

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, SEPTEMBER 1, 2000 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL V

CURRENT SITUATION:

A total of two new large fires were reported, one each in Northern Rockies and Southern Area. Crews reached containment goals on eight large fires in the Northern Rockies, Northwest, Eastern Great Basin and Southern Area. Initial attack activity was light except moderate in the Southern Area. The 3rd Battalion, 2nd Marines from Camp LeJeune, NC, commanded by LTC Smith are traveling to Idaho Falls and being deployed to the Clear Creek incident. A trough from the Pacific will bring showers and chance of thunderstorms to most of the western states resulting in cooler temperatures and higher relative humidity. Very high to extreme fire indices have been reported in most of the western states, Kansas, Arkansas, Oklahoma and Texas.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in the Hamilton area. An Area Command Team (Mann) is assigned to manage the large fires in southwest Montana. An Area Command Team (Meuchel) is assigned to manage the large fires in central Montana. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana. Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

WILLIE, Custer National Forest. A Type I Incident Management Team (Frye) is assigned. This fire is five miles southwest of Red Lodge, MT. Cloud cover and moderate relative humidity kept the fire activity to a minimum. Residents were allowed to return to their homes within the area. Highway 212 remains closed to non-residential traffic.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. Fire activity has increased on most of the fires due to poor humidity recovery. Evacuations took place for at least 700 homes.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Myers) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fire. Fire behavior remains active with increased activity on the north slopes. Structure protection remains the priority.

BLODGETT TRAILHEAD, Bitterroot National Forest. A Type II Incident Management Team (Hendricks) is assigned. This fire is three miles northwest of Hamilton, MT. Fire activity remained minimal with no gain in acreage.

WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 15 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. The fires were active at the higher elevations with the Throng fire making a significant run to the northeast.

THOMPSON FLAT COMPLEX, Lolo National Forest. A Type I Incident Management Team (Studebaker) is assigned. This is a complex of six fires in the vicinity of Superior, MT. Fireline construction continues with conditions being conducive for direct attack.

UPPER NINEMILE COMPLEX, Lolo National Forest. A Type I Incident Management Team (Bateman) is assigned. The Army's 20th Engineers Battalion from Ft. Hood, Texas, commanded by LTC Shumway, is assigned. These fires are burning 25 miles northwest of Missoula, MT. Containment firelines are holding and mopup continues in most divisions.

CLEAR CREEK DIVIDE COMPLEX, Flathead Agency, BIA. A Type I Incident Management Team (Orich) is assigned. This complex, 60 miles northwest of Missoula, consists of the Clear Creek, Vanderburg, Siegel, Seepay and Magpie Creek fires. Good progress was made by crews on all fires in the complex.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Hoff) is assigned. This fire is 31 miles southeast of Missoula, MT. A half mile run in a northerly direction in Alder Creek drainage occurred. Current threats are to residential structures in the area.

MONTURE/SPREAD RIDGE, Lolo National Forest. A Type I Incident Management Team (Wands) is assigned. The fires are 15 miles east of Seeley Lake, MT. Fire growth was minimal today. Coordination with local officials for structure protection for effective evacuation of local residents and communities continues.

CROOKED, Clearwater National Forest. A Type II Incident Management Team (Anderson) is assigned. The fire is 50 miles southwest of Missoula, MT, near Lolo Pass. Minimal activity was observed over the majority of the fire.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Hart) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. Crews are continuing direct and indirect attack preparing for aerial burnout. Large fuels are burning well, with isolated torching and short runs.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. Two Type II Incident Management Teams (Joki and Greene) are assigned. These fires are 25 miles northeast of Belgrade, MT. Fire behavior was of low intensity with smoldering and creeping. A BAER team is assigned to work with the teams.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type I Incident Management Team (Bennett) is assigned. These fires are 12 miles

northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires which have now burned together. The fire remained active in the ground fuels with minimal torching.

STONE YOUNG, Kootenai National Forest. A Type II Incident Management Team (Kearney) is assigned. The complex is 65 miles northeast of Libby, MT. Cliff Point and the Loop fires have burned together according to control strategy. The fire continues to move slowly through the heavy fuels. Securing of firelines and mopup continues.

