

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY, JULY 19, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5

CURRENT SITUATION:

Initial attack activity was moderate in the Northwest, Eastern Great Basin, Northern California and Southwest Areas, and light elsewhere. Nationally, 307 new fires were reported. One of these became a large fire in the Southern California Area. Three large fires were contained, one each in the Eastern Great Basin, Northern California and Southwest Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Kansas, Massachusetts, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming.

A Hawkins and Powers Aviation PB4Y2 air tanker on contract with the United States Forest Service crashed yesterday while assigned to the Big Elk fire near Estes Park, CO. The two crew members aboard were fatally injured. The firefighting community extends condolences to the family and friends of the deceased.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southeast Oregon. An Area Command Team (Williams-Rhodes) is assigned to manage large fires on the Malheur and Ochoco National Forests.

TOOL BOX COMPLEX, Fremont National Forest. A Washington Interagency Incident Management Team (Berndt) is assigned. This complex consists of the Tool Box and Silver fires which are 30 miles northwest of Paisley and eight miles southwest of Silver Lake, OR respectively. Extreme fire behavior was observed in sage, ceanothus and mixed conifer. Crews are constructing fireline. Strong, erratic winds are hampering containment efforts. Several ranches, a major power line and an extensive communications site are threatened. Structure protection is in place.

WINTER, Klamath Lake District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is ten miles northwest of Paisley, OR in sagebrush, ceanothus, juniper and mixed conifer forest. Active fire behavior was observed as the fire spread south. Crews are constructing handline on the west flank. Sixty residences are threatened; structure protection is in place. One subdivision near Summer Lake is under a voluntary evacuation.

747, Ochoco National Forest. A Type 1 Incident Management Team (Melton) has been ordered. This fire is northeast of Paulina, OR. The fire is burning in ponderosa pine, juniper, sage and grass. Torching, spotting and significant running was observed. Crews are constructing fireline on

the west flank toward Wolf Mountain Lookout. Extremely rugged terrain is hampering suppression efforts. Local ranches and the community of Daville are threatened.

FLAGTAIL, Malheur National Forest. A Type 1 Incident Management Team (Wood) will assume command at 0600 PDT. Burning in mixed conifer and lodgepole, this fire is 13 miles west of Seneca, OR. Active fire behavior with torching and spotting was observed. Crews are burning out from dozer lines. Bear Valley Forest Service Work Center has been evacuated. A warehouse and a cabin are confirmed lost.

DEER POINT, Wenatchee National Forest. A Washington Interagency Management Team (Perry) is assigned. This fire is 27 miles north of Chelan, WA in brush and heavy timber. Active fire behavior was observed. Crews are constructing handline on the west flank and burning out on the east flank. Structure protection is in place for several residences. One residence and one outbuilding were confirmed lost.

EYERLY COMPLEX, Warm Springs Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Studebaker) is assigned. This complex consists of the Eyerly and Geneva 2 fires which are burning in ponderosa pine, mixed conifer forest, juniper and bitter brush in the Metolius River Canyon, 15 miles northeast of Camp Sherman, OR. Fire activity included running, spotting and torching. Crews are constructing direct and indirect attack fireline and burning out. Two hundred eighty residences are threatened and summer homes on Lake Billy Chinook are evacuated; structure protection in place.

MALHEUR COMPLEX, Malheur National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex, consisting of the Roberts and Easy fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. Short range spotting and crowning were observed. Crews and dozers are constructing direct and indirect attack fireline.

MONUMENT, Malheur National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This fire is nine miles southwest of Unity, OR. Creeping and isolated torching were observed in mixed conifer forest, ponderosa pine and grass. Crews are constructing direct attack fireline and burning out. Limited access is hampering containment efforts. Seventy-five residences are threatened; structure protection is in place.

TILLER COMPLEX, Umpqua National Forest. A Washington Interagency Incident Management Team (Dutton) is assigned. This complex is comprised of 94 reported fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, west of Tiller, OR. Rough terrain, rolling debris and spotting are hampering containment efforts. Forty residences are threatened.

NORTH UMPQUA COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Jackson) has been ordered. Burning in heavy timber, this complex of several fires is 25 miles east of Glide, OR. Running, spotting and torching fire behavior was observed. Personnel are mopping up and performing initial attack on unstaffed fires. Twenty residences are threatened. Reduction in acreage was due to better mapping.

BISCUIT COMPLEX, Siskiyou National Forest. A Type 2 Incident Management Team (Joki) has been ordered. This complex consists of several fires, 17 miles southwest of Cave Junction, OR. Torch and significant runs were observed in mixed conifer and brush. Crews are constructing indirect attack fireline for structure protection. Twelve residences are threatened.

ROSEBURG COMPLEX, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Lane) is assigned. This complex consists of several fires surrounding Roseburg, OR in brush and timber. Minimal fire behavior was observed. Active initial attack is underway on unstaffed fires in the complex.

