

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, MAY 14, 2000 - 0800 MDT
NATIONAL PREPAREDNESS LEVEL III

CURRENT SITUATION:

No new large fires were reported nationwide, and initial attack activity was minimal. The National Interagency Coordination Center processed orders for airtankers, infrared aircraft, radio equipment, engines, a commissary unit, meteorological equipment, crews, and miscellaneous overhead. Very high to extreme fire indices were reported in New Mexico, Arizona, California, Texas, Oklahoma, and Indiana.

SOUTHWEST AREA LARGE FIRES:

CERRO GRANDE, Bandelier National Monument. An Area Command Team (Meuchel) and two Type I Incident Management Teams (Humphrey and Bateman) are assigned. The fire is burning near Los Alamos, NM. Structures lost include 191 residences, ten commercial buildings, and 12 outbuildings. In the south zone, crews and dozers are working the southeast portion of the fire to prevent spread into the community of White Rock. In the north zone, the fire spotted across Santa Clara canyon and began to make a significant run to the north. By mid-afternoon, fire activity diminished due to thick smoke shading the fuels.

SCOTT ABLE, Lincoln National Forest. The fire is located 20 miles south of Cloudcroft, NM. A Type I Incident Management Team (Studebaker) is assigned. Unburned islands within the fire perimeter are still active, and the potential for fire spread remains. Preliminary assessment indicates that approximately 20 residences, 16 outbuildings, and six vehicles have been destroyed.

OUTLET, Grand Canyon National Park. A Type I Incident Management Team (Fry) is assigned. The fire is burning in mixed conifer two miles north of North Rim Village. Increased fire activity resulted in an active air operation of multiple retardant drops. Current threats include administrative and historic structures at the National Park Service North Rim Administrative Site.

CREE, Lincoln National Forest. A Type I Incident Management Team (Hart) is assigned. The fire is burning in pinyon-juniper forest near Ruidoso, NM. Moderating conditions are allowing significant progress to be made on fireline construction. Mop up and rehabilitation efforts are underway.

MANUELITAS, Las Vegas District, New Mexico State Forestry. The fire is burning in ponderosa pine forest, 14 miles north of Las Vegas, NM. The evacuation order for all areas and the closure of Highway 94 have been lifted. Some fire spread occurred. Crews conducted a burnout operation to secure the firelines.

COON CREEK, Tonto National Forest. The fire is 20 miles north of Globe, AZ in the Sierra Ancha Wilderness. Crews continued to patrol and mop-up. No significant fire activity occurred.

SOUTHERN AREA LARGE FIRES:

COOK RANCH, Texas State Forest Service. The fire is located 36 miles south of Ft. Stockton, TX. Crews are making progress constructing fireline in rugged terrain. Burnout operations are continuing.

LONG BAY, National Forests of Florida. This fire is in the Apalachicola National Forest, 40 miles southwest of Tallahassee, FL. Good progress was made on the fire despite increased winds. Containment is expected today.

OUTLOOK:

*** A RED FLAG WARNING IS POSTED IN THE FLORIDA PANHANDLE FOR GUSTY WINDS AND WARM TEMPERATURES ***

Florida will be mostly sunny in the panhandle. The rest of the state will be partly cloudy with a chance of showers and afternoon thunderstorms.

Winds will be north to northeast at 12 to 18 mph. High temperatures will be in the mid 80's to the lower 90's. Minimum relative humidities will be 30 percent in the panhandle and 40 to 50 percent elsewhere.

New Mexico will be mostly sunny and breezy. Winds will be southwest at 15 to 30 mph. Afternoon temperatures will be near 70 in the mountains and in the mid 80's in desert areas. Afternoon relative humidities will be 8 to 38 percent.

Arizona will be mostly sunny, breezy and warmer. High temperatures will be in the lower 70's in the mountains to the upper 90's in the deserts. Winds will be southwest at 15 to 25 mph. Minimum relative humidities will be 5 to 10 percent.

West Texas will be partly cloudy with a slight chance of afternoon thunderstorms. Winds will be southeast at 10 to 20 mph. High temperatures will range from the upper 70's in the mountains to near 100 along the Rio Grande. Afternoon relative humidities will be around 20 percent.
