

**INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, AUGUST 23, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was moderate in the Rocky Mountain and Northern Rockies Areas, and light elsewhere. Nationally, 150 new fires were reported. Two of these became large fires, one each in the Northwest and Southern Areas. Five large fires were contained, three in the Northwest Area and one each in the Northern Rockies and Northern California Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. The National Fire Prevention and Education Team (Agner) is working with the Northwest Multi-Agency Coordinating Group, supporting an arson/prevention task force operation in central Washington and a regional media campaign.

An Area Command Team (Chesley) is assigned to manage large fires on the Umpqua National Forest. An Area Command Team (Mann) is assigned to manage the Biscuit fire. An additional Area Command Team (Williams-Rhodes) has been ordered. The Oregon State Fire Marshall's Office is assisting Mann's Area Command Team with contingency planning and structure protection assessment.

BISCUIT, Siskiyou and Six Rivers National Forests. A Unified Command between three Type 1 Incident Management Teams (Bateman, Frye, Vail) and the Oregon Department of Forestry is in place. A Type 2 Incident Management Team (Morcom) has been ordered. The fire is burning in mixed conifer forest and brush, 26 miles southwest of Grants Pass, OR. Moderate fire behavior was observed on the west flank. Crews are constructing indirect and direct attack fireline on the northwest and west perimeters. Personnel are patrolling, mopping up and rehabilitating firelines on the south and east flanks. Residents in the upper Pistol River drainage, Illahe and Agness remain under an evacuation advisory. Wilderness Retreat, Gardner Ranch, Tolman Ranch and structures in the Pistol and Chetco River drainages are threatened; structure protection is in place.

TILLER COMPLEX, Umpqua National Forest. A Type 1 Incident Management Team (Melton) is assigned. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Moderate fire behavior was observed in grass, brush and timber. Crews are building indirect and direct attack fireline, burning out and mopping up. Sixty-seven homes are threatened; structure protection is in place.

APPLE, Umpqua National Forest. A Unified Command between a Type 2 Incident Management Team (Carlson) and the Oregon Department of Forestry is in place. This fire is 21 miles east of Glide, OR. Higher relative humidity moderated fire behavior in heavy timber. Crews are constructing indirect attack fireline on the east and west flanks. Twenty homes and several outbuildings are threatened; structure protection is in place. Highway 138 is open with 24 hour metered traffic restrictions.

LAVA, Lakeview District, Bureau of Land Management. This fire is in a Wilderness Study Area, 15 miles north-northwest of Christmas Valley, OR. The fire is burning in mountain mahogany, juniper, sagebrush and grass. Dry fuels and rough terrain are hampering containment efforts.

DEER POINT, Wenatchee National Forest. This fire is burning seven miles northwest of Chelan, WA in sagebrush, ponderosa pine and lodgepole pine. No new information was reported.

QUARTZ MT. COMPLEX, Okanogan National Forest. A Fire Use Management Team (Cones) is assigned. This complex is in the Pasayten Wilderness Area, northwest of Winthrop, WA. Minimal fire behavior was observed in lodgepole pine and subalpine fir. Three historic structures are threatened. Personnel are monitoring fire behavior.

ROCKY MOUNTAIN AREA LARGE FIRES:

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BATTLE CREEK, Black Hills National Forest. A Type 1 Incident Management Team (Wood) is assigned. This fire is ten miles southwest of Rapid City, SD. Moderate fire behavior was observed in ponderosa pine, grass and light slash. Crews are constructing direct attack handline. Approximately five hundred residences and fifteen commercial properties remain threatened; structure protection is in place.

MT. ZIRKEL COMPLEX, Routt National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This complex, comprised of the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. The Burn Ridge fire is burning actively on both sides of the Continental Divide. Moderate fire behavior was observed in heavy dead and down spruce, lodgepole pine and fir on the Hinman fire. Crews are constructing fireline and holding on the west flank in preparation for a burn out operation. Structure protection is in place in North Park and in the Seed House corridor. Reduction in acreage is due to more accurate mapping.

GREEN CREEK, Routt National Forest. A Type 2 Incident Management Team (Hartman) is assigned. This fire is 15 miles southeast of Steamboat Springs, CO. Minimal fire activity was observed in spruce, fir and lodgepole pine. Crews and dozers are constructing fireline with support from aerial resources. Thirteen homes and a commercial property at Lake Agnes are threatened; structure protection is in place.

