

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, OCTOBER 24, 2001- 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was light nationwide. Very high to extreme fire indices were reported in Arizona, California, New Mexico, Texas and Utah.

EASTERN AREA SUPPORT:

DUANE STREET SUPPORT, Federal Emergency Management Agency. A Type 1 Incident Management Team (Stam) is assigned. The team will continue to provide planning support at the Duane Street Fire Station, and logistics support to manage warehouse operations at Pier 36.

OUTLOOK:

North winds aloft will cause another localized sundowner event along the Santa Barbara coastline, while an increasing offshore flow at the surface will bring locally strong and gusty northeast winds to the Southern California Area. Temperatures will be in the 70s in the mountains, and 80s to low 90s in the valleys with minimum relative humidity at 10 to 20 percent. Winds will be northeast at 25 mph and gusty over the mountains and canyons.

A cold front continues to push east over the Great Basin Area. Temperatures will be in the 30s to mid 40s in the mountains, 50s to mid 60s in the high deserts, and 70s to near 90s in southern Nevada. Minimum relative humidity will range from 20 to 40 percent in the northern portions of Nevada and Utah, with mid to upper teens in the southern portions of Nevada. Winds will remain gusty from northwest to north at 10 to 25 mph in most areas throughout the region.

A cold front will move through the west Texas area bringing cooler weather and gusty winds. Temperatures will be in the 60s in the mountains and upper 80s on the plains, with minimum relative humidity at 15 to 25 percent. Winds will be southwest to west at 10 to 20 mph in the early morning hours switching to northeast at 10 to 20 mph in the afternoon in west Texas.
