

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, JULY 12, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

The Western Great Basin, Eastern Great Basin and Northern Rockies Areas reported new large fire activity. Initial attack activity was moderate in the Northwest, Northern Rockies and Great Basin Areas. The National Interagency Coordination Center processed orders for airtankers, helicopters, radio equipment, engines, and miscellaneous overhead. Very high to extreme fire danger indices were reported in Oregon, Washington, California, Montana, Idaho, Utah, Nevada, Arizona, Colorado, and Wyoming.

WESTERN GREAT BASIN AREA LARGE FIRES:

CHERRY, Ely Field Office, BLM. This fire is 70 miles northwest of Ely, NV. The fire is burning in dense pinyon pine, juniper and white fir. Wind shifts have caused irregular fire behavior, rapid rates of spread and the smoke is creating some visibility problems. Airtankers have been used to effectively protect structures. The fire has burned into a wilderness study area.

STRAWBERRY, Ely Field Office, BLM. A Type II Incident Management Team (Murphy) is assigned. The fire, which was caused by lightning, is 30 miles northeast of Eureka, NV. Fuels involved are grass, sagebrush, oakbrush, pinyon pine and juniper. Crews are making good progress on fireline construction. Threats are to wildlife habitat.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	EST LOSS	\$\$\$ C-T-D

EKD = Elko Field Office, BLM

BMD = Battle Mountain Field Office, BLM

ROCKY MOUNTAIN AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage the large fires in western Colorado. A Type II Incident Management Team (Anderson) is staging in Denver.

BUSTER FLATS, Dinosaur National Monument, NPS. A Type II Incident Management Team (Sisk) is assigned. This fire is burning in pinyon pine and juniper 75 miles northwest of Craig, CO in very steep terrain. Containment has not yet been achieved due to very rugged terrain and safety concerns for firefighters. Open perimeter is being mopped up with

helicopter drops.

SOUTHERN AREA LARGE FIRES:

LONGLEAF VISTA, Kisatchie National Forest. A Type I Incident Management Team (Melton) is assigned. The fire is 35 miles northwest of Alexandria, LA and is burning in a wilderness area. No other information was reported.

F & W, Florida State Division of Forestry. This lightning-caused fire is in Calhoun County, northeast of Panama City. No new information was reported.

EASTERN GREAT BASIN AREA LARGE FIRES:

TILDEN, Upper Snake River District, Eastern Idaho Area, BLM. This fire is burning on state and private land nine miles southeast of Atomic City, ID. Fuels are grass and sagebrush.

CLEAR CREEK, Salmon-Challis National Forest. This lightning-caused fire is burning in a wilderness area 26 miles northwest of Salmon, ID. The suppression strategy is to contain the fire using natural barriers. Helicopter bucket work is keeping the fire from crossing to the east side of Clear Creek.

SLD = Salt Lake Field Office, BLM

ALASKA AREA LARGE FIRES:

Alaska currently has 25 unstaffed fires in limited protection areas for 333,949 acres.

ZITZIANA, Tanana Zone, BLM. This lightning-caused fire, which started on 6/13, is 85 miles west of Fairbanks. Crews continue fireline construction around native allotments on the Tanana River. The fire received substantial precipitation and is showing very little activity.

BEARPAW MOUNTAIN, Tanana Zone, BLM. This fire is burning in black spruce 100 miles southwest of Fairbanks. It was started on 6/24 by lightning. Mopup operations are nearing completion.

BERING CREEK, Tanana Zone, BLM. This fire is 35 miles southwest of Tanana. It was started by lightning on 6/14 in a limited suppression area. Recent showers and fog have assisted crews in progressing with mopup work.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED IN THE CENTRAL AND NORTHEAST MOUNTAINS OF OREGON AND HIGHER TERRAIN OF SOUTHEAST WASHINGTON FOR DRY LIGHTNING ***

*** A FIRE WEATHER WATCH IS POSTED IN NORTHERN IDAHO AND SOUTHWEST MONTANA FOR DRY LIGHTNING ***

*** A FIRE WEATHER WATCH IS POSTED IN PORTIONS OF CENTRAL MONTANA FOR DRY LIGHTNING AND GUSTY WINDS ***

Monsoon moisture will continue to circulate into portions of Utah and Colorado, bringing isolated to scattered afternoon showers and thunderstorms. The lingering moisture in the western Great Basin will move north into central Oregon, Idaho, and western Montana bringing a chance of mainly dry thunderstorms. The remainder of the Great Basin will be mostly sunny to partly cloudy.

Winds will be west to southwest at 10 to 20 mph. Local gusts of 25 to 30 mph can be expected during the afternoon in parts of Utah. Temperatures will range from the 60's and 70's in the mountains to the 80's and 90's in lower elevations and up to 105 in the deserts of southern Utah and Nevada. Minimum humidities will be from 15 to 35 percent in most areas, except in the Utah and Nevada deserts where humidities will be from 5 to 15 percent.
