

INCIDENT MANAGEMENT SITUATION REPORT
SATURDAY, AUGUST 25, 2001 - 0630 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Two new large fires were reported, one each in the Northern Rockies and Rocky Mountain Areas. Three large fires were contained, one each in Southern California, Northwest, and Eastern Great Basin Areas. Initial attack activity was moderate in Southern California and light elsewhere. Very high to extreme fire indices were reported in California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Texas, Utah, Washington and Wyoming.

U.S. Army Task Force Phoenix Blaze, commanded by LTC Ronald Huether at Ft. Lewis, WA, is assigned to the Virginia Lake Complex and is undergoing field training.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Mann) is assigned to manage the Virginia, Icicle, Spruce Springs/Dome, and Tonasket complexes in eastern Washington. Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

VIRGINIA LAKE COMPLEX, Colville Agency, BIA. A Type 1 Incident Management Team (Lohrey) is assigned. This complex, comprised of the St. Mary's, Goose Lake, Brewster, Gambol Mill, Bailey Mountain, and Virginia Lake fires, is 12 miles south of Okanogan, WA. Crews are making good progress with fireline construction and mopup.

MT. LEONA COMPLEX, Colville National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This fire is 13 miles northwest of Republic, WA. Crews are making good progress with fireline construction.

REX CREEK COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Gelobter) and a Type 2 Incident Management Team (Rios) are assigned. This complex, comprised of the Rex Creek, Glory Mountain, and four other fires, is 34 miles northwest of Lake Chelan, WA in the Sawtooth Wilderness Area. Most mandatory evacuation orders will be lifted today except for the areas along Dutch Creek, Canoe Creek, Safety Harbor Creek, and Camas Creek.

ICICLE COMPLEX, Wenatchee National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex, consisting of the Upper 8 Mile and Snowflake fires, is 6 miles southwest of Leavenworth, WA. Fire activity was minimal due to precipitation received, however, fire behavior is expected to increase as fine fuels continue to dry.

SLEEPY COMPLEX, Colville National Forest. A Type 1 Incident Management Team (Raley) is assigned. This complex, consisting of the Sleepy and Buckhorn fires, is 24 miles northwest of Inchelium, WA. Crews have made

good progress with fireline construction but steep, rocky terrain and hazardous trees are hampering containment efforts.

TONASKET COMPLEX, Okanogan National Forest. A Washington Interagency Incident Management Team (Dunton) is assigned. This complex is near Tonasket, WA. The Long Swamp and Windy Peak fires have transitioned to their own complex and the Bailey Mountain fire has transitioned to the Virginia Lake Complex. Crews have made significant progress with mopup.

HORSE CREEK, Wallowa-Whitman National Forest. A Type 1 Incident Management Team (Stam) is assigned. This fire is 7 miles north of Imnaha, OR. Crews continue to improve fireline and mopup.

OLALLIE LAKE COMPLEX, Mt. Hood National Forest. A Type 2 Incident Management Team (Jackson) is assigned. This complex, near Olallie Lake, OR, is being managed jointly by the Warm Springs Reservation and the Mt. Hood National Forest. Good progress has been made on fireline construction.

WINDY-SWAMP COMPLEX, Okanogan National Forest. A Type 2 Incident Management Team (Johnson) is assigned. This complex is near Tonasket, WA in the Pasayten Wilderness Area. Steep, rocky terrain, heavy fuels, limited access, and hazardous trees are hampering containment efforts.

NORTHERN ROCKIES AREA LARGE FIRES:

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

FRIDLEY, Gallatin National Forest. A Type 1 Incident Management Team (Frye) is assigned. This fire is 20 miles southwest of Livingston, MT. Following the passage of the cold front, minimal fire growth and fire activity was observed. Anchor points have been established and crews are constructing fireline along the southeast and northwest flanks. Structure protection is in place for the Eightmile Creek, Dry Creek, Pine Creek, and Trail Creek Road areas.

EAR, Flathead National Forest. A Type 2 Incident Management Team (Kechter)

is assigned. This fire is 35 miles southeast of Columbia Falls, MT. The fire is currently backing in the Great Bear Wilderness Area and is expected to spread to the northeast, spotting over Twenty-five Mile Creek.

MOOSE, Flathead National Forest. A Type 2 Incident Management Team (Houseman) is assigned. This fire is 13 miles north of Whitefish, MT. Small crown fire runs were observed. Extreme fire weather and steep, rugged terrain are impeding containment efforts.

NORTH SAW MILL, Miles City Field Office, BLM. A Type 2 Incident Management Team (Corbin) is assigned. This fire, burning in grass and pine stands, is 35 miles northwest of Jordan, MT. Creeping, isolated torching, and short runs in timber were observed.

MONUMENT, Gallatin National Forest. A Fire Use Management Team (Adams) is assigned. This lightning caused Wildland Fire Use fire is in Sweet Grass County, MT in the Absaroka Beartooth Wilderness Area. Observed fire behavior was limited to creeping and occasional torching. An evacuation plan was completed and is being coordinated by Sweet Grass County and local law enforcement.

WERNER PEAK COMPLEX, Northwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Swope) is assigned. This complex is 7 miles north of Whitefish, MT. Crews are making good progress with mopup.

LOOKOUT MOUNTAIN, Priest Lake Supervisory Area, Idaho Department of Lands. A Type 2 Incident Management Team (Specht) is assigned. This fire, burning in alpine fir and brush, is 20 miles north of Coolin, ID. Crews made excellent progress with mopup and cold trailing.

