**INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY, AUGUST 14, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was moderate in the Southern California Area and light elsewhere. Nationally, 181 new fires were reported. Two of these became large fires, one each in the Rocky Mountain and Eastern Great Basin Areas. Two large fires were contained, one each in the Southern California and Rocky Mountain Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Georgia, Idaho, Kansas, Montana, Nebraska, Nevada, North Dakota, Oregon, Rhode Island, South Dakota, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southwest Oregon and northern California.

BISCUIT, Siskiyou and Six Rivers National Forests. A Unified Command between three Type 1 Incident Management Teams (Bateman, Martin, Bennett), a Type 2 Incident Management Team (Bright), the Oregon Department of Forestry (Sifford, Spichart, Oman), and the Oregon State Fire Marshall's Office is in place. A transfer of command from Bennett's Type 1 Incident Management Team to Frye's Type 1 Incident Management Team will occur at 0600 PDT. The fire is burning on both sides of the California-Oregon border in mixed conifer forest and brush, 26 miles southwest of Grants Pass, OR. Fire behavior was moderate to extreme on the northwest flank, active in Indigo Creek on the north perimeter, moderate on the east and west flanks, and low on the south flank. Crews have completed indirect attack fireline on the north perimeter in preparation for a burn out. On the east flank, crews successfully completed a burn out operation between the Chetco River and Long Ridge. A pre-evacuation alert is in place for residents of Agness and in the Pistol River area. The Illinois River Valley remains under an evacuation advisory; structure protection is in place. Cave Junction, Kerby, Selma, Agness, Gardner Ranch and McCaleb Ranch are threatened. Two outbuildings were lost.

TILLER COMPLEX, Umpqua National Forest. A Type 1 Incident Management Team (Hart) and US Army Task Force Destroyer (1st Battalion, 5th Field Artillery Regiment) commanded by Lt. Col. David R. Byrn Sr., at Ft. Riley, KS are assigned. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Active fire behavior with increased spotting and running was observed in grass, brush and timber. Heavy fuel loading and very steep, inaccessible terrain are hampering containment efforts. Crews are building indirect and direct attack fireline and conducting burning out operations. Structure protection is in place in Ash Valley. Aerial operations were suspended due to heavy smoke inversion. The Falcon fire has been contained.

HEMLOCK, Willamette National Forest. A Type 2 Incident Management Team (Gardner) is assigned. This fire is one half mile north of West Fir, OR. Observed fire behavior included creeping and smouldering in timber and brush. Crews made good progress mopping up on all divisions.

DEER POINT, Wenatchee National Forest. This fire is burning seven miles northwest of Chelan, WA in sagebrush, ponderosa pine and lodgepole pine. Increased torching and running were observed in the Grade Creek drainage and in unburned interior islands. Engine crews are improving, mopping up and rehabilitating fireline.

MONUMENT-MALHEUR COMPLEX, Malheur National Forest. A Type 2 Incident Management Team (Swope) is assigned. This complex is southwest of Unity, OR. Minimal fire activity was observed in mixed conifer forest, ponderosa pine and sagebrush. Crews are mopping up, rehabilitating firelines and patrolling.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

MCNALLY, Sequoia National Forest. A Type 1 Incident Management Team (Studebaker) is assigned. This fire is burning in heavy brush and mixed conifer forest, nine miles north of Kernville, CA. Short runs and minor torching were observed in the Nine Mile Creek drainage and on the northeast flank. Crews are constructing direct and indirect attack fireline and burning out on the northwest, east and west perimeters with support from aerial resources. Crews made good progress mopping up portions of the west flank.

RRU = Riverside Unit, California Department of Forestry and Fire Protection

ROCKY MOUNTAIN AREA LARGE FIRES:

CHERRY CREEK, Southern Ute Agency. A Type 2 Incident Management Team (Hartman) is assigned. This fire is 14 miles southwest of Hesperus, CO. Isolated torching was observed in pinyon pine and juniper. Dozers and crews are constructing fireline. Several residences and outbuildings are threatened; structure protection is in place. Reduction in acreage is due to more

accurate mapping.

BURN RIDGE, Routt National Forest. This fire is 25 miles north of Steamboat Springs, CO. Torching, crowning and spotting were observed in aspen, fir and spruce. The fire is advancing into the Mt. Zirkel Wilderness Area. Crews made good progress constructing fireline on the north and southwest flanks with support from aerial resources.

