

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, APRIL 27, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

The Southern Area reported no new large fires. Initial attack activity was moderate in the Southern Area and light elsewhere. Very high to extreme fire danger was reported in Arizona, New Mexico, North Dakota, Michigan, and Wisconsin. High pressure will build into the Southeast bringing dry conditions. The Southwest states will continue to be warm with the possibility of dry thunderstorms over the mountains of southeast Arizona and New Mexico.

SOUTHERN AREA LARGE FIRES:

LITTLE CAESAR, Florida Division of Forestry. This fire is near Homestead, FL. Highway 1 is now open.

CARLTON 01, Florida Division of Forestry. The fire is burning near Northport, FL. No new information received.

HORIZON, Florida Division of Forestry. This fire is in Highlands County, FL. No new information received.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D

OUTLOOK:

*** A RED FLAG WARNING IS POSTED FOR PORTIONS OF NORTHERN FLORIDA FOR LOW RELATIVE HUMIDITY AND STRONG AFTERNOON WINDS ***

*** A FIRE WEATHER WATCH IS POSTED FOR PORTIONS OF CENTRAL FLORIDA FOR LOW AFTERNOON RELATIVE HUMIDITY ***

*** A FIRE WEATHER WATCH IS POSTED FOR PORTIONS OF KENTUCKY FOR LOW AFTERNOON RELATIVE HUMIDITY ***

An upper level ridge will slowly move off to the east as low pressure pushes toward the coast. This will help keep the Southwest states warm. Some moisture moving into the area may produce a few dry thunderstorms over the mountains of southeast Arizona and New Mexico. High temperatures will range from the mid 60's in the mountains to near 100 in the hottest deserts. Minimum relative humidity will be in the single digits in the deserts to around 25 percent in the mountains. Winds will be southeast to southwest at 5 to 15 mph except gusty near thunderstorm activity. Over the ridges winds will be southwest at 20 mph.

High pressure will build into the Southeast states bringing dry conditions to the area. Expect only a weak sea breeze moving into portions of Florida. High temperatures will warm into the mid 70's and 80's. Minimum relative humidity will lower into the 20 to 30 percent range, and 30 to 50 percent along the coastal areas. Winds will remain light and variable to 10 mph, with the exception of a northeast wind of 10 to 20 mph across the majority of Florida.
