

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, AUGUST 29, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4**

CURRENT SITUATION:

Initial attack activity was moderate in the Northwest and Eastern Great Basin Areas, and light elsewhere. Nationally, 180 new fires were reported. Six large fires were reported, two each in the Northwest and Eastern Great Basin Areas and one each in the Southern California and Southern Areas. Four large fires were contained, two in the Southern California Area and one each in the Rocky Mountain and Northern Rockies Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Chesley) is assigned to manage large fires on the Umpqua National Forest. An Area Command Team (Williams-Rhodes) is assigned to manage the Biscuit fire.

BISCUIT, Siskiyou and Six Rivers National Forests. A Unified Command between two Type 1 Incident Management Teams (Frye and Vail), a Type 2 Incident Management Team (Morcom) and the Oregon Department of Forestry is in place. A transfer of command from Frye's Type 1 Incident Management Team to Dash's Type 1 Incident Management Team is planned. The fire is 26 miles southwest of Grants Pass, OR. Low to moderate fire behavior was observed in mixed conifer forest and brush on the northwest and west flanks. Crews are holding fireline on the west flank and mopping up. The pre-evacuation advisory has been lifted for residents of Agness, Illahe and in the Pistol River area. Structure protection is in place at Wilderness Retreat, Gardner Ranch, the Chetco Inn, Tolman Ranch and in the Pistol River drainage.

APPLE, Umpqua National Forest. A Unified Command between a Type 2 Incident Management Team (Carlson) and the Oregon Department of Forestry is in place. A Type 1 Incident Management Team (Lohrey) has been ordered. This fire is 21 miles east of Glide, OR. Torching, short runs and short range spotting were observed in heavy timber. Crews are constructing indirect attack fireline on the west and south flanks. Approximately one and one half miles of burn out were completed. Structure protection is in place at twenty residences.

TILLER COMPLEX, Umpqua National Forest. A Unified Command between a Type 1 Incident Management Team (Melton) and the Oregon Department of Forestry is in place. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Moderate fire behavior was observed in grass, brush and timber. Aerial ignition to burn out interior islands is underway. Crews are building indirect and direct attack fireline; mop-up is underway on several divisions. Structure protection is in place at sixty-seven residences.

OLIVER, Malheur National Wildlife Refuge. This fire is two miles northeast of Buena Vista, OR. Active fire behavior was observed in tules, greasewood, wild rye, sagebrush and grass. Engine crews successfully completed a burn out on three flanks. Dozers are constructing fireline on the north and northeast perimeters.

VISHER CREEK, Vale District, Bureau of Land Management. This fire is burning in grass and sagebrush, 20 miles south of Juntura, OR. Engine crews are wet lining the fire and dozers are building fireline with support from aerial resources.

QUARTZ MT. COMPLEX, Okanogan National Forest. A Fire Use Management Team (Cones) is assigned. This complex, consisting of the Quartz Mountain, Middle Mountain, Beauty Peak Action #344 and Lake fires, is in the Pasayten Wilderness Area, northwest of Winthrop, WA. Active fire behavior was observed in lodgepole pine and subalpine fir on the Quartz Mountain and Middle Mountain fires. Personnel are providing structure protection at three administrative sites.

SOUTHWEST AREA LARGE FIRES:

LAKES COMPLEX, Santa Fe National Forest. A Type 1 Incident Management Team (Hefner) is assigned. This complex, comprised of the Lakes and Labor fires, is eight miles north of Jemez Pueblo, NM. Minimal fire activity was observed in mixed conifer forest. Crews made good progress constructing handline and mopping up. Residents of Seven Springs and Thompson Ridge residential areas have been allowed to return to their homes. State Route 126 remains closed.

PACK RAT COMPLEX, Coconino National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This complex, consisting of the Pack Rat and 5 Mile fires, is eight miles east of Pine, AZ. Extreme fire behavior with crowning, torching and long range spotting was observed on the 5 Mile fire in ponderosa pine, mixed conifer forest and chaparral. Crews are burning out along Highway 87 and constructing handline on the east flank. Moderate fire behavior was observed on the Pack Rat fire. The fire has slopped over Miller Point Ridge and is advancing east toward the East Verde River drainage. Crews are aggressively suppressing spot fires on the north flank and burning out along Highline Trail. The Washington Park Guest Ranch remains evacuated. Two hundred residences are threatened; structure protection is in place.

