

**INCIDENT MANAGEMENT SITUATION REPORT**  
**FRIDAY, DECEMBER 6, 2002 1000 MST**  
**NATIONAL PREPAREDNESS LEVEL 1**

**CURRENT SITUATION:**

Initial attack activity was light across the nation for the week. Nationally, 373 new fires were reported for the week ending December 6<sup>th</sup>. Seven new large fires were reported during the week, six in the Southern Area and one in the Eastern Area. Ten large fires were contained, six in the Southern Area, two in southern California, one in northern California and one in the Eastern Area. Very high to extreme fire indices were reported in California.

**SOUTHERN AREA LARGE FIRES:**

DECKARD HOLLOW	MO	MTF	709	100	---	0	0	0	0	0	9K

MTF = Mark Twain National Forest

### OUTLOOK:

**\*\*\*A FIRE WEATHER WATCH IS IN EFFECT FOR THE WESTERN FLORIDA PANHANDLE FOR LOW MINIMUM RELATIVE HUMIDITY\*\*\***

A cold front will move across southern Florida today providing showers and thunderstorms to about the southern third of the Peninsula, while most of the rest of the region commences a 3 to 5 day dry period. High pressure centered over Texas this morning will move into western North Carolina on Sunday. Once southerly flow resumes, southern Texas will begin to pick up another chance for showers on Sunday. Rains are expected to move northeast into the mountains of western North Carolina on Wednesday. Overall, fire danger will remain low with some potential in Florida for a higher risk.

Southern California will see partly to mostly cloudy skies, with scattered showers moving from north to south to around Point Conception in the afternoon. Winds will be southeast to southwest at 5 to 15 mph and southwest to northwest 5 to 10 mph coastal areas. Temperatures will be in the 50s to low 60s in the mountains, upper 50s to mid 60s in the upper deserts, 60s to low 70s in the valleys and coastal areas, and upper 60s to mid 70s in the lower deserts. Minimum relative humidity will range from 20 to 35 percent in the mountains and deserts, 30 to 45 percent in the coastal valleys and 55 to 70 percent in the Central Valley and coastal areas.
