

**INCIDENT MANAGEMENT SITUATION REPORT  
SATURDAY, AUGUST 10, 2002 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 5**

**CURRENT SITUATION:**

Initial attack activity was light across the nation. Nationally, 236 new fires were reported. Four of these became large fires, two in the Southern Area and one each in the Southern California and Northern California Areas. Five large fires were contained, one each in the Eastern and Northwest Areas and three in the Southern Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Georgia, Idaho, Kansas, Montana, Nevada, North Dakota, Oregon, Utah, Washington and Wyoming.

**NORTHWEST AREA LARGE FIRES:**

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. A transfer of command from Ribar's Area Command Team to Mann's Area Command Team will occur today. Area Command is assigned to manage large fires in southwest Oregon and Northern California.

FLORENCE, Siskiyou and Six Rivers National Forests. A Unified Command between three Type 1 Incident Management Teams (Lohrey, Martin, Bennett), a Type 2 Incident Management Team (Bright), and the Oregon Department of Forestry (Sifford, Spichart, Oman) is in place. This fire is burning on both sides of the California-Oregon border in mixed conifer forest and brush, 26 miles southwest of Grants Pass, OR. Intense burning conditions were observed on the northwest and south flanks. The fire continues to progress up Indigo Creek in Oregon. In California, the fire spotted across Peridotite Canyon, advancing east and south in very rugged terrain. Crews are constructing indirect and direct attack fireline, burning out and patrolling. Cave Junction, Kerby, Selma, Agness, Gardner Ranch and McCaleb Ranch are threatened. The Illinois River Valley remains under an evacuation advisory and evacuations are underway in Gasquet, CA; structure protection is in place.

TILLER COMPLEX, Umpqua National Forest. A transfer of command from Stutler's Type 1 Incident Management Team to Hart's Type 1 Incident Management Team will occur at 0700 PDT. US Army Task Force Destroyer (1<sup>st</sup> Battalion, 5<sup>th</sup> Field Artillery Regiment) commanded by Lt. Col. David R. Byrn Sr., at Ft. Riley, KS is assigned. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Active fire behavior with increased spotting, torching and running was observed in grass, brush and timber. Crews are building indirect and direct attack fireline and burning out where appropriate. Structure protection is in place in Ash Valley.

DEER POINT, Wenatchee National Forest. A Washington Interagency Incident Management Team (Furlong/Gormley) is assigned. This fire is seven miles northwest of Chelan, WA and is burning in sagebrush, ponderosa pine and lodgepole pine. Fire behavior included creeping and

smouldering, with torching and short runs observed in the interior and in the Grade Creek drainage. Crews are mopping up and rehabilitating fireline.

MONUMENT, Malheur National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This fire is nine miles southwest of Unity, OR. Minimal fire behavior was observed in mixed conifer forest, ponderosa pine and sagebrush. Engine crews are mopping up containment lines.

Southwest Oregon District, Oregon Department of Forestry

### SOUTHERN CALIFORNIA AREA LARGE FIRES:

PINES, San Diego Unit, California Department of Forestry and Fire Protection (CDF). A CDF Type 1 Incident Command Team (Ristow) is assigned. This fire is burning one half mile southeast of Julian, CA in chaparral and bug kill timber. Moderate fire behavior was observed as the fire advanced north-northwest, burning onto the desert floor. Burn out operations have been completed and crews are mopping up. Residents of Ranchita subdivision were allowed to return to their homes. A Boy Scout camp in Lost Valley remains evacuated. One additional residence and six outbuildings have been confirmed lost.

PEAK, Cleveland National Forest. This fire is 15 miles east of Ramona, CA. Rapid runs were observed in bug kill timber and heavy brush. Crews are constructing direct attack fireline. Winacka and Whispering Oaks Girl Scout Camp, and portions of Pine Hills and North Peak were evacuated.