GRIZZLY COMPLEX, Fremont National Forest. A Type 2 Incident Management Team (Bright) is assigned. This complex, comprised of the Grizzly, Bare and Logan fires, is 15 miles west of Lakeview, OR. Interior burning was observed in heavy timber and slash. Crews are burning out and patrolling. Several structures are threatened.

MAHOGANY COMPLEX, Vale District, Bureau of Land Management. A Type 2 Incident Management Team (Gardner) is assigned. This complex consists of the Atkins and Mahogany Mountain fires which are 15 miles northwest of Jordan Valley, OR. Running fire behavior was observed in grass and sagebrush. Personnel are mopping up on the Mahogany Mountain fire and constructing fireline and burning out on the Atkins fire. Structure protection is in place for ten residences.

SQUIRE PEAK, Southwest Oregon District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Thorpe) is assigned. Active fire behavior was observed in mixed conifer, timber slash, manzanita and ceanothus as the fire advanced northeast and southeast. Crews are constructing fireline and burning out on the south flank. Two hundred residences are threatened; structure protection is in place. Two additional outbuildings were confirmed lost.

WALL CREEK, Southwest Oregon District, Oregon Department of Forestry. Short crown runs and torching were observed in mixed conifer and pine ten miles northeast of Medford, OR. Crews are constructing fireline. Steep and rocky terrain are hampering containment efforts.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

CANYONS COMPLEX, Manti-LaSal National Forest. A Type 1 Incident Management Team (Dash) is assigned. This complex consists of the Hang Dog and Hammond fires which are eight miles northeast of Lasal and 15 miles northwest of Blanding, UT respectively. The fires are burning in serviceberry, sage, chaparral, gambel oak, pinyon pine, juniper and ponderosa pine. Moderate fire behavior was observed. Thirty residences and several other structures are threatened.

HORSE, Salmon-Challis National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 25 miles west of North Fork, ID. Single tree torching was observed in subalpine fir and spruce. Unfavorable weather conditions and very steep, rugged terrain are hampering containment efforts. Crews and dozers are constructing fireline. The Oreana Lookout and the Gattin Ranch subdivision is threatened.

SEQUOIA, Dixie National Forest. The Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles southwest of Cedar City, UT. Extreme fire behavior was observed with a major slope driven uphill run in ponderosa pine and chaparral. Limited access and steep terrain are hampering containment efforts. Crews are constructing fireline on the north flank.

COUNTY LINE, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is 30 miles north of Green River, UT. Running and torching fire behavior was observed in sage, oak, pine and manzanita. Dozers are constructing fireline. Torchng and running fire behavior was observed. Personnel are anchoring and constructing fireline on the north flank. Difficult terrain is hampering containment efforts.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Murphy) is assigned. This complex is 20 miles northeast of Green River, UT. Minimal fire behavior was observed in aspen and mixed conifer forest due to favorable weather conditions. Crews are constructing and improving fireline in preparation for a proposed burnout on the east side of the West Willow Creek drainage. Difficult terrain and limited access is hampering containment efforts.

MULE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Smith) is assigned. This fire is 12 miles west of Daniel, WY. Creeping, smouldering and isolated torching was observed in heavy timber. Crews are building direct attack fireline on the north and south flanks.

WEST TWIN PEAKS, Wasatch-Cache National Forest. This fire is on the Twin Peaks above Salt

Lake City, UT. Smouldering and creeping fire behavior were observed in Douglas fir, pinyon pine, juniper and gambel oak. Steep, inaccessible terrain, high temperatures and low relative humidity are impeding containment efforts.

SWS = Southwest State, Utah State Division of Forestry, Fire & State Lands

ROCKY MOUNTAIN AREA LARGE FIRES:

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

LITTLE ELK, South Dakota State Forestry. A Type 1 Incident Management Team (Martin) is assigned. This fire is burning in ponderosa pine near Piedmont, SD. No new information was reported.

BIG ELK, Arapaho-Roosevelt National Forest. A Type 2 Incident Management Team (Hartman) is assigned. This fire is nine miles southeast of Estes Park, CO. Crowning, running and spotting was observed in brush and ponderosa pine as the fire grew significantly. The Big Elk subdivision has been evacuated. Structure protection is in place.

BURN CANYON, Grand Mesa-Uncompahgre-Gunnison National Forest. A Type 2 Incident Management Team (Furlong) is assigned. This fire is five miles southwest of Norwood, CO. Some torching and creeping fire behavior was observed in pinyon pine, gambel oak and ponderosa pine. Crews are building handline and burning out. Engine crews are protecting evacuated structures in Redvale, Lower Naturita Canyon and surrounding populated areas.

HINMAN, Routt National Forest. A Type 2 Incident Management Team (Garcia) is assigned. This fire is 23 miles north of Steamboat Springs, CO. Creeping and isolated torching was observed in spruce, fir and lodgepole pine. Crews are constructing fireline on the north flank. Numerous residences and two commercial properties are threatened.

