

PECHANGA, Cleveland National Forest. A Unified Command with a California Department of Forestry Type I Incident Management Team (Heil) and a U.S. Forest Service Type II Incident Management Team (Dietrich) is in effect.

The fire is five miles east of Temecula, CA. A successful firing operation on the west flank has diminished the risk to residences on the Pechanga Indian Reservation. A threat still exists to 15 structures in the Magee Road area.

GOLDEN 2, Bakersfield District, BLM. A Type II Incident Management Team (Terwilleger) is assigned. This fire is burning in sagebrush and timber two miles south of Coleville, CA. Observed fire activity has been within containment lines. ARNOT 2, Stanislaus National Forest. This fire is 45 miles northeast of Sonora, CA. Crews are working on suppressing smokes located near the fireline.

SAWMILL, Inyo National Forest. The fire, near Independence, CA, was ignited on 8/5 by lightning. Critical wildlife habitat is threatened.

PARROT, Tuolumne-Calaveras Ranger Unit, California Department of Forestry. This fire is ten miles northwest of Sonora, CA. Crews are being transported to the fireline by boat. Parrots Ferry Road has been reopened.

SOUTHWEST AREA LARGE FIRES:

HONDO, Sante Fe National Forest. This fire is burning ten miles south of Jemes Springs, NM. Fire activity has increased along the north and northeast flanks. The fire burned across hand and dozer lines. Observed fire activity includes active torching and short crown runs.

PEAK, Tonto National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is six miles south of Globe, AZ. Fire activity has been minimal except for one spot fire. Crews were not able to continue burn out operations due to high humidity levels.

WALL, Albuquerque Field Office, BLM. The fire is burning in a remote portion of the El Malpais Wilderness 20 miles southwest of Grants, NM. Firefighters continue to monitor the fire.

PRIETA, Santa Fe National Forest. This lightning-caused wildland fire is being managed to accomplish resource objectives. It is burning in

Ponderosa Pine ten miles west of Abiquiu, NM.

ROCKY MOUNTAIN AREA LARGE FIRES:

HAMILTON, Montrose District, BLM. This lightning-caused fire is 25 miles northeast of Cortez, CO. Firefighters were able to save three gas wells and a cow camp that were threatened. The fire continues to burn actively.

PONY, Ute Mountain Agency, BIA. A Type I Incident Management Team (Lohrey) is assigned. This fire is burning in an isolated area ten miles south of Cortez, CO. Firefighters continue to protect Mesa Verde National Park residences. The fire made a run to the south along Wetherill Mesa. Ninety percent of the fire is burning in inaccessible terrain. Mesa Verde remains closed and all employees have been evacuated.

CABAZON SOUTH, Southern Ute Agency, BIA. A Type II Incident Management Team (Sisk) will be reassigned from the Pony Incident to this incident today. This fire is burning 35 miles southeast of Durango, CO. No other information was received.

NORTHWEST AREA LARGE FIRES:

TAMARACK CREEK, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. The fire is burning in grass and timber 50 miles west of John Day, OR. The fire has been exhibiting extreme behavior, with 80 foot flame lengths. Several ranches and commercial timber stands are threatened.

KERN, Vale District, BLM. This fire is 25 miles south of Vale, OR. Crews are making good progress, assisted by air tankers which are dropping on inaccessible areas of the fire. The fire is no longer threatening structures.

SLIDE MOUNTAIN, Malheur National Forest. A Type II Incident Management Team (Jackson) is assigned. The fire is 10 miles south of Prairie City, OR. The fireline constructed yesterday is holding and crews, supported by Oregon National Guard helicopters, are making significant progress.

BIG GULCH, Burns District, BLM. The fire is burning in juniper and sagebrush 18 miles southeast of Crane, OR. Containment was expected last night.

FLAT CREEK, Wenatchee National Forest. This lightning-caused fire is 18 miles northwest of Stehekin, WA, in the Glacier Peak Wilderness, adjacent to North Cascades National Park. The fire is being monitored from a viewpoint and by helicopter. Inaccessibility and lack of safety zones make suppression difficult.

BUFFALO LAKE, Colville Agency, BIA. A Type II Incident Management Team (Furlong) has been ordered. This fire, three miles northeast of Elmer City, WA, was caused by an electric fence. The fire ran through grass and has moved into timber. Several ranch structures, timber, livestock and cultural resources are threatened. A wind shift could threaten structures near McGinnes Lake and the resort located there.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR SOUTHWEST WYOMING FOR DRY LIGHTNING, LOW HUMIDITY AND GUSTY WINDS ***

*** A FIRE WEATHER WATCH IS POSTED FOR SOUTHWEST AND SOUTH CENTRAL OREGON FOR DRY LIGHTNING ***

A weak wave of air moving through the northern states will bring cooler air and more stable conditions to Washington, Oregon, Idaho and Nevada. Montana will be a bit more unstable with isolated to scattered afternoon thunderstorms. Utah will be dry with isolated afternoon thunderstorms in the mountains. Afternoon thunderstorms are also expected in Arizona, New Mexico, Colorado and Wyoming. An upper level low off the California coast will bring isolated mainly dry thunderstorms to northern California, southwest Oregon and the northwest corner of Nevada. Southern California will remain dry.

High temperatures will reach into the 80's and 90's in most areas and up

to 110 in the western deserts of Utah, Arizona and southern Nevada. Temperatures will be between 110 and 115 degrees across the deserts of southern California and southwestern Arizona.

Minimum relative humidities will drop to the single digits and teens in the southern portion of the west and range from 10 to 20 percent across the north. Winds are forecast to be generally 10 to 20 mph during the afternoon hours.