BIG FISH, White River National Forest. A Fire Use Management Team (Cook) is assigned. The Team is also managing the Lost Lakes fire. This lightning-caused Wildland Fire Use Incident, which started on July 19th, is 34 miles southwest of Steamboat Springs, CO. The fire is being managed for resource benefit and a confinement strategy is in place. Smouldering was observed in heavy dead and down spruce, fir and aspen. Structure protection is in place at Rio Blanco Guest Ranch and Ripple Creek Lodge.

SHAFF #2, San Juan National Forest. This fire is four miles north of Cascade, CO. Observed fire behavior included smouldering and creeping in mixed conifer forest. Crews are building fireline in Lime Creek with support from aerial resources. Steep, rocky terrain and limited access are hampering containment efforts.

LOST LAKES, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This fire is 20 miles west of Yampa, CO. The fire is being managed for resource benefit and is in monitor status. Minimal fire activity was observed in bug kill spruce and fir.

ARAPAHOE, Rawlins District, Bureau of Land Management. This fire is 13 miles southwest of Jeffrey City, WY. Rapid rates of spread were observed in sagebrush, grass, pinyon pine and juniper. Engine crews successfully burned out and are mopping up. Five commercial properties are threatened; structure protection is in place.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

MCNALLY, Sequoia and Inyo National Forests. A Type 1 Incident Management Team (Raley) is assigned. This fire is nine miles north of Kernville, CA. Increased fire behavior with moderate to high intensity surface runs and occasional torching was observed in heavy brush, mixed conifer forest and fir. Burn out operations are underway near Sherman Peak. Crews are constructing direct attack fireline on the northwest flank. Twenty-three residences remain threatened; structure protection is in place.

NORTHERN ROCKIES AREA LARGE FIRES:

KELLY CREEK, Nez Perce National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is burning in the Salmon River Breaks, 11 miles east of Riggins, ID. Precipitation moderated fire behavior in ponderosa pine, Douglas fir and sagebrush. Crews have nearly completed fireline construction on the east flank. Two cabins are threatened; structure protection is in place. Increase in acreage is due to more accurate mapping.

SHEEP CREEK, Beaverhead-Deerlodge National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is 16 miles west of Wisdom, MT. Minimal fire activity was observed in heavy dead and down lodgepole pine, Douglas fir and subalpine fir. Crews are constructing and improving fireline and mopping up. Increase in acreage is due to more accurate mapping.

EASTERN GREAT BASIN AREA LARGE FIRES:

GARDER, Vernal Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Brunner) is assigned. This fire is 21 miles southwest of Duchesne, UT. Minimal fire activity with isolated torching was observed in lodgepole pine, aspen and Douglas fir. Crews are constructing direct attack fireline on the east, south and west flanks. Structure protection is in place in Argyle Canyon.

EAGLE SPRINGS, Sawtooth National Forest. This fire is burning 29 miles south of Twin Falls, ID in lodgepole pine, grass and sagebrush. Crews are constructing direct attack fireline and mopping up.

FRANK CHURCH COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Zimmerman) is assigned. This complex, consisting of the Parker Mountain, Little Horse, Little Soldier and Big Hill fires, is 30 miles northwest of Salmon, ID. Minimal fire activity was observed in subalpine fir and lodgepole pine. Structure protection is in place at Gattin Ranch.

SOUTHWEST AREA LARGE FIRES:

PACK RAT, Coconino National Forest. This fire is eight miles east of Pine, AZ. Increased fire behavior was observed in mixed conifer forest and chaparral. Crews are constructing direct and indirect attack fireline on the east and west flanks in preparation for a burn out operation. Extremely steep, rugged terrain is impeding containment efforts.

WATER, Gila National Forest. This fire, burning in pinyon pine, juniper and grass, is ten miles northwest of Poverty Creek, NM. No new information was reported. This will be the last report unless new information is received.

CASTLE, Gila National Forest. This fire is ten miles northwest of Poverty Creek, NM in pinyon pine, juniper and grass. No new information was reported. This will be the last report unless new information is received.

ALASKA AREA LARGE FIRES:

REINDEER, Southwest Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This fire is 29 miles northeast of Holycross, AK in black spruce, tussock tundra and hardwood forest. Active fire behavior was observed on the north flank. Crews are providing structure protection at Reindeer Lake.

