SUNDAY, JUNE 3, 2001 - 0900 MDT
NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

New large fires were reported in New Mexico, northern California, Florida, Nevada and Idaho. Crews reached containment objectives on large fires in Nevada, Idaho and Florida. Initial attack activity was moderate in Northern California and Southern Area, and light elsewhere. Very high to extreme fire indices were reported in Arizona, California, Colorado, New Mexico, Texas and Utah.

SOUTHWEST AREA LARGE FIRES:

TRAP AND SKEET, Mescalero Agency, BIA. A Type 1 Incident Management Team (Humphrey) is assigned. This fire started three miles south of Ruidoso, NM and is burning in heavy timber. Subdivisions on the south side of town were evacuated as a precaution and Highway 70 was closed. Spotting up to one mile ahead of the fire was observed.

HOMESTEAD, New Mexico State Capitan District. A Type 2 Incident Management team (Kvale) is assigned. Crews made significant progress in mopup and lining spot fires. Steep, rugged terrain is making mopup difficult.

HIDDEN COMPLEX, Lincoln National Forest. These lightning caused fires are 30 miles southwest of Carlsbad, NM. This complex includes the Hidden, Devils Den and Wilderness fires. The fires have been turned back to the district.

SOUTHERN AREA LARGE FIRES:

DIXIE/LAFAYETTE COMPLEX, Florida Division of Forestry. A State Type 2 Incident Management Team (Koehler) is assigned.

GATOR SLOUGH, Florida Division of Forestry. This lightning caused fire is burning in a swamp and is completely inaccessible. The fire received some precipitation.

CRAVEN ISLAND, Okefenokee National Wildlife Refuge. A Fire Use Management Team (Cook) is assigned. This fire is near Minnies Island, GA. Fire movement has been minimal due to rainfall received during the last three days. Assessment of long term potential of the fire continues.

LEMONS GAP COMPLEX, Texas State Forest Service. This fire is burning in grass, pinyon pine and juniper 32 miles east of Marathon, TX. This complex is comprised of the Lemons Gap, Right Hand Canyon and Pine Peak fires. Hand crews are working to remove fuels around homes. Steep terrain, winds and low relative humidity continue to hamper suppression efforts.
