

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, AUGUST 20, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Ten new large fires were reported, three in Southern California, two in Rocky Mountain and one each in Northern California, Northern Rockies, Western Great Basin, Eastern Great Basin and Southern Area. Five large fires met containment objectives, two in the Northwest, and one each in Rocky Mountain, Eastern Great Basin and Southern Areas. Initial attack activity was moderate to heavy in Southern California, Northern California and Eastern Great Basin, and light elsewhere. Very high to extreme fire indices were reported in California, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage large fires in eastern Washington. Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. VIRGINIA LAKE COMPLEX, Colville Agency, BIA. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, comprised of the St. Mary s, Goose Lake, and Virginia Lake fires, is 12 miles south of Okanogan, WA. Okanogan County has declared a state of emergency. An evacuation order remains in effect for the St. Mary s fire in the Haley Road and Dutch Anderson Road areas along the north portions of State Route 155. Plans are being made for the evacuation of Omak Lake road and Coyote Springs road.

REX CREEK COMPLEX, Wenatchee National Forest. A Type 2 Incident Management Team (Rios) is assigned. This complex of five fires is 34 miles northwest of Lake Chelan, WA in the Sawtooth Wilderness Area. A mandatory evacuation is in effect for the Flick Creek and Prince Creek areas along the shore of Lake Chelan. Strong winds have subsided and fire spread has moderated. Good progress was made on fireline construction and helicopter bucket work.

SPRUCE SPRINGS/DOME COMPLEX, Wenatchee National Forest. A Washington Interagency Incident Management Team (Baarspul/Ariss) is assigned. This complex, comprised of the Dome, Spiral Butte, and Spruce Springs fires, is burning in bug-killed timber 30 miles west of Yakima, WA. A mandatory evacuation order continues to be in place for the Cowichee Creek and Nasty Creek areas. Active burning continues but with less intensity due to increased humidity and lower temperatures. Spotting continues to impede containment efforts.

HORSE CREEK, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Stam) is assigned. This fire is seven miles north of Imnaha, OR. Active fire behavior was observed on the north and northwestern perimeters. Crews continue to make good progress on fireline construction.

MT. LEONA COMPLEX, Colville National Forest. A Type 2 Incident Management

Team (Dietrich) is assigned and a Type 1 Incident Management Team (Raley) will transition to the Sleepy and Buckhorn fires. This complex, comprised of the Sleepy, Leona, and Buckhorn fires, is burning in decadent stands of timber in Ferry County, WA. Steep terrain and decadent dead and heavy fuels are hampering containment efforts.

MONUMENT COMPLEX, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Templeton) is assigned. This complex, comprised of the Birch Creek, Mallory, and twelve other fires, is three miles north of Monument, OR. Structures continue to be threatened. Heavy fuels and afternoon winds continue to pose a concern.

ICICLE COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex, consisting of the Upper 8 Mile and the Snowflake fires, is six miles southwest of Leavenworth, WA. Crews made good progress with containment efforts.

OLALLIE LAKE COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (Ostman) is assigned. This complex is being managed jointly by the Warm Springs Reservation and the Mt. Hood National Forest. This fire is near Olallie Lake, OR. Isolated single tree torching is still occurring, but fire spread has slowed due to cooler temperatures and aerial retardant application.

TONASKET COMPLEX, Okanogan National Forest. A Washington Interagency Incident Management Team (Dunton/Andring) is assigned. This complex, comprised of the Cape LaBelle, Windy Ridge, Long Swamp and Bailey Mountain/Action #214 fires, is near Tonasket, WA. Helicopter bucket work assisted crews with fireline construction and mopup.

GOODNOE HILLS, Washington State. A Washington Interagency Incident Management Team (Jennings) is assigned. This fire is burning in wheatfields and open farmland two miles from Goldendale, WA.

BIG CREEK, Umatilla National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire, burning in the North Fork of the John Day Wilderness Area, is southeast of Ukiah, OR. Direct attack is occurring with the support of air operations.

QUARTZ, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Gilpin) is assigned. This fire is ten miles southwest of Medford, OR. All burnout operations are complete and mopup proceeds in all divisions.

SHEEPSHEAD, Burns District, BLM. A Type 2 Incident Management Team (Gardner) is assigned. This complex, consisting of the Sheepshead, Potluck and Stonehouse fires, is 75 miles southeast of Burns, OR. Short uphill runs and some torching were observed. Burnout operations are successful. Good progress was made on containment lines on the south perimeter of the Stonehouse fire.