LOWER FAWN CREEK COMPLEX, Southwestern Land Office, Montana Department of Natural Resources. A Type 2 Incident Management Team (Hoff) is assigned. This complex is 6 miles northwest of Seeley Lake, MT. No new information was reported.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

LEONARD, Tuolumne-Calaveras Ranger Unit, California Department of Forestry. A California Department of Forestry Type 1 Incident Management Team (Lombardo) is assigned. This fire is near San Andreas, CA. Burn out

operations were again successful, however, increased spotting due to a warming and drying trend in the afternoon hours impeded containment efforts. A plan is in place to allow residents back into previously evacuated areas.

NORTH FORK, Sierra National Forest. Due to mutual jurisdictional responsibilities, a Unified Command has been established between a Type 2 Incident Management Team (Vittum), the California Department of Forestry (Van Devort), and the Madera County Fire Department. This fire is near Bass Lake, CA. Good progress has been made with fireline construction and burn out.

HIGHWAY, Sequoia National Forest. A Type 1 Incident Management Team (Carvelho) is assigned. This fire is 12 miles east of Dunlap, CA. Burn out operations have been successful.

HOOVER COMPLEX, Yosemite National Park. An Interagency Fire Use Management Team (Zimmerman) is assigned. These lightning caused Wildland Fire Use fires are 10 miles southeast of Yosemite Village, CA. The complex, comprised of the Hoover, Clark, Kuna, Cold Creek and Lyell fires, continues to increase in acreage, with most fire activity observed on the Hoover fire.

BURNT, Sequoia and Kings Canyon National Park. This previously reported Wildland Fire Use fire, which started on 7/30, is 5 miles north of Cedar Grove, CA. Increased fire activity was observed on the northeast side of Rattlesnake Creek and the northwest side of Alpine Creek. This will be the last report unless continued significant activity occurs.

EASTERN GREAT BASIN LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

MOLLIE, Uinta National Forest. A Type 1 Incident Management Team (Hefner) is assigned. This fire is 1/4 mile east of Santaquin, UT. Increasing fire behavior was observed as fuels continue to dry. Very steep, rugged terrain, heavy fuels, and limited road access are hampering containment efforts.

ELK CREEK, Payette National Forest. A Type 2 Incident Management Team

(Stanich) is assigned. This fire is 15 miles east of Warren, ID. Crews continue to make progress with fireline construction. Infared imagery is showing hot spots on all divisions.

GARDEN GAP, Upper Snake River District, Eastern Idaho Area, BLM. This wind driven fire is 7 miles southwest of McCamman, ID. Runs within the interior and torching along containment lines were observed.

WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

GRANITE, Great Basin National Park. This fire is 60 miles southeast of Ely, NV. The fire remained active on the northeast flank with spotting over the line and crowning observed. Extreme fire behavior and steep terrain are impeding containment efforts.

GRANITE	NV	GBP	668	75	8/31	201	6	5	2	0	397K

ROCKY MOUNTAIN AREA LARGE FIRES:

WIND CREEK, Casper Dispatch Center Counties. This fire, burning in ponderosa pine, sagebrush, and grass, is 11 miles northeast of Edgerton, WY. Strong, shifting winds are impeding containment efforts.

BOHNSTEAD DRAW, Casper Dispatch Center Counties. This fire, burning in pinyon pine, juniper, and sagebrush, is 7 miles northeast of Guernsey, WY. Steep, rough terrain with limited access is hampering containment efforts.

DINWOODY, Shoshone National Forest. This previously reported fire, which started on 8/1, is 22 miles south of Dubois, WY near the Fitzpatrick Wilderness Area. Significant acreage gain has prompted an assessment team to consider an aerial attack to secure defined containment boundaries. The Dinwoody Trail system remains closed.

OUTLOOK:

A ridge of high pressure over the Pacific Northwest will bring mostly sunny skies. High temperatures will be in the 60's and lower 70's along the coast, in the 80's in most inland areas, and in the 90's in southeast Oregon. Minimum relative humidity will range from 8 to 15 percent in eastern Oregon, 15 to 25 percent in eastern Washington, and 20 to 30 percent elsewhere. Winds will be southwest at 5 to 10 mph with gusts to 15 mph along ridge tops.

High pressure will strengthen over Montana, bringing sunny skies. High temperatures will be 80 to 90, except in the mid 90's east of the Rocky Mountains. Minimum relative humidity will range from 15 to 25 percent west of the Continental Divide, and 10 to 20 percent east. Winds will be west to southwest at 10 to 20 mph, with light southeast winds expected in eastern Montana.

Strengthening high pressure over California will bring mostly sunny skies. High temperatures will be in the mid 80's to upper 90's inland and 108 to 114 in lower elevation deserts. Minimum relative humidity will range from 12 to 25 percent inland, and 8 to 15 percent in the deserts. Winds will be southwest to northwest at 10 to 20 mph.

High pressure will strengthen over the Great Basin, bringing mostly sunny skies. High temperatures will be in the 70's and 80's in the mountains, in the 80's and 90's at lower elevations in the north, and in the 90's to 113 in the southern deserts. Minimum relative humidity will range from 6 to 20 percent. Winds will be variable at 5 to 15 mph in Utah and Idaho and south to west at 5 to 15 mph in Nevada.

A ridge of high pressure over the Rocky Mountains will shift west, allowing a weak cold front to move southward across western South Dakota and eastern Wyoming and Colorado. Mostly sunny skies are expected, with a few thunderstorms over eastern Wyoming and Colorado forecast. High temperatures will be in the 60's and 70's in the mountains and 80 to 90 at lower elevations. Winds will be variable at 5 to 15 mph.
