

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, AUGUST 8, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was light across the nation. Nationally, 200 new fires were reported. Two of these became large fires, one each in the Rocky Mountain and Southern Areas. Five large fires were contained, three in the Eastern Great Basin Area and one each in the Southern and Western Great Basin Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Idaho, Kansas, Massachusetts, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

A volunteer firefighter who sustained injuries while suppressing the Klink Knob fire in Meade County, SD passed away Tuesday, August 6th. The firefighting community extends condolences to the family and friends of the deceased.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Ribar) is assigned to manage large fires in southwestern Oregon and northern California. An Area Command Team (Mann) has been ordered.

FLORENCE, Siskiyou and Six Rivers National Forests. Three Type 1 Incident Management Teams (Lohrey, Martin and Bennett) are assigned. Command of the northwest portion will transfer from Martin's Type 1 Incident Management Team to Bright's Type 2 Incident Management Team on August 9th at 0600 PDT. This fire is 26 miles southwest of Grants Pass, OR. Active fire behavior was observed in mixed conifer forest and brush as the Florence and Sour Biscuit fires burned together. Burnout operations are nearing completion on the east flank. Crews are constructing direct and indirect fireline and burning out on the north, west and south flanks. The Illinois River Valley remains under an evacuation advisory; structure protection is in place. Cave Junction, Kerby, Selma, Agness, Gardner Ranch and McCaleb Ranch are threatened.

TILLER COMPLEX, Umpqua National Forest. A Type 1 Incident Management Team (Stutler) and US Army Task Force Destroyer (1st Battalion, 5th Field Artillery Regiment) commanded by Lt. Col. David R. Byrn Sr., at Ft. Riley, KS are assigned. A Type 1 Incident Management Team (Hart) has been ordered. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Active fire behavior was observed in grass, brush and timber. Crews are building indirect and direct attack fireline and burning out where appropriate. Structure protection is in place in Ash Valley.

TIMBERED ROCK, Southwest Oregon District, Oregon Department of Forestry. A transfer of

command from an Oregon Department of Forestry Incident Management Team (Thorpe) to a Type 3 organization occurred yesterday. This fire is 15 miles north of Shady Cove, OR. Isolated torching was observed in old growth timber and heavy slash. Crews are mopping up.

DEER POINT, Wenatchee National Forest. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is seven miles northwest of Chelan, WA and is burning in sagebrush, ponderosa pine and lodgepole pine. Fire behavior included creeping and smoldering, with some group torching in unburned islands in the interior and in the Grade Creek drainage. Crews are mopping up and rehabilitating fireline.

MONUMENT, Malheur National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This fire is nine miles southwest of Unity, OR. Minimal fire activity was observed in mixed conifer forest, ponderosa pine and sagebrush. Engine crews are gridding for hot spots and mopping up.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

Priorities are being established by the California Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

PINES, San Diego Unit, California Department of Forestry and Fire Protection (CDF). A CDF Type 1 Incident Command Team (Ristow) is assigned. This fire is burning one half mile southeast of Julian, CA in chaparral and bug kill timber. Extreme fire behavior with fire whirls and long range spotting was observed as the fire advanced north. Crews are building indirect attack fireline in Indian Canyon. The Ranchita subdivision, a Boy Scout camp in Lost Valley and the Los Coyotes Indian Reservation remain evacuated; structure protection is in place. Eight additional residences and 36 outbuildings were confirmed lost.

MCNALLY, Sequoia National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire is burning in heavy brush and mixed conifer forest, nine miles north of Kernville, CA. Active fire behavior with short runs and spotting was observed. Crews are constructing fireline north of the Kern River and making good progress mopping up the east flank. Twelve residences remain threatened.

ALASKA AREA LARGE FIRES:

Priorities are being established by the Alaska Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

KETCHEM CREEK, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (McKnight) is assigned. This fire is four miles northeast of Circle Hot Springs, AK. Higher relative humidity resulted in moderate to low fire activity in black spruce, taiga and hardwood forest. Crews are securing the north and west flanks with support from aerial resources.

GESKAMINA LAKE, Tanana Zone, Bureau of Land Management. A Type 2 Incident Management Team (Wilcock) is assigned. This fire is 70 miles west of Fairbanks, AK near the community of Lake Minchumina. Fire behavior included torching, creeping and occasional smalls runs in black spruce, taiga, muskeg and hardwood forest. Smokejumpers and a crew are providing structure protection along the Kantishna River.

NORTH FORK, Southwest Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire is two miles north-northwest of Medfra, AK. Active fire behavior was observed in black spruce, muskeg and hardwood forest. Crews are constructing direct attack handline on the west flank. The community of Medfra is threatened; structure protection is in place.

MINCHUMINA GROUP, Tanana Zone, Bureau of Land Management. This group of fires, consisting of the Sischu, John Hansen Lake, John Hansen Creek and Moose Lake fires, is northwest of Lake Minchumina, AK. Torching and creeping fire activity was observed in black spruce, taiga, muskeg and hardwood forest. Personnel are providing structure protection to threatened cabins along the northwest and north sides of Lake Minchumina. Heavy smoke is impeding aerial operations.

REINDEER, Southwest Area Forestry, Alaska Division of Forestry. This fire is 29 miles northeast of Holycross, AK. Active fire behavior with running, crowning and torching was observed in black spruce, tussock tundra and hardwood. Smokejumpers are providing structure protection.

KOCACHO #2, Upper Yukon Zone, Bureau of Land Management. This fire is 20 miles northeast of Venetie, AK in black spruce and tussock tundra. No further information was reported.