MCNALLY, Sequoia National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire is burning in heavy brush and mixed conifer forest, nine miles north of Kernville, CA. Active fire behavior with short runs and spotting was observed on the east and northwest flanks. The fire has reached Hockett Peak and is spreading in the Golden Trout Wilderness Area. Crews made significant progress toward containment objectives on the east flank. Personnel are constructing direct attack fireline and burning out on the northwest flank with support from aerial resources. Twelve residences remain threatened; structure protection is in place.

### ALASKA AREA LARGE FIRES:

Priorities are being established by the Alaska Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

KETCHEM CREEK, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (McKnight) is assigned. This fire is four miles northeast of Circle Hot Springs, AK. Higher relative humidity and showers minimized fire activity in black spruce, taiga and hardwood forest. Crews made good progress on the northwest and south flanks.

GESKAMINA LAKE, Tanana Zone, Bureau of Land Management. A Type 2 Incident Management Team (Wilcock) is assigned. This fire is 70 miles west of Fairbanks, AK near the community of Lake Minchumina. Precipitation reduced fire activity in black spruce, taiga, muskeg and hardwood forest. Personnel are protecting structures along the Kantishna River.

NORTH FORK, Southwest Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire is two miles north-northwest of Medfra, AK. No new information was reported.

MINCHUMINA GROUP, Tanana Zone, Bureau of Land Management. This group of fires, consisting of the Sischu, John Hansen Lake, John Hansen Creek and Moose Lake fires, is five miles northwest of Lake Minchumina, AK. Precipitation contributed to minimal fire activity in black spruce, taiga, muskeg and hardwood forest. Personnel are providing structure protection to threatened cabins along the north shore of Lake Minchumina.

REINDEER, Southwest Area Forestry, Alaska Division of Forestry. This fire is 29 miles northeast of Holycross, AK. Active fire behavior was observed on the south flank in black spruce, tussock tundra and hardwood forest. Crews are providing structure protection.

KOCACHO #2, Upper Yukon Zone, Bureau of Land Management. This fire is burning 20 miles northeast of Venetie, AK in black spruce and tussock tundra. Precipitation limited fire behavior to smoldering and creeping. Smokejumpers are providing structure protection on the south and southwest flanks.

GOBLET CREEK, Galena Zone, Bureau of Land Management. This fire is eight miles west of Grayling, AK. Higher relative humidity and showers contributed to minimal fire behavior in black spruce. This will be the last report unless significant activity occurs.

### NORTHERN CALIFORNIA AREA LARGE FIRES:

POPE, Sonoma-Lake-Napa Unit, California Department of Forestry and Fire Protection. This fire is nine miles east of Calistoga, CA. Observed fire behavior included spotting and torching in grass, brush and timber. Crews are constructing fireline and suppressing a spot fire. Several residences are threatened; structure protection is in place.

### EASTERN GREAT BASIN AREA LARGE FIRES:

SEQUOIA, Dixie National Forest. This fire is 26 miles southwest of Cedar City, UT. Short runs, creeping and smouldering fire activity was observed in chaparral and ponderosa pine.

GARDEN VALLEY COMPLEX, Boise National Forest. A transfer of command from Murphy's Type 2 Incident Management Team to a Type 3 organization will occur today. This complex consists of 23 fires northeast of Garden Valley, ID. Minimal fire behavior was observed in sagebrush, lodgepole pine and subalpine fir. Crews are mopping up and gridding for hot spots on the No Man, East Fork, Danskin and Middle Fork fires.

## **OUTLOOK:**

**\*\*\*A RED FLAG WARNING HAS BEEN POSTED IN SOUTHWEST OREGON AND NORTHERN CALIFORNIA FOR LOW RELATIVE HUMIDITY, POOR OVERNIGHT RELATIVE HUMIDITY RECOVERY, ABOVE NORMAL TEMPERATURES AND GUSTY NORTH TO EAST WINDS\*\*\***

**\*\*\*A FIRE WEATHER WATCH HAS BEEN ISSUED IN THE INLAND COUNTIES OF NORTHWEST FLORIDA FROM NOON UNTIL SUNSET FOR LOW RELATIVE HUMIDITY\*\*\***

Weakening high pressure over the Northwest Area will bring mostly sunny skies with scattered showers along the Washington coast. High temperatures will be in the 70's in the mountains and in the 80's and 90's at lower elevations. Winds will be northeast, gusting to 30 mph in southwestern Oregon, and west in the remainder of the area.

