

INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, JULY 1, 2000 - 0900 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fires were reported in the Eastern, Western Great Basin and Southern California Areas. Crews made good progress in Alaska, the Northwest and Northern Rockies on their large fires. Forecasted dry lightning combined with high temperatures and low relative humidities will contribute to new fire activity in areas of the western United States. Very high and extreme fire danger indices were reported in Oregon, Alaska, California, Idaho, Utah, Nevada, Arizona, Washington, Wyoming, Colorado, and Mississippi.

NORTHWEST AREA LARGE FIRES:

24 COMMAND/TWO FORK, Saddle Mountain NWR, Fish and Wildlife Service. A Type I Incident Management Team (Waterbury) and a Type II Incident Management Team (Ariss) are assigned. This fire is northwest of Richland, WA and was formerly referred to as the Two Fork fire. The fire was caused by a motor vehicle accident. A burnout operation was successfully completed and crews are now concentrating on mop up and securing firelines.

LUG NUT, Lakeview District, BLM. A Type II Incident Management Team (McElwain) is assigned. This lightning-caused fire is 22 miles northeast of Fort Rock, OR. The fire is burning actively and burnout operations are being conducted from existing roads. Difficulties include access problems due to large areas of lava fields.

LUG NUT	OR	LAD	1200	0	UNK	135	2	10	2	0	NR	150K	

WESTERN GREAT BASIN AREA LARGE FIRES:

RENO COMPLEX, Carson City Field Office, BLM. This fire is approximately 10 miles north of Reno NV. A Type I Incident Management Team (Carvelho) is assigned. This complex consists of the Hungry, Antelope, Turtle, Canoe and Jones Canyon fires. The fires received strong winds today and crews worked to complete firelines.

EASTGATE, Carson City Field Office, BLM. This fire is 60 miles east of Fallon, NV. The fire is burning in thick pinyon pine and juniper and is inaccessible to engines. The incident received some light rain yesterday.

RAMSEY, Carson City Field Office, BLM. A Type II Incident Management Team (Burdick) is assigned. The fire is burning near Fernley, NV in grass,

sagebrush, pinyon pine and juniper fuels. The fire is burning in steep, rocky terrain and currently powerlines and a microwave repeater site are threatened. Strong west winds contributed to large fire growth yesterday.

ALASKA AREA LARGE FIRES:

CLEAR, Fairbanks Area, Alaska State Division of Forestry. A Type II Incident Management Team (McKnight) is assigned. This fire is burning in black spruce and mixed hardwoods 20 miles southwest of Nenana. Light precipitation was received in the fire area and the fire is now contained. Crew are currently working to secure the fire's edge. Some demobilization is occurring.

NATLARATLEN RIVER, Galena Zone BLM. This fire is 20 miles north of Galena burning in tundra and spruce. Progress continued as afternoon cloud cover helped to reduce the fire activity.

TOLOVANA DOME, Tanana Zone BLM. This fire, 60 miles northwest of Fairbanks, is burning in black spruce and hardwoods. Crews continued to secure the fire's perimeter and rain has helped suppression efforts.

BEARPAW MOUNTAIN, Tanana Zone BLM. The fire is burning in black spruce 100 miles southwest of Fairbanks. The fire had cooler weather with clear skies and gusty winds. Smokejumpers and helitack continue to perform cabin site protection.

ZITZIANA, Tanana Zone BLM. This fire, 85 miles west of Fairbanks, was lightning-caused on 6/13. Helitack and hotshot crewmembers continued cabin protection by constructing saw lines and establishing hose lays. The south flank of the fire was backing into black spruce and the north flank was creeping in hardwoods.

NORTHERN ROCKIES AREA LARGE FIRES:

BEAR CAMP, Clearwater National Forest. A Type II Incident Management Team (Colla) is assigned. The fire is 40 miles southwest of Missoula, MT. Crews constructing fireline were supported by aviation resources which resulted in good progress towards containment of the fire.

BEAR CAMP		ID CWF	350	75	7/2	197	7	11	5	0	NR	NR	

SOUTHERN CALIFORNIA AREA LARGE FIRES:

BROOMSEDGE, Hawaii Volcanoes National Park, National Park Service. This grass fire is 30 miles southwest of Hilo, HI. Hot and dry conditions contributed to rapid fire growth. The cause of the fire is currently under investigation. A few resources have been ordered from the mainland.

BARRETT, San Diego Ranger Unit, California Division of Forestry. This fire is near Tecate, CA. This fire was started by a campfire and crews made good progress yesterday.

EASTERN GREAT BASIN AREA LARGE FIRES:

FLAT BROKE, Lower Snake River District, BLM. This fire is 17 miles south of Oreana, ID. Thunderstorm winds and dry fuels contributed to rapid fire growth. The fire is currently burning in a grazing allotment.

5N3 CREEK, Lower Snake River District, BLM. This fire is on the Idaho-Nevada border, south of Three Creek, ID. The fire activity had diminished last evening and crews are making good progress. Ranchers are moving cattle out of the fire area.

GRASSY HILLS, Lower Snake River District, BLM. The fire is currently burning 15 miles west of Roseworth, ID. Containment was expected last night.

KINYON, Lower Snake River District, BLM. The fire is five miles northwest of Roseworth, ID. Crews are making good progress and airtanker operations were successful in assisting suppression efforts.

CEDAR FIELD, Upper Snake River District, BLM. The fire is 10 miles southwest of American Falls, ID. The fire is burning in grass and sagebrush near the Massacre Rocks State Park.

VANDERFORD, Upper Snake River District, BLM. The fire is burning in grass

and sagebrush 10 miles west of Aberdeen, ID. Containment was expected last night.

OUTLOOK:

*** A RED FLAG WARNING IS ISSUED FOR SOUTH CENTRAL AND SOUTHEASTERN IDAHO FOR DRY THUNDERSTORMS AND LOW FUEL MOISTURES ***

*** FIRE WEATHER WATCHES ARE ISSUED FOR THE FOLLOWING AREAS: SOUTHEASTERN IDAHO FOR STRONG WINDS, LOW FUEL MOISTURES AND DRY THUNDERSTORMS. CENTRAL AND SOUTHEASTERN MONTANA FOR DRY THUNDERSTORMS, LOW RELATIVE HUMIDITIES AND HIGH TEMPERATURES. THE UPPER GREEN RIVER BASIN IN WESTERN WYOMING, WESTERN MONTANA AND SOUTH CENTRAL OREGON FOR STRONG WINDS AND DRY THUNDERSTORMS. NORTHERN NEVADA AND NORTHEAST CALIFORNIA FOR GUSTY WINDS AND LOW RELATIVE HUMIDITIES. ***

The southwest United States can expect showers and wet thunderstorms mainly over the mountains. Further north a trough moving into the Pacific Northwest will be responsible for some dry thunderstorm activity in parts of Oregon, Idaho and Montana. Temperatures in the Northwest will be cooler and winds will be breezy at 15 to 20 mph out of the west and northwest. The rest of the west should see winds generally out of the west and southwest in the 10 to 20 mph range. Minimum relative humidities will be 10 to 30 percent across the west. High temperatures will range from the 60's along the coast and higher mountains to 110 in the deserts.

Interior Alaska will be mostly sunny in the east with increasing clouds in the west with some rain. Highs will be in the mid 60's to mid 70's and minimum relative humidities will be from 25 to 40 percent.