KOOTENAI COMPLEX, Kootenai National Forest. A Type I Incident Management Team (Longpre) is assigned. These fires are 20 miles northwest of Libby, MT. Isolated torching in the subalpine fire was observed. Fire acreage remained the same with crews successfully constructing fireline and mopping up.

TROY SOUTH, Kootenai National Forest. A Type II Incident Management Team (Gauger) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. This complex of fires is near Troy, MT. Cooler temperatures and higher relative humidity reduced fire activity. Crews continue fireline construction, mopup and patrol.

CHIPMUNK, Flathead National Forest. The fire is burning in spruce, subalpine fir and brush 45 miles southeast of Kalispell, MT. The fire continues to move to the east as it encounters lighter fuels. Continual spotting to the northeast is of concern. Monitoring continues on the northeast flank of the fire to aid in preparation of contingency plans.

GREEN MOUNTAIN, Kootenai National Forest. These fires are seven miles northwest of Trout Creek, MT. The complex includes the Green Mountain, McNeeley, Basin Creek and Engle fires. Natural barriers combined with helicopter bucket work aided in slowing fire growth. Creeping and isolated torching was observed in the unburned islands of fuel.

BURNT FLATS, Clearwater area, Idaho State Department of Lands. A Type I Incident Management Team (Stoval) is assigned. The fire is three miles from Whitebird, ID. Burnout operations continue to be successful. Rehabilitation plans are in place with preliminary steps being taken.

THREE BEARS, Nez Perce National Forest. A Type II Incident Management Team (Stump) is assigned. This fire is on both sides of the Salmon River, 29 miles from Elk City, ID. The majority of the fire is relatively inactive, however some short runs and torching were observed.

SUGARLOAF, Gallatin National Forest. The fire is 13 miles northeast of Wilsall, MT. Low fire activity observed.

CYCLONE RIDGE, Flathead National Forest. This fire is 35 miles north of Kalispell, MT. The fire received some light precipitation yesterday. No significant growth was observed.

SPRUCE COMPLEX, Yellowstone National Park. This is a complex of 11 fires in Yellowstone National Park. The complex consists of the Plateau, Moose, Unlucky, Boundary and several smaller fires. Moderate fire activity with very little acreage increase. The Unlucky, Moose and Plateau fire is staffed with monitors to observe fire activity.

JUDITH COMPLEX, Lewis and Clark National Forest. This complex consists of the Studhorse, Lost Fork and High Springs fires, which are 25 miles southwest of Stanford, MT. No significant activity observed.

SHARON, Glacier National Park. This fire is near North Fork in Glacier National Park, MT. Fire activity has been low. The National Park Service is monitoring the fire with daily aerial observation flights. Confinement strategy is in place as well as structure protection for three cabin sites in the area.

POACHER, Clearwater National Forest. This lightning-caused fire is 13 miles southeast of Powell, ID. Minimal fire activity was observed. It is being monitored by U.S. Forest Service personnel.

LIGHTNING MOUNTAIN 17, Idaho Panhandle National Forest. This fire is 18 miles northeast of Sandpoint, ID. Fuels are subalpine fir, Engleman spruce, brush and grass. Crews completed fireline construction on the southwest flank of the fire.

COPPER, Clearwater National Forest. This fire is 40 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. No new information was received.

PORPHYRY, Clearwater National Forest. This fire is 18 miles southeast of Powell, ID. No new information was received. U.S. Forest Service personnel are monitoring the fire.

HELEN CREEK, Flathead National Forest. This fire is 22 miles south of Spotted Bear, MT. The fire was actively backing to the west and south, which poses a potential threat to four structures in the area. The fire is being monitored by U.S. Forest Service personnel.

HIDDEN CREEK, Clearwater National Forest. The fire is 12 miles southeast of Powell, ID. The fire is mostly a backing fire with occasional torching.

LONG RIDGE, Nez Perce National Forest. This fire is in the Selway-Bitterroot Wilderness, 14 miles southwest of the Moose Creek Ranger Station. The fire is being monitored by reconnaissance flights and by the Gardiner Lookout.

MINARET PEAK, Flathead National Forest. The fire is near the Spotted Bear Ranger Station in the Bob Marshall Wilderness. The fire is a backing fire with no significant activity noted. U.S. Forest Service personnel are monitoring the fire s activity.