TRICK, Kaibab National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is 17 miles south-southwest of Williams, AZ. Moderate fire behavior was observed in ponderosa pine and brush. The fire advanced east, burning into the Sycamore Wilderness Area.

Crews are building fireline with support from aerial resources. Steep, inaccessible terrain and limited water sources are impeding containment efforts.

TRICK	AZ	KNF	5,470	53	UNK	457	12	17	5	0	1.7M

ROCKY MOUNTAIN AREA LARGE FIRES:

PASS CREEK, Shoshone National Forest. A Type 2 Incident Management Team (Sisk) is assigned. This fire is 18 miles south of Lander, WY. Minimal fire activity was observed in lodgepole pine, spruce, and heavy down fuels. Crews made good progress constructing fireline around structures and private land. Residents in the Pass Creek and Red Canyon areas remain evacuated. Engine crews are providing structure protection for thirty residences.

MT. ZIRKEL COMPLEX, Routt National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. A Type 1 Incident Management Team (Bennett) has been ordered. This complex, comprised of the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. Increased fire activity was observed in heavy dead and down spruce, lodgepole pine and fir. Crews are holding the east flank of the Burn Ridge fire near the town of Walden. Personnel are improving fireline on the west flank of both fires in preparation for a burn out operation. Structure protection is in place in North Park and in the Seed House corridor.

GREEN CREEK, Routt National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 15 miles southeast of Steamboat Springs, CO. Minimal fire activity was observed in spruce, fir and lodgepole pine. Crews made significant progress cold trailing and hot-spotting in the Sarvis Wilderness Area.

BIG FISH, White River National Forest. A Fire Use Management Team (Cook) is assigned. The Team is also managing the Lost Lakes fire. This lightning-caused Wildland Fire Use Incident, which started on July 19th, is 34 miles southwest of Steamboat Springs, CO. The fire is being managed for resource benefit and a confinement strategy is in place. Active fire behavior was observed in heavy dead and down spruce, fir and aspen in the Skinnyfish and Paradise drainages. Fire Use Modules are monitoring fire behavior. Engine crews are providing structure protection at several guest ranches.

LOST LAKES, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use Incident, which started on July 8th, is 20 miles west of Yampa, CO. The fire is in monitor status and is being managed for resource benefit. Active fire behavior was observed in bug kill spruce and fir.

HALO, Little Snake Field Office, Bureau of Land Management. This lightning-caused Wildland Fire Use Incident, which started on August 21st, is 18 miles west of Maybell, CO. Torching and moderate upslope runs were observed in pinyon pine and juniper in the Cross Mountain Wilderness Study Area. Personnel are monitoring fire behavior and managing the fire for resource benefit.

EASTERN GREAT BASIN AREA LARGE FIRES:

JOHNSON, Fishlake National Forest. A Type 2 Incident Management Team (Suwyn) has been ordered. This wind driven fire is 23 miles southeast of Richfield, UT. Running, crowning, torching and spotting up to one quarter mile ahead of the front were observed in spruce and fir. Heavy initial attack is underway. Campers in the Johnson Reservoir, 7 Mile and UM Pasture areas have been evacuated. Structure protection is in place for residences, cabins and recreational trailers.

COTTONWOOD, Fishlake National Forest. A Type 2 Incident Management Team (Van Bruggen) is assigned. This fire is six miles southwest of Marysvale, UT. Low to moderate intensity fire behavior was observed in subalpine fir, mountain mahogany, juniper and aspen. Crews made significant progress building handline and hot-spotting on the east flank. Dozer line was completed on the north perimeter. Structure protection is in place for the town of Marysvale.

DYNAMITE, Northwest State, Utah State Division of Forestry, Fire and State Lands. This fire is ten miles northwest of Grantsville, UT. Moderate fire behavior was observed in grass, sagebrush, juniper and fir. Personnel are flanking the fire on the east and west perimeters with support from aerial resources. Four commercial properties are threatened; structure protection is in place. Decrease in acreage is due to more accurate mapping.