The Southern California Area can expect sunny skies. High temperatures will be in the 80's and 90's near the coast, in the 80's to 105 in the mountains, 100 to 108 in the inland valleys, and 103 to 115 in the deserts. Minimum relative humidity will range from 5 to 18 percent in the mountains, inland valleys and deserts, 15 to 25 percent in the coastal valleys, and above 40 along the coast. Winds will be south to west at 5 to 15 mph inland.

A cool, moist flow over the Alaska Area will bring mostly cloudy skies with scattered showers and isolated wet thunderstorms. High temperatures will be in the 50's and 60's and minimum relative humidity will be generally above 45 percent. Winds will be south to southwest at 5 to 15 mph.

The Northern California Area can expect mostly sunny skies with patchy coastal fog north of Cape Mendocino. High temperatures will be in the 60's and 70's near the coast, in the 80's and 90's in the mountains, and 100 to 108 in the inland valleys. Minimum relative humidity will range from 5 to 18 percent. Winds will be northwest to northeast at 5 to 20 mph.

A dry, northwest flow over the Eastern Great Basin Area will bring mostly sunny skies. High temperatures will be 82 to 97 at lower elevations and 68 to 82 in the mountains. Minimum relative humidity will range from 4 to 16 percent in the valleys and 7 to 20 percent in the mountains. Winds will be west to southwest at 10 to 15 mph in the Idaho, with light, variable winds in Utah.

High pressure over the Southern Area will bring sunny skies with scattered showers and thunderstorms in Oklahoma and northern Texas. High temperatures will be in the mid 80's to 90's. Minimum relative humidity will be in the mid 20 percent range in South Carolina and above 30 percent elsewhere. Winds will be south to east at 5 to 15 mph.

A west-northwest flow over the Rocky Mountain Area will bring sunny skies with a chance of thunderstorms across the plains of Colorado and Nebraska. High temperatures will be in the 80's at lower elevations and in the 70's in the mountains. Minimum relative humidity will range from 8 to

16 percent in southwestern Wyoming and western Colorado, and 15 to 28 percent elsewhere. Winds will be west at 10 to 18 mph in the mountains and variable at 5 to 15 mph in the remainder of the area.

[www.nifc.gov/sixminutes/index\\_j.asp](http://www.nifc.gov/sixminutes/index_j.asp)

<b><u>HAZARDOUS MATERIAL    UNEXPLODED ORDNANCE</u></b>	
<u>Recognizing unexploded ordnance (UXO) is the first and most important step in reducing the risk of injury or death. UXO poses risk of injury or death to anyone in the vicinity. Safety measures include:</u>	
	<u>If you see UXO, stop. Do not move closer.</u>
	<u>Never remove anything near UXO.</u>
	<u>Clearly mark the UXO area with flagging, etc.</u>
	<u>Keep a minimum of 500 feet away from any UXO that is on fire.</u>
	<u>Report discovery of UXO to your immediate supervisor and/or dispatch.</u>
<u>The following types of UXO may be encountered on military, former military and non-military sites:</u>	
	<u>Small arms munitions</u>
	<u>Guided missiles</u>
	<u>Rifle grenades</u>
	<u>Rockets</u>
	<u>Projectiles</u>
	<u>Mortars</u>
	<u>Bombs</u>
	<u>Hand grenades</u>
	<u>Projected grenades</u>
	<u>Dynamite</u>
<u>UXO may be found fully intact or in fragments. All UXO, whether intact or in fragments, presents a potential hazard.</u>	

	Deteriorated UXO presents a particular hazard because it may contain chemical agents that become exposed.
