

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, OCTOBER 9, 2000 - 0900 MDT
NATIONAL PREPAREDNESS LEVEL

CURRENT SITUATION:

Initial attack activity was light and no new large fires were reported to the National Interagency Coordination Center. A low pressure system in the west will bring cooler temperatures and higher relative humidity to the large fire in northern California. Very high to extreme fire indices were reported in California, Idaho, Kansas, and Nebraska.

NORTHERN CALIFORNIA AREA LARGE FIRES:

JOURNEY, Six Rivers National Forest. This fire is located near Ruth Lake in Trinity County, California. The cause of the fire is under investigation. Steep terrain, winds, and low relative humidity are causing control problems. Current threats are to structures and timber resources.

EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. This complex, consisting of the Clear Creek and Marlin Springs fires, is 12 miles west of Salmon, ID. Rehabilitation efforts are continuing. No new information was reported.

OUTLOOK:

*** FIRE WEATHER WATCH FOR EASTERN FLORIDA FOR LOW RELATIVE HUMIDITY AND STRONG WINDS ***

*** RED FLAG WARNING FOR NORTHEAST AND CENTRAL FLORIDA AND SOUTHEAST GEORGIA FOR LOW AFTERNOON RELATIVE HUMIDITY AND STRONG WINDS. ***

A strong Pacific storm will move into the west coast bringing a chance of rain and mountain snow showers mainly from Lake Tahoe northward. Snow level will be above 8000'. Partly cloudy and locally breezy conditions are expected. High temperatures will be in the 40's and 50's in the mountains, 60's to 70's along the coast and 70's to 90's inland and in the lowest valleys. Minimum relative humidity will be 15 to 25 percent in the driest areas, 25 to 50 percent inland and higher along the coast. West to southwest winds 10 to 20 mph are possible.

Subtropical moisture in Texas and Oklahoma will bring continued rain in the southeast and snow or sleet in the west. Partly cloudy skies are expected across the Texas Panhandle. High temperatures will be in the 40's and 50's in the north and west, and 50's and 60's in the east. Winds will be north to northeast 5 to 15 mph except south at 10 to 15 mph across the panhandle. Minimum relative humidity will be 40 to 50 percent.