EAST THUNDER 14, Idaho Panhandle National Forest. This fire is 23 miles east of Sandpoint, ID. Fuels are subalpine fir, spruce, brush and grass. Forest Service personnel are monitoring the fire. The west flank of the fire is backing down steep terrain. Strategies have been prepared if the fire leaves the wilderness area.

PARKE PEAK, Glacier National Park. The fire has been burning since 7/23 in the northwest corner of the park. The fire received .10 inches of precipitation, which helped moderate the fire activity.

FROG LAKE, Clearwater National Forest. The fire is 16 miles southeast of

Powell, ID. The fire is being monitored by U.S. Forest Service personnel. Smoke has not been observed for several days.

ELIZABETH, Clearwater National Forest. The fire is 33 miles northeast of Pierce, ID. The fire is being monitored by U.S. Forest Service personnel. No new information was received.

SNOW CREEK, Clearwater National Forest. The fire is 30 miles northeast of Pierce, ID. U.S. Forest Service personnel are monitoring the fire.

COLLINS CREEK, Clearwater National Forest. The fire is 25 miles northeast of Pierce, ID. No new information was reported.

CRIMSON PEAK, Flathead National Forest. This fire is located in the Bob Marshall Wilderness. It is steadily backing into Young s Creek and Marshall Creek drainages. The fire is being monitored by U.S. Forest Service personnel.

LONE SHEEP, Nez Perce National Forest. This lightning-caused fire is 20 miles southwest of Elk City, ID. It is a backing fire in the east fork of Sheep Creek.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildfire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

TRAIL CREEK, Boise National Forest. A Type II Incident Management Team (Shell) is assigned. This fire is near the community of Atlanta, ID. Containment objectives have been confirmed, and is expected to transition to a Type III local incident management team.

CLEAR CREEK, Salmon-Challis National Forest. A Type I Incident Management Team (Hutchison) is assigned. The fire is ten miles west of Salmon, ID. The 3rd Battalion 5th Marines from Camp Pendleton, California will transition with the 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina.

MARLIN SPRINGS, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This fire is burning along the ridge between Montana and Idaho, 40 miles northwest of Salmon, ID. This complex consists of the Marlin Springs, Full Circle and Sister fires. The fire continues to increase in size. Better visibility aided in the evaluation of the fire.

TETON COMPLEX, Grand Teton National Park, NPS. A Type II Incident Management Team (Murphy) is assigned. This complex is north of Jackson, WY. It consists of the Wilcox, Moran, Hechtman, Glade and Enos fires. Structure protection remains in place. Containment problems for the fires in this complex include high winds, low relative humidity and heavy fuels.

YELLOWPINE COMPLEX, Payette National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex consists of the Nick and Indian fires and is located 20 miles east of McCall, ID. Structure protection and evacuation plans are in place if needed. The fire remains active and spot fires have been observed along the East Fork of the Salmon river.

NICK, Payette National Forest. This fire will be reported as part of the Yellowpine Complex in the future.

INDIAN/PROSPECT, Payette National Forest. This fire will be reported as part of the Yellowpine Complex in the future.

BLIND TRAIL COMPLEX, Bridger-Teton National Forest. A Type II Incident Management Team (Burdick) is assigned. This complex consists of the Blind and Boulder fires. The fires are 26 miles southeast of Jackson, WY. The Blind fire is in mopup and patrol status. The fire received some rain aiding containment efforts.

FONTENELLE, Bridger-Teton National Forest. A Type II Incident Management Team (Mesenbrink) is assigned. This lightning-caused fire is 20 miles north of Kemmerer, WY. The fire continues to grow despite the rain that has been received. Steep slopes, high winds and limited access are contributing to control problems.

BURGDORF JUNCTION, Payette National Forest. A Type I Incident Management Team (Dague) is assigned. The fire is 23 miles north of McCall, ID. The number of hot spots is declining as confirmed by infrared imagery. Increase in structures lost reflects current data from Warren Secesh area.

HARMON CREEK, Dixie National Forest. This fire is located 25 miles north of St. George, UT. Significant progress has been made towards containment.

MORSE, Salmon-Challis National Forest. The fire is burning in grass, sagebrush and douglas fir five miles east of May, ID. Very little fire activity was observed today with scattered clouds and cooler temperatures. Occasional flare-ups are still occurring.

