

INCIDENT MANAGEMENT SITUATION REPORT
 SATURDAY, OCTOBER 7, 2000 - 0900 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Initial attack activity was minimal throughout the United States. No new large fires were reported. The Southern Area contained one large fire in Oklahoma. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, Utah, Arizona, Kansas, and Nebraska.

SOUTHERN AREA LARGE FIRES:

NOLAN, Texas State Forest Service. This fire is 30 miles west of Abilene, TX. The fire is burning in cedar brush, oak, and mesquite fuels. This will be the last report unless new information is received.

PUDDING VALLEY, Texas State Forest Service. This fire is in Jack County, TX. This will be the last report unless new information is received.

CROWLEY, Texas State Forest Service. This fire is near Crowley, TX. The fire is burning in grass, brush and oak fuels. This will be the last report unless new information is received

QUAIL RUN, Texas State Forest Service. This fire is 30 miles west of Fort Worth, TX. Fuels involved are cedar, oak, mesquite, juniper and brush. This will be the last report unless new information is received

GRAFORD, Texas State Forest Service. The fire is burning in mesquite, cedar and brush 50 miles west of Fort Worth, TX. This will be the last report unless new information is received

EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. This complex, consisting of the Clear Creek and Marlin Springs fires, is 12 miles west of Salmon, ID. Rehabilitation efforts are continuing.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC	EST LOSS	\$\$\$ C-T-D
CLEAR CREEK COM	ID	SCF	216961	90	10/10	78	2	5	1	1	0	71.5M

OUTLOOK:

A weak low pressure offshore will keep California and Southern Oregon coastal areas under fog. A ridge over the western states will keep the region sunny, warm and dry. High temperatures will be in the mid 60's to 70's along the coast, 70's and 80's inland, and in the 90's to lower 100's in the desert areas and lowest valleys. Winds will be northeast to southeast at 10 to 15 mph across southern Oregon and northern California and elsewhere winds will be south to southwest or onshore winds at 5 to 15 mph. Minimum relative humidity will be 10 to 20 percent in the driest areas, 15 to 35 percent inland and higher along the coast.

For Texas and Oklahoma, high pressure at the surface associated with a cold trough aloft will keep temperatures quite cool. Breezy north winds will prevail as well. There will be a chance of showers near the southeast Texas coast and a slight chance of light rain, sleet or snow in the west. High temperatures will be in the upper 30's and 40's west, and 50's to 60's in the east. Winds will be north to northeast at 15 to 25 mph. Minimum relative humidity will range from 30 to 40 percent in the north and central parts of Oklahoma and Texas and 50 to 70 percent to the south and west.
