

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, JUNE 28, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

New large fires were reported in the Alaska, Northwest, Eastern Great Basin, and Western Great Basin Areas. Initial attack activity was moderate in the Northwest, Eastern Great Basin, California, and Southern Areas. Hot and dry weather in the Northwest and Great Basin, along with forecasted lightning, will result in continued high potential for fire activity. The National Interagency Coordination Center processed orders for a helicopter, radio equipment, caterers, a shower unit, a Type 1 crew, and miscellaneous overhead. Very high to extreme fire indices were reported in Alaska, Washington, Oregon, California, Idaho, Utah, Nevada, Arizona, New Mexico, and Mississippi.

ALASKA AREA LARGE FIRES:

CLEAR, Fairbanks Area, Alaska State Division of Forestry. A Type II Incident Management Team (McKnight) is assigned. This fire is burning in black spruce and mixed hardwoods 20 miles southwest of Nenana. The fire demonstrated significant activity on the east and south flanks. Structures within the perimeter have been successfully protected by engines and retardant. Crews and dozers are working to secure an anchor point and build fireline on the southwest perimeter.

NATLARATLEN RIVER, Galena Zone BLM. This fire is 20 miles north of Galena burning in tundra and spruce. Retardant and bucket drops did little to slow the spread of the wind-driven fire. Observed fire behavior includes torching in black spruce.

TOLOVANA DOME, Tanana Zone BLM. This fire, 60 miles northwest of Fairbanks, was ignited by lightning on 6/14. It is burning in black spruce and hardwoods bordered by sloughs on the east flank, which have slowed the fire's spread. The fire is active on the west flank.

BEARPAW MOUNTAIN, Tanana Zone BLM. The fire started on 6/24 and is burning in black spruce 100 miles southwest of Fairbanks. Cabins north of the fire on Mucha Lake are a concern. Helitack and smokejumpers are engaged in a burnout operation for cabin protection along the Kantishna River.

WESTERN GREAT BASIN AREA LARGE FIRES:

CHINA, Carson City Field Office BLM. A Type II Incident Management Team (Terwilliger) is assigned. The fire, ten miles south of Gardnerville, NV, was ignited by lightning. Cheatgrass, sagebrush, and pinyon-juniper are the predominant fuels. Eight residences and one commercial building are currently threatened.

WID = Winnemucca Field Office BLM

NORTHWEST AREA LARGE FIRES:

TWO FORK, Saddle Mountain NWR. This fire is 40 miles northwest of Kennewick, WA in the U.S. Department of Energy Hanford Site. Strong winds are pushing the fire through grass and sagebrush fuels.

BAKER CAN, Prineville District BLM. The fire is 12 miles northeast of Madras, OR. The fire is smoldering and backing in sage, grass, and juniper. One structure is threatened. Containment was expected last night.

BAKER CAN	OR	PRD	750	90	6/27	18	0	8	0	0	NR	NR

EASTERN GREAT BASIN AREA LARGE FIRES:

ARCH CANYON, Lower Snake River District BLM. This fire is burning in a wilderness study area 50 miles southwest of Twin Falls, ID. A wind shift caused the fire to make a run to the west yesterday outside of the wilderness area, and threatened two historical cabins. Structure protection forces are in place.

S.E. IMPACT, Lower Snake River District BLM. This human-caused fire is 42 miles south of Mountain Home, ID in the Saylor Creek Bombing Area. Current threats are to wildlife habitat.

S.E. IMPACT	ID	BOD	1200	0	UNK	62	0	10	1	0	NR	NR

SOUTHERN AREA LARGE FIRES:

DEAN COMMAND, Florida State Division of Forestry. The fire is in an inaccessible swamp area near Lakeland, FL in Polk County. The fire received rain yesterday and crews are mopping up.

MUSE COMMAND, Florida State Division of Forestry. The fire is east of St. Cloud, FL in Osceola County. Updated reporting indicates that this fire has destroyed two residences and several hunting camps. Strong, shifting winds are deterring containment efforts.

VNC = Ventura County Fire Department

OUTLOOK:

The western United States will be mostly sunny, except for some scattered thundershowers from the Sierra Nevada s and the mountains of Southern California, across the southern Great Basin to western Colorado. Scattered thundershowers will also occur over Arizona and New Mexico. Temperatures will be in the 80's and 90's at higher elevations and up to 110 in the southern deserts. Minimum relative humidities will be up to 40 percent along the coast, and 10 to 25 percent east of the Cascades and in the Great Basin.

Florida will be partly cloudy with scattered thunderstorms. High temperatures will be in the mid 80's to mid 90's. Winds will be southwest to southeast at 5 to 15 mph. Minimum relative humidities will be 50 to 60 percent.

Alaska's interior will be mostly cloudy with scattered showers. High temperatures will be in the 60's and low 70's. Winds will be west at 5 to 10 mph. Relative humidities will be 30 to 45 percent.