SIDDOWAY, Targhee National Forest. This fire is burning in moderate to heavy timber 14 miles east of Swan Valley. Limited access, torching and spotting is hampering control efforts. The fire did receive some precipitation today which moderated fire activity.

SCF WILDERNESS, Salmon-Challis National Forest. A Type II Incident Management Team (Adams) has been assigned. Eleven wildland fires are currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Closure orders remain in effect for the area.

FLOSSIE COMPLEX, Payette National Forest. These fires are 50 miles northeast of McCall, ID. Structure protection continues at Root Ranch. No new information to report.

DIAMOND COMPLEX, Payette National Forest. These lightning-caused fires are 42 miles northeast of McCall, ID. This complex consists of the Lookout, Point, North Shellrock and South Shellrock fires. Structure protection remains in place for Big Creek and Edwardsburg. No new information to report.

NORTHWEST AREA LARGE FIRES:

EASTSIDE COMPLEX, Wallowa-Whitman National Forest. A Type II Incident Management Team (Gardner) is assigned. The complex consists of 11 fires adjacent to the Snake and Imnaha Rivers, 37 miles northeast of Enterprise, OR. The Thorn Creek and Jim Creek fires of the complex have burned together. Observed fire behavior was torching, spotting and running. Current threats are to residential structures, archeological sites, historical structures, grazing and private lands.

CARROL CREEK, Wallowa-Whitman National Forest. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. The fire is ten miles east of Wallowa Lake, OR. Active ground fire and occasional torching was noted in unburned islands of fuel. Structure protection is in place.

HASH ROCK, Ochoco National Forest. A Type II Incident Management Team (Jackson) is assigned. This fire is 18 miles northeast of Prineville, OR. The fire remained active. Unburned islands of fuel within the perimeter continue to be a concern. Burnout and holding operations continue on two divisions with mopup and patrol activities on the other divisions.

ROCKY MOUNTAIN AREA LARGE FIRES:

JASPER, Black Hills National Forest. This fire is 15 miles east of Newcastle, WY. A Type 1 Incident Management Team (Waterbury) is assigned. Fire continues to spread north and northwest. Line construction with burnout operations have been successful. Cooler weather with higher relative humidity have substantially aided the firefighting effort. Some evacuees have been allowed to return to their homes. Highway 16 remains closed on either side of the monument.

SOUTHERN AREA LARGE FIRES:

RANGER HILLS, Texas State Forest Service. The fire is burning in heavy brush and cedar 50 miles east of Abilene, TX. The power grid to two small towns has been shut down due to the fire. No new information was received.

MC GEE CREEK #2 COMPLEX, Oklahoma Division of Forestry. This fire is near Antlers , OK. No new information was received.

WESTINGHOUSE, Texas State Forest Service. This fire is located 30 miles north of Austin, TX. Several homes are threatened and a subdivision has been evacuated. The fire is burning in cedar, oak and juniper.

POSSUM KINGDOM, Texas State Forest Service. This fire is 60 miles west of Fort Worth, TX and is burning in oak, cedar, juniper and mesquite fuels. No new information was received.

COCKRUM, Texas State Forest Service. The fire is 30 miles north of Austin, TX. It is burning in heavy brush, juniper and cedar. This will be the last report unless new information is received.

OUTLOOK:

A Pacific trough along the west coast will bring cooler temperatures along with showers and thunderstorms to Washington, Oregon, Idaho, northern California and Nevada. A chance of showers and thunderstorms will continue across eastern Montana and Wyoming. Monsoonal moisture continues

to move north and will bring thunderstorms to the higher elevations from the Sierras across Nevada, Utah and Wyoming southward.

Winds will be on the increase over the Northwest with winds from the southwest 10-20 mph with gusts to near 30 mph. Winds will generally be south to southwest at 5-15 mph with gusts to 20 mph in the higher elevations.

Temperatures will generally be in the 70's to mid 80's in the mountains, mid 80's to 90's in the lower elevations and 100-110 in the hottest deserts. In the Northwest temperatures will be in the 60's mountains and 70's valleys.

Relative humidity will generally be 20-30 percent and in the teens in the driest areas.
