

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 13, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4

CURRENT SITUATION:

Twenty-two new large fires were reported, fifteen in Western Great Basin, two each in Eastern Great Basin and Northwest, and one each in Southern California, Northern California and Southern Areas. Four large fires reached containment, two in Western Great Basin, and one each in Northwest and Southern Areas. Heavy initial attack activity was reported in Western Great Basin and Northwest Areas. Very high to extreme fire indices were reported in California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington and Wyoming.

NORTHERN CALIFORNIA AREA LARGE FIRES:

TROUGH, Mendocino National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire is four miles west of Stoneyford, CA. The fire has established two distinct heads, one to the west, and one burning in a northwesterly direction on the north side. Burnout operations were completed and fireline secured at the St. John Mountain electronic site.

BLUE COMPLEX, Modoc National Forest. A Type 1 Incident Management Team (Gage) is assigned. This fire is 13 miles east of Likely, CA. This complex consists of the Blue, Shields and Canyon fires. One structure at the Blue Lake Recreation Center, was lost. Evacuations of Blue Lake and Jess Valley remain in effect.

OBSERVATION, Northern California District, BLM. A Type 2 Incident Management Team (Carlson) is assigned. This fire is east of Ravendale, CA. Active fire behavior has been observed due to winds, dry fuels and low relative humidity.

MODOC COMPLEX, Modoc National Forest. A Type 2 Incident Management Team (Bright) is assigned. This complex of fires near Canby, CA, consists of the Bell, Rock, Butte and Kellogg fires. The incident is staging initial attack task forces to suppress all new starts with the Modoc National Forest. Extreme burning conditions continue with high temperatures, low relative humidity and drying fuels.

BUZZ, Northern California District, BLM. The fire, 12 miles east of Eagleville, CA, consists of two converged fires, the Black and Buzz. Junipers along the fireline are presenting problems with flare-ups, spotting and torching.

GAP, Tahoe National Forest. A Type 2 Incident Management Team (Szczepznik) is on order. This fire is 20 miles west of Truckee, CA.

NORTHWEST AREA LARGE FIRES:

LAKEVIEW COMPLEX, Fremont National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This complex of fires is in the Lakeview, OR area. The complex consists of the Johnson Creek and South Warner fires. Three additional fires were added to the complex, Mustang, Big Juniper and Horsehead. Johnson Creek has burned within three miles of Paisley, OR and has potential for further growth. Evacuation and structure protection plans have been prepared.

QUARTZ, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. This fire is ten miles southwest of Medford, OR. The fire is threatening nine to ten homes and may soon pose a threat to the Ashland watershed.

SHEEPSHEAD, Burns District, BLM. A Type 2 Incident Management Team (Gardner) is assigned. This fire is 75 miles southeast of Burns, OR. This complex of fires consists of the Sheepshead and Stone House fire. Both fires have high potential to spread.

SPRUCE SPRINGS, Wenatchee National Forest. A Washington Interagency Incident Management Team (Baarspul/Ariss) is assigned. This fire burning in bug-killed timber is 30 miles west of Yakima, WA. The team will also manage five additional fires in the W.O. Douglas Wilderness.

CRANE PRAIRIE COMPLEX, Deschutes National Forest. A Type 2 Incident Management Team (Jackson) has been assigned. This fire is 25 miles southwest of Bend, OR. Extreme fire behavior forced the evacuation of the lookout at Round Mountain.

WESTERN GREAT BASIN AREA LARGE FIRES:

FISH, Carson City Field Office, BLM. A Type 2 Incident Management Team (Terwilliger) is assigned. This fire is ten miles northeast of Doyle, CA.

Six to ten foot flame lengths were observed as the fire burned through sage and pinyon juniper. Significant progress was made in fireline construction. The threat to residences and ranches near Doyle, NV has decreased.

SHEEP, Elko Field Office, BLM. A Type 2 Incident Management Team (Burdick) is assigned. This lightning caused fire is 25 miles north of Battle Mountain, NV. Extreme fire behavior was reported including running, torching and spotting. Steep rocky terrain and limited access are hindering containment efforts.

CLEAR CREEK COMPLEX, Winnemucca Field Office, BLM. This fire is 11 miles south of Winnemucca, NV. This complex of fires consistl ov the Elbow and Sonoma fires. Extreme fire behavior was observed. Structures were threatened along Grass Valley Road.

KRUM, Winnemucca Field Office, BLM. This lightning caused fire burning in grass and sagebrush is seven miles northwest of Winnemucca, NV. No new information was reported.

JORDAN MEADOWS, Winnemucca Field Office, BLM. This fire, burning in grass and brush, is 75 miles north to northwest of Winnemucca, NV. No new information was reported.

QUINN RIVER, Winnemucca Field Office, BLM. This fire is burning in grass and sagebrush 80 miles north of Winnemucca, NV. No new information was reported.

RANCH, Winnemucca Field Office, BLM. This fire is 50 miles northeast of Winnemucca, NV. Extreme fire behavior was observed.