GOBLET CREEK, Galena Zone, Bureau of Land Management. This fire is eight miles west of Grayling, AK. Observed fire behavior included occasional torching and short runs in black spruce. Crews are constructing direct attack fireline and providing structure protection.

EASTERN GREAT BASIN AREA LARGE FIRES:

GARDEN VALLEY COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Murphy) is assigned. This complex consists of 23 fires northeast of Garden Valley, ID. Minimal fire behavior was observed in sagebrush, lodgepole pine and subalpine fir. Crews made good progress constructing fireline and mopping up the No Man, East Fork, Danskin and Middle Fork fires; the remaining fires in the complex are in monitor status.

SEQUOIA, Dixie National Forest. This fire is 26 miles southwest of Cedar City, UT. Short runs, creeping and smoldering fire activity was observed in chaparral and ponderosa pine.

EASTERN AREA LARGE FIRES:

BLUE MOUNTAIN, Pennsylvania State Forestry. This fire is burning in oak woodland, six miles east of Palmerton, PA. Very steep terrain and heavy fuel loading are hampering containment efforts. The Appalachian Trail is closed.

SOMERSET COMPLEX, Maryland Department of Natural Resources Forest Service. This complex, consisting of the Shelltown, Turkey Branch, Quail Lane, Charles Barnes, Oriole and C. Boston fires, is near Shelltown, MD. The fires are burning in pine plantations. Dozers are improving containment lines on the Charles Barnes and C. Boston fires. A tractor plow made good progress constructing fireline on the Oriole fire. Personnel are mopping up the remaining fires in the complex.

SOUTHERN AREA LARGE FIRES:

STUMPHOLE, George Washington and Jefferson National Forests. This fire is two miles southeast of Edinburg, VA. Moderate fire activity was observed in heavy bug kill timber. Crews are burning out in steep, rocky terrain.

SAMPSON, Cherokee National Forest. This fire is seven miles southwest of Erwin, TN. Minimal fire behavior was observed in bug kill timber and hardwood litter. Personnel are holding and mopping up.

OUTLOOK:

*****A RED FLAG WARNING HAS BEEN POSTED IN NORTHERN CALIFORNIA FOR HIGH TEMPERATURES, LOW RELATIVE HUMIDITY, GUSTY NORTHEAST WINDS AND POOR OVERNIGHT RELATIVE HUMIDITY RECOVERY*****

*****A RED FLAG WARNING HAS BEEN POSTED IN SOUTHWEST OREGON FOR GUSTY NORTHEAST WINDS AND POOR OVERNIGHT RELATIVE HUMIDITY RECOVERY*****

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN PORTIONS OF WESTERN WYOMING FOR WARM, DRY CONDITIONS AND GUSTY SOUTHWEST WINDS*****

*****A FIRE WEATHER WATCH HAS BEEN ISSUED FOR THE INLAND COUNTIES OF NORTHWEST FLORIDA FOR LOW RELATIVE HUMIDITY*****

High pressure building over the Northwest Area will bring mostly sunny skies. High temperatures will be in the 60's near the Canadian border and at upper elevations, and in the 70's and 80's elsewhere. Minimum relative humidity will range from 15 to 20 percent in the valleys and in southwest Oregon, 25 to 35 percent in the mountains, and above 45 percent west of the Cascade Mountains. Winds will be northwest to northeast at 5 to 20 mph, gusting to 40 mph in southwest Oregon.

The Southern California Area can expect sunny skies with patchy morning low clouds and fog along the coast. High temperatures will be in the 70's to low 80's near the coast, upper 70's to near 90 in the Sierra Nevada Mountains and coastal valleys, in the 90's to near 100 in the mountains and inland valleys, and mid 90's to 115 in the deserts. Minimum relative humidity will range from 5 to 18 percent in the mountains, inland valleys and deserts, 15 to 25 percent in the coastal valleys, and above 50 along the coast. Winds will be south to west at 5 to 15 mph inland.

A westerly flow over the Eastern Great Basin Area will bring mostly sunny skies with widely scattered showers and thunderstorms over the mountains of eastern Idaho and western Wyoming. High temperatures will be 80 to 95 in southern Utah and 65 to 82 elsewhere. Minimum relative humidity will range from 7 to 20 percent in the valleys and 10 to 30 percent in the mountains. Winds will be southwest to northwest at 8 to 18 mph with gusts to 30 mph at higher elevations.

The Southern Area can expect mostly sunny skies with scattered showers in the lower Mississippi River Valley region and in southern Florida. High temperatures will be in the 80's and 90's. Minimum relative humidity will 27 to 35 percent in North and South Carolina, and generally above 40 percent elsewhere. Winds will be south at 10 to 15 mph in Oklahoma and Texas, and north to

east at 10 to 15 mph in the remainder of the area.

A westerly flow over the Rocky Mountain Area will bring mostly sunny skies with scattered showers and thunderstorms in northern Wyoming and South Dakota. High temperatures will be mid 80's to low 90's at lower elevations and 65 to 75 in the mountains. Minimum relative humidity will range from 13 to 18 percent in southwest Wyoming, 20 to 30 percent at lower elevations, and 30 to 40 percent in the mountains. Winds will be west to southwest at 20 to 40 mph in western Wyoming and variable at 10 to 20 mph elsewhere.

High pressure building into the Western Great Basin Area will bring sunny skies. High temperatures will be near 100 in the south and mid 80's to near 90 elsewhere. Minimum relative humidity will range from the single digits to teens and winds will be north to east at 5 to 15 mph.
