

INCIDENT MANAGEMENT SITUATION REPORT  
 MONDAY, SEPTEMBER 11, 2000 - 0530 MDT  
 NATIONAL PREPAREDNESS LEVEL IV

CURRENT SITUATION:

Three new large fires were reported, one each in the Eastern Great Basin, Southern California and Southern Areas. Crews reached containment goals on seven fires, two in the Northern Rockies, one in Rocky Mountain, one in Northern California, one in Southern California and two in the Southern area. Initial attack activity was light throughout the United States. Scattered showers and high elevation snow can be expected across eastern Montana, parts of Wyoming and Colorado due to a trough of low pressure that is shifting into the Northern plains. Very high to extreme fire indices were reported in, Idaho, Utah, Arizona, Nevada, California, Montana, Wyoming, Arizona, Colorado, Kansas, Arkansas and Oklahoma.

SOUTHERN AREA LARGE FIRES:

CHICKEN, Texas State Forest Service. This fire is located 20 miles east of Nacogdoches, TX. A Type II Incident Management Team (Sisk) is assigned. Crews continue to improve containment lines.

MOORE BRANCH, Texas State Forest Service. This fire is burning in a pine plantation 30 miles north of Beaumont, TX. A Type II Incident Management Team (Koehler) is assigned. No new information was received.

SHAMROCK, Texas State Forest Service. This fire is burning in grass, mesquite and juniper and is located 80 miles east of Amarillo, TX.

DEEP CREEK, Texas State Forest Service. This is fire burning near San Saba, TX. No new information was reported. This will be the last report unless new information is received.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Edrington) is assigned to manage the large fires in

the Hamilton area. An Area Command Team (Gale) is assigned to manage the large fires in northwest Montana.

VALLEY COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Stutler) is assigned. The Army's 3rd Battalion 327th Infantry from Ft. Campbell, KY, commanded by LTC Lehr, is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat and Mink fires. Precipitation and higher relative humidity is keeping the fire activity at a low level.

SKALKAHO COMPLEX, Bitterroot National Forest. A Type I Incident Management Team (Rutherford) is assigned. This group of fires is ten miles southeast of Hamilton, MT. Included in the complex are the Bear and Coyote fires. The fire activity remains light with cooler temperatures, higher relative humidity and light rain. WILDERNESS COMPLEX, Bitterroot National Forest. A Type II Incident Management Team (Cook) is assigned. The complex consists of 14 fires in the Selway-Bitterroot and Frank Church River of No Return Wildernesses, 40 miles southwest of Hamilton, MT. Large fires in the complex include the Hamilton, Lonely, Fitz, Thirty, Echo and Throng fires. Acreage decrease is due to better mapping. Fire activity remained light with cool, wet weather. This will be the last report unless there is a significant increase in fire activity.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Swope) is assigned. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek and Cooper Creek fires, 30 miles southwest of Philipsburg, MT. Crews continue to build direct fireline, mopup and secure existing containment lines.

MONTURE/SPREAD RIDGE, Lolo National Forest. The fires are 15 miles east of Seeley Lake, MT. Rehabilitation efforts have been completed. The fire received a steady drizzle of rain. This will be the last report unless there is a significant change in fire activity.

MAUDLOW/TOSTON, Central Land Office, Montana Department of Natural Resources and Conservation. A Type II Incident Management Team (Corbin) is assigned. These fires are 25 miles northeast of Belgrade, MT. The fire activity is low due to precipitation received.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. A Type II Incident Management Team (Specht) is assigned. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Three inches of snow fell on the higher elevations of the fires. Crews continue to make progress on hot spotting, cold trailing and rehabilitation efforts.

KOOTENAI COMPLEX, Kootenai National Forest. A Type II Incident Management Team (Novotny) is assigned. The Army's 1st Battalion 321st Artillery from Ft. Bragg, NC, commanded by LTC Mathis, is assigned. These fires are 20 miles northwest of Libby, MT. The Troy South Complex has been included within this complex. All fires were quiet today, and some rehabilitation is being implemented.

ALDER CREEK, Lolo National Forest. A Type II Incident Management Team (Davidson) is assigned. This fire is 31 miles southeast of Missoula, MT. Crews continued with direct fireline construction, with assistance from

aircraft operations.

#### EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type I Incident Management Team (Hefner) is assigned. This complex consists of the Clear Creek, Marlin Springs, Full Circle and Sisters fires. The 3rd Battalion, 2nd Marines from Camp Lejeune, North Carolina, commanded by LTC Smith, is committed. Large portions of the fire area received snow. Crews continue mopup and rehabilitation efforts.

DRY FORK, Wasatch-Cache National Forest. A Type II Incident Management Team (Saleen) is assigned. The fire is located 10 miles east of Oakley, UT. Strong winds exposed many previously unidentified spots. Summer homes and cabins are still threatened.

POISON, Lower Snake River District, BLM. This fire, is burning in grass and sagebrush, is located 18 miles northwest of Murphy Hot Springs, ID.

BURGDORF JUNCTION, Payette National Forest. The fire is 23 miles north of McCall, ID. Rain was received on a majority of the forest. This will be the last report unless significant changes occur.

FONTENELLE, Bridger-Teton National Forest. This fire is 20 miles north of Kemmerer, WY. Crews have been successful in picking up new hotspots and preventing perimeter growth.

SCF WILDERNESS, Salmon-Challis National Forest. Eleven wildland fires are currently burning within the Salmon Challis Wilderness Complex: Little Pistol, Indian Creek, Filly, Butts, Papoose, Parker, Packer Meadow, Shell Rock, Wilson Creek, Jackass and Jack Creek. Minimal fire activity was observed.

WESTERN GREAT BASIN AREA LARGE FIRES:

MAHOGANY CREEK, Winnemucca Field Office, BLM. The fire is burning in grass, mahogany and sage 75 miles northwest of Winnemucca, NV. Fire behavior has been limited to interior flare ups. With effective support from air tankers and helicopters, crews made progress in flanking the fire. Current threats are to wildlife habitat.

OUTLOOK:

\*\* FIRE WEATHER WATCH FOR THE ENTIRE STATE OF MISSISSIPPI FOR LOW FUEL  
MOISTURES\*\*

For the Southern Area high pressure will remain over Florida and Georgia. This will continue to allow moisture and scattered thunderstorms to move into Texas and the coastal regions. High temperatures will be in the 80's to 90's with 100 expected near the Rio Grande. Minimum relative humidity will be 40 to 50 percent inland and 60 to 70 percent along the Gulf Coast. Winds will be east to south at 5 to 15 mph.

In the West high pressure will begin to amplify across the southwest states and into the Pacific northwest as a trough of low pressure shifts into the Northern plains. As a result, scattered rain showers and high elevation snows can be expected across eastern Montana, as well as portions of Wyoming and Colorado. Otherwise, warm and dry conditions will prevail across the remainder of the west and southwest.

High temperatures in the West will be in the mid 50's to mid 70's in the Northern rockies and Intermountain West. In the Central and West Coast areas temperatures will be in the 70's to near 90, and from the 90's to near 110 in the warmest deserts of the South.

Minimum relative humidity will generally be in the mid teens to 30 percent with some single digits in the warmest southern deserts.

Winds in the west will mostly be west to northwest 10-20 mph.
