

INCIDENT MANAGEMENT SITUATION REPORT
 THURSDAY, SEPTEMBER 28, 2000 - 0530 MDT
 NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Initial attack activity was minimal, with one new large fire reported in Texas. Continued high pressure and clear skies may increase fire danger in Texas and Oklahoma, while high cloudiness and cooler temperatures in the northwest states should lessen fire activity there. The National Interagency Coordination Center processed orders for air tankers, radio equipment, crews and overhead. Very high to extreme fire indices were reported in Oregon, Washington, California, Montana, Idaho, Nevada, Arizona, Wyoming, Arkansas, Oklahoma and Texas.

SOUTHERN AREA LARGE FIRES:

COUNTY ROAD 127, Texas State Forest Service. This human-caused fire is 30 miles south of Austin, TX. Cedar, mesquite, juniper and oak are the primary fuels involved. Seven structures are threatened.

GULLY SLOUGH, McFaddin National Wildlife Refuge. This fire is burning on private and federal land 45 miles east of Houston, TX. The interior of the fire is still burning actively.

ROCKY MOUNTAIN AREA LARGE FIRES:

VALENTINE COMPLEX, Valentine National Wildlife Refuge. This complex of seven lightning-caused fires is 25 miles south of Valentine, NE. Mopup and rehabilitation continue. This will be the last report for this fire unless significant activity occurs.

NORTHERN ROCKIES AREA LARGE FIRES:

VALLEY COMPLEX, Bitterroot National Forest. A Type II Incident Management

Team (Furlong) is assigned. These fires are seven miles south of Darby, MT. The complex consists of the Blodgett, Skalkaho, Bear, Taylor, Taylor Spot, Hilltop, Razor, Fat, and Mink fires. Warmer and drier conditions are causing an increase in fire activity. Helicopter bucket drops continue on the Fat and Taylor fires. Monitoring of the uncontained portion of the fire perimeter continues. No new hotspots have been located outside the fireline.

MUSSIGBROD COMPLEX, Beaverhead-Deerlodge National Forest. These fires are 12 miles northwest of Wisdom, MT. The complex includes the Mussigbrod and Maynard fires. Rehabilitation operations in the fire area are continuing. This will be the last report for this fire unless significant activity occurs.

MIDDLE FORK COMPLEX, Beaverhead-Deerlodge National Forest. These fires are 30 miles southwest of Philipsburg, MT. The complex consists of the Falls Creek, Cougar Creek, Coyote Springs, Medicine Lake, Skalkaho Pass, Lick Creek, and Cooper Creek fires. Crews are making progress on rehabilitation projects. This will be the last report for this fire unless significant activity occurs.

MIDDLE FORK COM	MT	BDF	17535	95	UNK	10	0	0	0	0	NR	17.3M

EASTERN GREAT BASIN AREA LARGE FIRES:

CLEAR CREEK COMPLEX, Salmon-Challis National Forest. A Type II Incident Management Team (Carr) is assigned. This complex consists of the Clear Creek and Marlin Springs fires. Creeping and smoldering fire behavior with intermittent torching has been observed in the heavy fuels. Crews continue mopup operations further into the interior. Rehabilitation efforts are ongoing in areas outside the Frank Church River of No Return Wilderness.

SOUTHWEST AREA LARGE FIRES:

ARROW, Apache-Sitgreaves National Forest. This lightning ignited wildland fire is being managed to accomplish resource objectives. The fire, which started on 9/8, is five miles south of Hannigan Meadow, AZ. Some precipitation has been received on the fire.

OUTLOOK:

High pressure will remain over Texas and Oklahoma, bringing sunny and dry conditions. High temperatures will be from the mid 70's to the mid 80's. Minimum relative humidities are forecast to be 30 to 35 percent. Winds will be north to east at 5 to 10 mph.

A weak trough will bring cooler temperatures and higher humidities to southern California, along with some local morning drizzle near the coast. Sunny conditions will dominate by afternoon. High temperatures will be in the 70's and 80's in the mountains and along the coast, and in the 90's to lower 100's in desert areas. Minimum relative humidities will range from 20 to 35 percent. Winds will be southwest or upslope at 5 to 15 mph.