BRIDGE CREEK, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. This fire is 45 miles southwest of La Grande, OR. Progress has been made on mopup. Snag felling along Highway 395 is almost complete.

BREWSTER COMPLEX, Northeast Washington State. A Washington Interagency

Incident Management Team (Furlong) is assigned. This complex, consisting of the Indian Dan, Gambol Mill, and eleven other fires, is five miles north of Brewster, WA. A voluntary evacuation order is still in effect for the Swamp Creek area. Closures are in effect for local roads.

EASTERN GREAT BASIN LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

MOLLIE, Uinta National Forest. A Type 1 Incident Management Team (Hefner) has been ordered. This fire is two miles southeast of Santaquin, UT. Evacuations of Payson Canyon and the town of Spring Lake, UT have occurred. Thunderstorm development over the fire created turbulent conditions unsuitable for aircraft operations.

ALPINE 2, Caribou-Targhee National Forest. A Type 1 Incident Management Team (Hart) is assigned. This fire is two miles southwest of Alpine, WY, on the Idaho border. No structures have been lost to date. Significant progress has been made on fireline construction. Active fire behavior was observed.

SOUTH HOLLOW, Uinta National Forest. This fire is two miles southeast of Woodland, UT. Hunters and campers in the vicinity of the fire have been evacuated. Area roads have been closed.

ELK CREEK, Payette National Forest. A Type 2 Incident Management Team (Stanich) is assigned. This fire is 15 miles east of Warren, ID. The fire continues to burn uncharacteristically in previously burned areas of the 1985 Savage Creek fire, and continues to move south across an unnamed tributary of the west fork of Elk Creek.

BOULDER, Bridger-Teton National Forest. This fire is north of Boulder Lake Campground, near Boulder, WY. One dispersed campground and one permitted outfitter were evacuated. Several trails in the vicinity of the fire have been closed. Aerial retardant drops were very effective in holding the north and east flanks.

LANGTON MOUNTAIN, Zion National Park. A Fire Use Management Team (Cook) is assigned. This lightning caused Wildland Fire Use fire is sixteen miles north of Virgin, UT.

NORTHERN ROCKIES AREA LARGE FIRES:

LOOKOUT MOUNTAIN, Idaho Department of Lands. A Type 2 Incident Management Team (Specht) is assigned. This fire, burning in alpine fir and brush, is 20 miles north of Coolin, ID. Cooler temperatures moderated fire behavior. Helicopters were very effective at limiting fire spread to the east and holding handline. Crews built handline along the south perimeter.

WERNER PEAK COMPLEX, Northwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Swope) is assigned. This complex, consisting of the Werner Peak, Mystery Dog, Antice, Moose and Cat fires, is seven miles north of Whitefish, MT. No new information was received.

TACO, Nez Perce National Forest. A Type 2 Incident Management Team (Williams) is assigned. This fire is ten miles east of Riggins, ID. Fireline construction around the slopover are complete and mopup is occurring. Helicopter bucket drops supported crews in fireline construction.

MONITOR CREEK, Gallatin National Forest. A Type 2 Incident Management Team (Milburn) is assigned. This fire is 11 miles north of Gardiner, MT. Crews continue to mopup along Monitor Creek. LOWER FAWN CREEK, Southwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Hoff) is assigned. A voluntary evacuation order is in place for a subdivision near the northeast perimeter of the fire. Aerial retardant drops were utilized to slow growth on the east flank.

WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

UPPER WILLOW, Humboldt-Toiyabe National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 60 miles north of Winnemucca, NV. The fire burned actively during the night, driven by 20 to 25 mph winds. Extreme fire behavior continued during the day with strong down and cross-slope runs and flame lengths up to 20 feet. Crews continue to improve and mopup existing line. SPAULDING, Winnemucca Field Office, BLM. This fire, burning in cheat grass, sagebrush and juniper, is 30 miles southwest of Winnemucca, NV. Crews made very good progress with fireline construction and rehabilitation of dozer line.

GRANITE, Great Basin National Park. This fire is 60 miles southeast of Ely, NV. Heavy winds caused the fire to make several runs in fir, spruce, pine, mahogany and aspen fuels. Local roads were closed due to fire activity. Current threats are to a watershed and one USFS cabin.

