

INCIDENT MANAGEMENT SITUATION REPORT
 THURSDAY, JULY 6, 2000 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fires were reported in the Eastern Great Basin Area. Initial attack activity was moderate in the Great Basin and California and light in the other areas. The National Interagency Coordination Center processed orders for airtankers, helicopters, infrared aircraft, a caterer, a shower unit, radio equipment, crews, and miscellaneous overhead. Very high to extreme fire danger indices were reported in Colorado, Utah, Wyoming, Idaho, Nevada, Alaska, California, and Arizona.

ROCKY MOUNTAIN AREA LARGE FIRES:

An Area Command Team (Mann) has been ordered to manage the large fires in western Colorado and southwest Wyoming.

KLINGER, Craig District, BLM. This fire is 15 miles southwest of Ranglely, CO. It is burning in pinyon pine and juniper fuels. The fire is threatening a pipeline, a pump station, and several structures. High winds and low relative humidities have caused the fire to spread rapidly.

BUSTER FLATS, Dinosaur National Monument, NPS. A Type II Incident Management Team (Sisk) is assigned. This fire is burning in pinyon pine and juniper 75 miles northwest of Craig, CO. Winds gusting to 40 mph and low relative humidities are contributing to rapid fire spread. Threats are to Brown s Park FWS headquarters, residences and historic buildings.

CONE MOUNTAIN, Grand Junction District, BLM. A Type II Incident Management Team (Hartman) is assigned. This fire is burning in ponderosa pine, pinyon pine and juniper 38 miles southwest of Grand Junction, CO. Long range spotting, shifting winds and 40 foot flame lengths are challenging suppression efforts. One outbuilding and a powerline have been destroyed. Historic mining structures, residences, a radio tower, and powerlines are threatened.

WILD HORSE BASIN, Rock Springs District, BLM. A Type II Incident Management Team (Gardner) is assigned. This fire, near Rock Springs, WY, is burning in pinyon pine, juniper and sagebrush. The fire has quadrupled in size due to high winds.

BLACK BUTTE, Rock Springs District, BLM. This fire is burning in grass, sagebrush, and juniper near Rock Springs, WY. High winds and low relative humidities are hampering containment efforts. Power lines are threatened.

EASTERN GREAT BASIN AREA LARGE FIRES:

BORROW PIT, Salt Lake Field Office, BLM. A Type II Incident Management Team (Shell) is assigned. This fire is 30 miles southwest of Salt Lake City near Tooele, UT. The fire is threatening a major media communication tower.

12 MILE, Upper Columbia, Salmon/Clearwater District, BLM. The fire is 12 miles south of Salmon, ID. A Type II Incident Management Team (Saleen) is being mobilized.

BELL MARE, Upper Snake River District, South-Central Idaho Area, BLM. The fire is 10 miles northwest of Bliss, ID. The fire has damaged powerlines and is currently threatening nearby ranches.

DIVIDEND, Northwest Utah State. This fire is 30 miles southwest of Provo, UT. No other information was received.

CEDAR FIELD, Upper Snake River District, BLM. This fire is burning in sagebrush and juniper ten miles southwest of American Falls, ID. High winds, torching and spotting are causing containment problems. Current threats are to cultural resources in Massacre Rocks State Park and wildlife habitat.

ALASKA AREA LARGE FIRES:

Alaska currently has 24 fires in limited and modified protection areas for 253,414 acres.

BERING CREEK, Tanana Zone, BLM. This fire is 35 miles southwest of Tanana. It was started by lightning on 6/14 in a limited suppression area. The north flank of the fire is moderately active in black spruce. Another crew is arriving today to protect native allotments and prepare for a burnout operation.

BEARPAW MOUNTAIN, Tanana Zone, BLM. The fire is burning in black spruce 100 miles southwest of Fairbanks. Cabin protection efforts have been

completed and all resources are demobilized. Aircraft will continue to monitor the fire s activity and assess future structure protection needs. This will be the last report unless significant activity occurs.

ZITZIANA, Tanana Zone, BLM. This lightning-caused fire is burning 85 miles west of Fairbanks. The southern flank of the fire is currently active with running and crowning fire behavior. Firefighters are continuing cabin protection operations.

NORTHWEST AREA LARGE FIRES:

LUG NUT, Lakeview District, BLM. A Type II Incident Management Team (McElwain) is assigned. This lightning-caused fire is burning in lava fields 22 miles northeast of Fort Rock, OR. The fire will be transitioning back to the district today. It will then be monitored daily throughout the summer. This will be the last report unless the fire s status changes.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED IN WESTERN WYOMING AND MOST OF UTAH FOR VERY LOW RELATIVE HUMIDITY VALUES AND STRONG GUSTY WINDS ***

*** A FIRE WEATHER WATCH IS POSTED IN CENTRAL WYOMING FOR STRONG WINDS AND LOW RELATIVE HUMIDITIES ***

*** A FIRE WEATHER WATCH IS POSTED IN WESTERN COLORADO FOR STRONG WINDS AND EXTREMELY DRY CONDITIONS ***

Colorado will have mostly sunny skies in the morning, becoming partly cloudy by afternoon with locally strong winds. High temperatures will be in the 70's in the mountains and 80 to 90 at lower elevations. Winds will be southwest at 10 to 20 mph east of the Continental Divide and 15 to 30 mph in the western part of the state. Minimum relative humidities will be from 5 to 20 percent.

Wyoming will be partly cloudy and breezy with isolated showers and thunderstorms over the northern mountains. High temperatures will be between 70 and 80 in the mountains and from 80 to 90 in the valleys. Winds will be southwest at 15 to 30 mph. Minimum afternoon relative humidities will be 5 to 15 percent in the valleys, and 20 to 30 percent in the mountains.

Utah will be partly cloudy in the afternoon with isolated dry thunderstorms and strong winds. High temperatures will be in the 70's in the mountains and 85 to 100 in the valleys and deserts. Winds will be south to southwest at 15 to 25 mph with gusts to 30 mph. Relative humidities will be 2 to 10 percent in the deserts and up to 20 percent in the mountains.

Idaho will be partly cloudy with scattered showers and thunderstorms mainly in the mountains. High temperatures will be in the 60's in the mountains and 75 to 85 at lower elevations. Winds will be northwest to southwest at 10 to 15 mph. Minimum relative humidities will be 15 to 40 percent.

Nevada will be mostly sunny, except partly cloudy across the northern part of the state. High temperatures will range from 60 to 75 at high elevations and up to 90 in the desert areas. Winds will be from the southwest at 15 to 25 mph. Relative humidities will be 10 to 20 percent in the deserts and 20 to 40 percent in the mountains.
