

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JUNE 22, 2001 - 0530 MDT
NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Four new large fires were reported, two in Florida and two in Alaska. Two large fires reached containment in Florida. Initial attack activity was moderate in California, the Southwest, and Southern Area, and light elsewhere. Very high to extreme fire indices were reported in Arizona, California, Colorado, Oregon, Nevada, New Mexico, and Utah.

NORTHERN CALIFORNIA AREA LARGE FIRES:

MARTIS, Nevada-Yuba-Placer Ranger Unit, California Department of Forestry. A Unified Command with a California Department of Forestry Type 1 Incident Management Team (Posten) and a National Type 1 Incident Management Team (Gelobter) is in place. This fire is east of Truckee, CA and has burned into the Rose Mountain Wilderness Area. Interior island fuels continue to burn out. Inaccessible terrain is hampering containment efforts. Contingency plans are in place for an anticipated wind event over the weekend. Two structures were destroyed during the initial attack phase of the fire.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTAL PERS	CRW	ENG	HELI	STRC LOSS	\$\$\$ C-T-D
MARTIS	CA	NEU	14500	50	UNK	2384	72	142	16	2	6.1 M

SOUTHERN CALIFORNIA AREA LARGE FIRES:

SHINN, Angeles National Forest. A Type 2 Incident Management Team (Domanski) is assigned. This fire is burning in steep terrain with limited access two miles north of Upland, CA. No significant fire activity was observed during the evening shift. Demobilization of resources continues.

BALDY, San Bernardino National Forest. This fire is near Devore, CA. No new information was reported. This will be the last report unless new information is received.

SHINN	CA	ANF	300	85	UNK	286	9	0	3	0	NR
BALDY	CA	BDF	125	0	UNK	100	2	21	1	0	NR

SOUTHERN AREA LARGE FIRES:

LOST, George Washington and Jefferson National Forest. A Type 2 Incident Management Team (Kearney) is assigned. This fire is eight miles northwest of Buena Vista, VA. The fire is backing slowly and dozers have made significant progress with fireline construction.

SALT SPRINGS, Florida Division of Forestry. This fire is in Pasco County, FL. Air operations and a successful burn out assisted containment efforts.

LAMB CAMP, Florida Division of Forestry. This fire is in Dixie County, FL. No further information was reported.

MARKHAM PARK, Florida Division of Forestry. This fire is in Broward County, FL. Smoke continues to be a threat to local highways and inaccessibility is hampering containment efforts.

BIG DADDY COMMAND, Florida Division of Forestry. This fire is in Dade County, FL. Air reconnaissance provided accurate acreage measures.

TAYLOR RANCH, Florida Division of Forestry. This fire is in Sarasota County, FL. Personnel made significant progress with fireline construction during the evening hours.

PINE, Florida Division of Forestry. This fire is in Sarasota County, FL. This fire is in monitor status.

ALASKA AREA LARGE FIRES

FISH CREEK, Fairbanks Area, Alaska Division of Forestry. This fire is located 6 miles from Nenana, AK. A Type 2 Incident Management Team (Jandt) is assigned. The fire is burning in thick black spruce stands in a southeasterly direction driven by gusty winds.

SURVEY LINE, Department of Defense, Fort Wainwright. This fire is located approximately 25 miles southwest of Fairbanks, AK. The fire is active and will be managed as limited protection.

OUTLOOK:

California will continue to experience a high pressure system bringing mostly sunny skies. The Sierra Nevada mountains and the southeast corner of the state can expect partly cloudy skies with a few scattered afternoon thunderstorms. High temperatures will range from 95 to 105 degrees in the central valleys, and 100 to 108 degrees in the southern deserts. Minimum relative humidity will be from 10 to 20 percent and afternoon winds will be southwest to northwest at 10 to 20 mph.

High pressure over the Southwest will bring partly cloudy skies with scattered afternoon and evening thunderstorms. High temperatures will be in the 80's and 90's, and 100 to 110 degrees in the southern Arizona deserts. Minimum relative humidity will range from 10 to 20 percent, except in southern and eastern New Mexico which will be between 25 to 35 percent. Winds will be south to southwest at 10 to 20 mph.

A moist, southwest flow over Florida will bring partly cloudy skies and scattered afternoon and evening thunderstorms. High temperatures will be near 90 degrees and minimum relative humidity will range from 50 to 55 percent. Winds will be from the southeast to southwest at 5 to 10 mph.

A slow moving cold front approaching Virginia from the northwest will bring partly to mostly cloudy skies and scattered showers or thunderstorms. High temperatures will be from the mid 70's to mid 80's. Minimum relative humidity will range from 55 to 60 percent and winds will be west to southwest at 10 mph.

Continued high pressure over the Great Basin will bring partly cloudy skies with isolated afternoon and evening thunderstorms to Nevada and Utah. High temperatures will be from the 80's to 100 degrees over most of the area, and 108 to 113 in southern Nevada. Minimum relative humidity will range from 5 to 15 percent and winds will be south to southwest at 10 to 25 mph.

Central interior Alaska will be dominated by a high pressure system with sunny to partly cloudy skies. High temperatures will be in the 70's and minimum relative humidity will range from 12 to 20 percent. Winds will be westerly at 10 to 25 mph and gusty.