OUTLOOK:

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN WESTERN UTAH FOR GUSTY SOUTHWEST WINDS, LOW RELATIVE HUMIDITY AND DRY LIGHTNING*****

Low pressure over the Northwest Area will bring partly cloudy skies with scattered showers and thunderstorms east of the Cascade Mountains. High temperatures will be in the 70's and 80's. Minimum relative humidity will range from 25 to 40 percent in the west and 15 to 25 percent in the east. Winds will be variable at 5 to 10 mph.

The Rocky Mountain Area can expect isolated to widely scattered wet thunderstorms. High temperatures will be in the 60's and 70's in the mountains and in the 80's and 90's at lower elevations. Minimum relative humidity will range from 30 to 40 percent in the mountains, 15 to 23 percent in northwestern Colorado and southwestern Wyoming, and 20 to 30 percent elsewhere. Winds will be southwest at 8 to 16 mph in Colorado and southern Wyoming. In northern Wyoming and the Black Hills, winds will be northeast to southwest at 5 to 15 mph.

The Southern California Area can expect sunny skies with morning low clouds and fog near the coast. High temperatures will be in the 70's to low 80's along the coast, in the 70's to low 90's in the mountains and inland valleys, and in the 90's to 107 in the deserts. Minimum relative humidity will range from 10 to 25 percent in the southern deserts, 5 to 15 percent in the mountains and inland deserts, 25 to 40 percent in the coastal mountains, and above 45 percent near the coast. Winds will be west to southwest at 10 to 20 mph in the mountains, and southwest to northwest at 12 to 25 mph in the high deserts.

Unstable air over the Northern Rockies Area will bring scattered showers and thunderstorms to Montana and Idaho. High temperatures will be 70 to 85. Minimum relative humidity will range from 40 to 50 percent in North Dakota and 20 to 30 percent elsewhere. Winds will be east to southeast at 5 to 15 mph.

The Eastern Great Basin Area can expect partly cloudy skies with scattered thunderstorms in Idaho and western Wyoming. Isolated dry thunderstorms are forecast in the mountains of Utah. High temperatures will be in the 70's to mid 80's in Idaho and near 100 in southern Utah. Minimum relative humidity will range from 25 to 40 percent in the north and 5 to 15 percent in the south. Winds will be southwest at 10 to 20 mph, gusting from 20 to 35 mph in the western deserts of Utah.

The Western Great Basin Area can expect partly cloudy skies with a chance of isolated thunderstorms. High temperatures will be upper 70's to mid 80's in the north and mid 80's to mid 90's in the south. Minimum relative humidity will range from 6 to 15 percent. Winds will be west at 10 to 15 mph, gusting to 20 mph in the afternoon.

Partly to mostly cloudy skies are forecast for the Alaska Area with scattered showers expected south of the Alaska Range and in the south-central and eastern interior. High temperatures will be in the 50's and 60's. Minimum relative humidity will be above 30 percent and winds will be variable at 5 to 15 mph.

The Southern Area can expect mostly sunny skies with a chance of isolated thunderstorms. High temperatures will be in the 80's and 90's. Minimum relative humidity will be in the 30 percent range in Oklahoma, Texas and South Carolina, and above 45 percent elsewhere. Winds will be variable at 5 to 20 mph.

High pressure building into the Northern California Area will bring mostly sunny skies inland with

scattered cumulus over the Sierra Nevada Mountains and morning low clouds and fog along the coast. High temperatures will be in the 60's and 70's along the coast and in the 80's to mid 90's inland. Minimum relative humidity will range from 11 to 25 percent inland and above 50 percent near the coast. Winds will be south at 5 to 10 mph in the Sacramento Valley and southwest to northwest at 5 to 15 mph elsewhere.

SERIOUS INJURY PROCEDURES

Dealing with serious injuries on the fireline can add even more stress to our hectic work environment. If you encounter a serious injury, consider the following:

	<u>Administer first aid and call for medical aid and transportation, if needed.</u>
	<u>Do not release the injured person s name except to authorities.</u>
	<u>Never broadcast the injured person s name over the radio or cell phone.</u>
	<u>Do not allow unauthorized picture taking or release of pictures.</u>
	<u>Notify the Incident Commander. The IC s job is then to do the following:</u>
	<u>Assign a person to supervise evacuation, if necessary, and to stay with the patient until medical care arrives. In rough terrain, at least 15 workers will be required to carry a stretcher.</u>
	<u>Assign a person to gather facts and witness statements and preserve evidence until the investigation can be assumed by the Safety Officer or appointed investigating team.</u>
	<u>Notify dispatch.</u>