NORTHERN CALIFORNIA AREA LARGE FIRES:

PONDEROSA, Nevada-Yuba-Placer Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (McLean) is assigned. This fire is in the Weimar and Colfax area. Containment efforts are being hindered by low humidity and fuel moisture, winds and terrain.

BLUE COMPLEX, Modoc National Forest. A Type 1 Incident Management Team (Gage) is assigned. This complex, comprised of the Blue, Shields, Parsnip and Canyon fires, is 13 miles east of Likely, CA. The Blue Lake Campground and area roads remain closed. The wilderness area has also been closed.

TROUGH, Mendocino National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire, burning in timber and downed fuels in

the middle fork drainage of Stony Creek, is four miles north of Stoneyford, CA. Moderate fire activity has assisted crews in making excellent progress with containment efforts. Mopup operations will be concentrated in the Snow Mountain Wilderness.

MEDICINE, Mendocino Ranger Unit, California Department of Forestry. This fire is northwest of Covelo, CA. No further information was received.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

LEONARD, Tuolumne-Calaveras Ranger Unit, California Department of Forestry. This fire is near San Andreas, CA. Residents in the area are voluntarily evacuating and local roads are closed.

MUSIC, Sierra National Forest. This fire is near Shaver Lake, CA. Steep terrain, heavy fuels and power lines are significant factors affecting containment objectives. Transmission lines are being deactivated during the day for aircraft and firefighter safety.

CREEK, Madera-Mariposa-Merced Ranger Unit, California Department of Forestry. This fire is two miles north of Coulterville, CA. State Highway 49 remains closed. Evacuation planning is in process for Priest, Coulterville and Jackass Ridge areas.

WHITE, Stanislaus National Forest. A Type 2 Incident Management Team (Szszeapanik) has been ordered. This fire is five miles northwest of Strawberry, CA. Extreme fire behavior was observed with sustained crown fire and spotting 400 to 500 yards ahead of the fire front.

HOOVER, Yosemite National Park. This lightning caused Wildland Fire Use fire is ten miles southeast of Yosemite Village, CA. A Fire Use Management Team (Zimmerman) is on order. Significant growth was observed.

OUTLOOK:

*** A FIRE WEATHER WATCH HAS BEEN POSTED IN EXTREME EASTERN WYOMING FOR LOW RELATIVE HUMIDITY, HIGH TEMPERATURES, BREEZY CONDITIONS AND THE THREAT OF ISOLATED DRY THUNDERSTORMS ***

A dry westerly flow will continue to bring warm and dry conditions across north and central portions of Wyoming and western South Dakota with the continued threat of isolated dry thunderstorms. High temperatures will be 75 to 80 in the mountains, and 85 to 95 at lower elevations. Minimum relative humidity will range from 10 to 20 percent. Winds will be westerly at 10 to 20 mph in Wyoming.

A dry westerly flow will dominate the Pacific Northwest bringing mostly sunny conditions, with some morning clouds west of the Cascades. High temperatures will be in the 70's in the inland areas west of the Cascades and 78 to 90 for areas east. Minimum relative humidity will range from 20 to 30 percent in the inland valleys west of the Cascades, and 10 to 20 percent east. Winds will be north to northwest at 10 to 15 mph with gusts up to 20 mph.

High pressure will shift to the east allowing a return of monsoonal moisture into Utah bringing isolated to scattered thunderstorms. A trough positioned over the Pacific Northwest will result in dry conditions over

Idaho. Utah will have high temperatures in the 80's and 90's in the mountains, and 90 to 105 at lower elevations. High temperatures will be 72 to 82 in southwest Idaho, and 80 to 90 in southeast Idaho. Minimum relative humidity will range from 10 to 25 percent in Utah, 15 to 25 percent in southwest Idaho, and 8 to 16 percent in southeast Idaho. Winds will be south to southwest at 10 to 25 mph in Utah, west to southwest at 10 to 20 mph in southeast Idaho, and variable at 5 to 15 mph in southwest Idaho.

A weak ridge of high pressure will move over the Northern Rockies bringing mostly sunny skies and warm conditions. High temperatures will be 80 to 90 in most areas, with minimum relative humidity ranging from 12 to 22 percent, and 10 percent in some eastern valleys. Winds will be west at 10 to 20 mph increasing to 15 to 25 mph during the afternoon. Ridge top winds will be southwest at 15 to 25 mph.