FRANK CHURCH COMPLEX, Salmon-Challis National Forest. A Fire Use Management Team (Zimmerman) is assigned. This complex, consisting of the Parker Mountain, Little Horse, Little Soldier, Bobtail, Waterfall, Colt and Big Hill fires, is 30 miles northwest of Salmon, ID. Minimal fire activity was observed in subalpine fir and lodgepole pine. Engine crews are patrolling and hot-spotting. Structure protection is in place at Gattin Ranch and at improvements near the Little Soldier fire.

PINTO RIDGE, Wasatch-Cache National Forest. This Wildland Fire Use Incident, which started on August 19th, is in the High Uintas Wilderness Area, northwest of Roosevelt, UT. Low intensity fire behavior was observed in subalpine fir. The fire is in monitor status and is being managed for resource benefit. This will be the last report unless significant activity occurs.

OUTLOOK:

*****A FIRE WEATHER WATCH HAS BEEN ISSUED IN EASTERN UTAH AND WESTERN COLORADO FOR INCREASING SOUTHWEST WINDS, LOW RELATIVE HUMIDITY AND WIDELY SCATTERED DRY THUNDERSTORMS*****

A weak upper level trough moving into the Northwest Area will bring sunny skies with a slight chance of wet thunderstorms east of the Cascade Mountains. High temperatures will be in the 80's and 90's. Minimum relative humidity will be in the mid teens in eastern Washington and Oregon, 35 to 50 percent in western Washington and northwest Oregon, and 20 to 35 percent in southwest Oregon. Winds will be west to northwest at 15 to 25 mph in the Columbia Basin, Columbia River Gorge and along the east slope of the Cascade Mountains.

The Southwest Area can expect partly to mostly sunny skies with a chance of showers and thunderstorms across New Mexico, west Texas and eastern Arizona. High temperatures will be in the 70's and 80's in the mountains and upper 80's to 105 at lower elevations. Minimum relative humidity will range from 10 to 25 percent in western Arizona and 25 to 50 percent elsewhere. Winds will be south to southwest at 10 to 20 mph.

Unstable air spreading into the Rocky Mountain Area will bring scattered showers and thunderstorms. Isolated, mainly dry thunderstorms are forecast in western Colorado. High temperatures will be 55 to 75 in Wyoming and the Black Hills, and in the 70's, 80's and 90's elsewhere. Minimum relative humidity will range from 10 to 20 percent in western Colorado, 20 to 30 percent in eastern Colorado and southwestern Wyoming, and 25 to 40 percent in the remainder of the area. Winds will be southwest at 10 to 25 mph in western Colorado and Wyoming, and south to southeast at 10 to 20 mph east of the Continental Divide.

The Eastern Great Basin Area can expect partly cloudy skies with wet and dry thunderstorms in Idaho and isolated dry thunderstorms in eastern Utah. High temperatures will be 60 to 80 in the north and 85 to 100 in the south. Minimum relative humidity will range from 25 to 40 percent in Idaho and 3 to 15 percent in Utah. Winds will be southwest at 20 to 30 mph in western Wyoming and eastern Utah, and 10 to 20 mph in the remainder of the area.

The Southern California Area can expect sunny skies with morning low clouds and fog near the coast and afternoon cumulus buildup over the Sierra Nevada Mountains. High temperatures will be mid 60's to mid 70's along the coast, mid 70's to 80's in the mountains and inland valleys, and upper 80's to 105 in the deserts. Minimum relative humidity will range from 8 to 18 percent in the deserts, 12 to 25 percent in the mountains, 30 to 45 percent in the inland valleys, and above 55 percent near the coast. Winds will be south to southwest at 10 to 20 mph in the mountains and deserts, and onshore at 8 to 15 mph along the coast.

The Southern Area can expect mostly sunny skies in the west and showers in the Atlantic Coast states. High temperatures will be in the 70's in Virginia, in the 90's in Texas and in the 80's in the remainder of the area. Minimum relative humidity will range from 30 to 35 percent in Oklahoma and Texas, and above 40 percent elsewhere. Winds will be variable at 8 to 15 mph.

A moist, southerly flow over the Northern Rockies Area will bring scattered showers and thunderstorms. High temperatures will be 75 to 90. Minimum relative humidity will range from 45 to 55 percent in North Dakota and 20 to 30 percent elsewhere. Winds will be west at 5 to 15 mph in Idaho and south to east at 5 to 15 mph in the remainder of the area.