MIDAS, Battle Mountain Field Office, BLM. This fire is 48 miles northeast of Winnemucca, NV. Extreme fire behavior was observed with fire whirls, running and spotting.

SPAULDING CANYON, Winnemucca Field Office, BLM. This fire is near Winnemucca, NV.

KUMIVA, Winnemucca Field Office, BLM. This fire is near Winnemucca, NV.

GOLDEN EAGLE, Winnemucca Field Office, BLM. This fire is near Winnemucca, NV.

PEDROLI, Winnemucca Field Office, BLM. This fire is five miles northeast of Winnemucca, NV.

LAMBERT ROAD, Winnemucca Field Office, BLM. This fire is near Winnemucca, NV. Structures were threatened during the afternoon.

PERU, Winnemucca Field Office, BLM. This fire burning in grass, sagebrush, pinyon juniper and cottonwood is near Unionville, NV. Extreme fire behavior was reported. The town of Unionville is threatened.

BUFFALO, Elko Field Office, BLM. A Type 2 Incident Management Team (Conrad) has been ordered.

COYOTE CREEK, Elko Field Office, BLM. This fire is 25 miles east of

Carlin, NV. Extreme fire behavior and rapid rates of spread were observed.

MINE, Elko Field Office, BLM. This fire is near Elko, NV.

BALLEY, Elko Field Office, BLM. This fire is 15 miles south of Carlin, NV.

STARR VALLEY, Northern Region, Nevada Division of Forestry. This fire is 30 miles east to northeast of Elko, NV. Ranch structures and a church were threatened as winds from a passing thunderstorm drove the fire through grass and sagebrush. Forty to one hundred foot flame lengths were reported. Crews continue with fireline construction and dozer line.

DUNPHY, Northern Region, Nevada Division of Forestry. This fire is 20 miles east of Battle Mountain, NV. The fire burned actively on both sides of Interstate 80.

EASTERN GREAT BASIN LARGE FIRES:

TRIUMPH, Upper Snake River District, South-Central Idaho Area, BLM. This fire is six miles southeast of Ketchum, ID. A voluntary evacuation occurred during the initial phase of the fire. Residents were allowed back into their residences later in the evening.

COLD SPRINGS, Lower Snake River District, BLM. This fire is four miles west of Glenns Ferry, ID. Rapid fire spread was observed.

FALCON, Bridger-Teton National Forest. This fire is located in the Teton Wilderness, 48 miles northeast of Jackson, WY. Due to the remoteness of the fire, safety and logistical concerns, a confinement strategy was implemented to keep the fire west of Falcon creek. Minimal activity was observed.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

COULTERVILLE, Madera-Mariposa-Merced Ranger Unit, California Department of Forestry. This fire is one mile south of Coulterville, CA. The fire has the potential to threaten residential structures in the Dogtown, CA area. There is a dozer line around the fire, yet there has been several spot fires over the fireline.

OUTLOOK:

*** A FIRE WEATHER WATCH IS POSTED IN MONTANA FOR DRY THUNDERSTORMS ***

An upper level high pressure continues over the Northern Rockies with some weak disturbances moving northeast producing some isolated to scattered thunderstorms over the area. High temperatures will be in the 80's to near 100, with minimum relative humidity ranging from 10 to 20 percent. Winds will be west to southwest at 5 to 15 mph.

High pressure is rebuilding over northern California bringing mostly clear skies. High temperatures will be in the upper 80's to 100 inland, with minimum relative humidity in the teens inland and at 6 to 12 percent east of the Sierra Cascade Crest. Winds will be southwest to northwest at 8 to 18 mph. An upper level ridge will continue to dominate over Nevada with residual subtropical moisture producing a few thunderstorms over the area except for the western portions. This will mean sunny to partly cloudy skies with isolated to widely scattered afternoon and early evening thunderstorms. High temperatures will be 75 to 85 in the mountains, 90's in the valleys, and 90 to 100 south. Minimum relative humidity will be 10 to 20 percent. Winds will be west at 8 to 15 mph, and south at 5 to 15 mph in the southern portions. Winds will be potentially strong and gusty near thunderstorms. High pressure continues to strengthen over the Eastern Great Basin, however there will be a surge of monsoonal moisture moving up from the southwest. This will bring mostly cloudy conditions with scattered showers and wet thunderstorms mainly in Utah and southeast Idaho. High temperatures will be in the 70's and 80's in the mountains, and 85 to 95 at lower elevations. Minimum relative humidity will range from 15 to 22 percent. Winds will be southwest at 10 to 20 mph across Idaho, and variable at 5 to 15 mph in Utah.

High pressure over the Pacific Northwest will continue, bringing mostly sunny to partly cloudy skies to most of the area. There will be a slight chance of showers and thunderstorms over the eastern portion of the region as residual moisture moves out of the area. High temperatures will be in the 80's to 90's, with minimum relative humidity ranging from 10 to 30 percent east of the Cascades. Winds will be westerly at 5 to 15 mph, with gusts up to 25 mph.