RSD = Rock Springs Field Office, Bureau of Land Management

EASTERN GREAT BASIN AREA LARGE FIRES:

BIG B, Lower Snake River District, Bureau of Land Management. This fire is burning ten miles southeast of Jordan Valley, OR in grass, sagebrush and juniper. Extreme fire behavior was observed during the initial phase, moderating as the head of the fire reached lighter fuels. Engine crews are wet lining the fire and mopping up.

BROWNIE, Ashley National Forest. This fire is 22 miles northwest of Vernal, UT. Moderate fire behavior observed in bug kill lodgepole pine. Crews are holding and mopping up on the east and west flanks.

SEQUOIA, Dixie National Forest. This fire is burning 26 miles southwest of Cedar City, UT in mixed conifer forest and brush. Crews successfully suppressed a slopover on the west flank.

ALASKA AREA LARGE FIRES:

GESKAKMINA LAKE, Tanana Zone, Bureau of Land Management. A Type 2 Incident Management Team (Wilcock) is assigned. This fire is 70 miles west of Fairbanks, AK. Observed fire behavior included creeping, smouldering and torching in black spruce, muskeg and hardwood forest. Crews are mopping up around structures along the Kantishna River and at West Twin Lake, Kindanina Lake and Mucha Lake.

REINDEER, Southwest Area Forestry, Alaska Division of Forestry. This fire is 29 miles northeast of Holycross, AK. Running, crowning and torching were observed in black spruce, tussock tundra and hardwood forest. The fire has crossed Caribou Creek on the southeast flank. Crews are providing structure protection on the southwest flank.

KETCHEM CREEK, Upper Yukon Zone, Bureau of Land Management. This fire is four miles northeast of Circle Hot Springs, AK. Observed fire behavior included creeping, smouldering and occasional torching in black spruce and hardwood forest. Crews made good progress mopping up the northeast flank. This will be the last report unless significant activity occurs.

OUTLOOK:

*****A RED FLAG WARNING HAS BEEN POSTED IN EASTERN WASHINGTON, THE NORTHERN IDAHO PANHANDLE AND NORTH-CENTRAL OREGON FOR STRONG WEST WINDS AND LOW RELATIVE HUMIDITY*****

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN PORTIONS OF SOUTHWEST AND SOUTH-CENTRAL WYOMING FOR LOW RELATIVE HUMIDITY, HIGH TEMPERATURES, VERY DRY FUELS AND INCREASING WEST WINDS*****

Strong high pressure over the Northwest Area will bring sunny skies. High temperatures will be in the 60's along the coast, near 100 in the valleys of southwestern Oregon, and in the 80's and 90's inland. Minimum relative humidity will range from 15 to 25 percent west of the Cascade Mountains and in the single digits elsewhere. Winds will be west, gusting to 35 mph in the Columbia River Gorge and over the east slopes of the Cascade Mountains in Washington.

A high pressure system over the Southern California Area will bring sunny skies with morning low clouds and fog along the coast. High temperatures will be in the 70's to low 80's near the coast, in the 80's to 105 in the mountains and inland valleys, and 98 to 115 in the deserts. Minimum relative humidity will range from 5 to 18 percent in the mountains and deserts, 10 to 20 percent in the inland valleys, 20 to 35 percent in the coastal valleys, and above 50 along the coast. Winds will be west to north at 10 to 20 mph in the mountains and deserts.

A dry, northwest flow over the Rocky Mountain Area will bring sunny skies. High temperatures will be 68 to 78 in the mountains and mid 80's to low 90's at lower elevations. Minimum relative humidity will range from 10 to 20 percent in Wyoming and western Colorado and 15 to 30 percent elsewhere. Winds will be west at 15 to 25 mph with gusts to 40 mph in south-central and southwest Wyoming. In the remainder of the area, winds will be west at 10 to 20 mph, gusting to 25 mph.

The Eastern Great Basin Area can expect mostly sunny skies. High temperatures will be 83 to 106 at lower elevations and 73 to 88 in the mountains. Minimum relative humidity will range from 3 to 20 percent. Winds will be northwest at 10 to 25 mph in Idaho and western Wyoming, and variable at 5 to 15 mph elsewhere.

Partly to mostly cloudy skies are forecast for the Alaska Area. High temperatures will be upper 50's to 60's. Minimum relative humidity will be in the upper 20 percent range in the western interior and in the 30 and 40 percent range in the east. Winds will be west to southwest at 10 to 20 mph.