SPRING CREEK COMPLEX, White River National Forest. A Type 2 Incident Management Team (Sisk) is assigned. This complex consists of the Spring Creek and East Meadow fires which are burning in spruce, fir, aspen and brush eight miles north of New Castle, CO. Single tree torching was observed within the interior. Erratic winds, steep terrain and inaccessibility are hampering containment efforts.

GREEN CREEK, Routt National Forest. A Fire Use Management Team (Cook) has been ordered. This fire is 15 miles southeast of Steamboat Springs, CO in aspen, spruce and subalpine fir. Crews are constructing fireline on the west flank. Three hundred residences are threatened.

EAST MARBLE, Ute Mountain Agency, Bureau of Indian Affairs. This fire is 15 miles south of Cortez, CO in pinyon pine, juniper and sage. Smouldering and creeping fire behavior was observed. Engines are patrolling on the north flank and mopping up on the south flank.

LOST LAKE, Routt National Forest. A Fire Use Management Team (Cones) is assigned. This fire is 20 miles west of Yampa, CO. Moderate fire behavior with torching and creeping was observed in heavy dead and down spruce and fir. Personnel are preparing long range assessment and implementation plans.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Moderate fire behavior with interior torching was observed. Cliffs, large boulders and extremely difficult terrain are hampering containment efforts.

CURRENT CREEK, Rocky Springs District, Bureau of Land Management. This fire is burning in juniper, sage and grass 26 miles south of Rock Springs, WY. No new information was reported. This will be the last report unless significant activity occurs.

WESTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

LOST CABIN, Humboldt-Toiyabe National Forest. A California Department of Forestry and Fire Protection Type 1 Incident Command Team (Maner) is assigned. A Type 1 Incident Management Team (Vail) has been ordered. This fire is 27 miles west of Las Vegas, NV. Minimal fire behavior was observed in pinyon pine, juniper and sagebrush. Crews are constructing handline east of Lovell Canyon road and improving established fireline.

GATE COMPLEX, Humboldt-Toiyabe National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. The Buckeye fire is now being managed within this complex comprised of the Gate, Coleville and Slinkard fires and is five miles north of Walker, CA. Precipitation aided containment efforts in Jeffery pine, pinyon pine, juniper and sagebrush. Crews are constructing direct attack fireline, mopping up and rehabilitating fireline. Two hundred fifty residences and one hundred twenty-five outbuildings and commercial properties are threatened; engine crews are providing structure protection.

EAGLE, Ely Field Office, Bureau of Land Management. A Type 1 Incident Management Team (Hefner) is assigned. This fire is 50 miles southeast of Ely, NV. Minimal fire behavior was observed in pinyon pine and juniper. Crews are constructing direct attack fireline on the north and south flanks.

ELLSWORTH, Humboldt-Toiyabe National Forest. This fire is 50 miles southeast of Fallon, NV. Significant runs were observed in pinyon pine, juniper and sagebrush. Crews and dozers have anchored and are building fireline. Aerial resources assisted protection efforts of the Ellsworth historical site.

PONY EXPRESS, Carson City Field Office, Bureau of Land Management. This fire is burning in sage, pinyon pine and juniper 40 miles east of Fallon, NV. Favorable weather conditions resulted in minimal fire behavior with smouldering and creeping. Crews are constructing handline and mopping up on the south flank.

TIN CANYON, Winnemucca Field Office, Bureau of Land Management. This fire is burning in juniper, sage and grass and is 15 miles northwest of Gerlach, NV. Creeping, smouldering and occasional torching was observed. Limited access and steep, rocky terrain are hampering containment efforts. Crews are constructing handline and mopping up.

NORTHERN ROCKIES AREA LARGE FIRES:

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BROAD, Yellowstone National Park. A Type 1 Incident Management Team (Frye) is assigned. This fire is burning in old growth lodgepole pine and Douglas fir 20 miles southeast of Mammoth, WY. Precipitation and increased relative humidity resulted in minimal fire behavior with creeping and occasional torching. Crews are constructing direct attack fireline on the east flank. Type 1 helitankers are being utilized on the west flank, holding the fire on the east side of the Yellowstone River.

FOX CREEK, Blackfeet Agency, Bureau of Indian Affairs. A Type 2 Incident Management (Kechter) is assigned. This fire is burning nine miles southeast of Babb, MT in subalpine fir, lodgepole pine and spruce. Interior burning, short crown runs and short range spotting were observed. Dozers are constructing fireline on the east flank and personnel are performing reconnaissance on the west flank.

RED WAFFLE, Custer National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is 35 miles southeast of Bridger, MT. Isolated torching and short range spotting were observed in ponderosa pine, brush and grass. Crews are constructing fireline and burning out on the north and east flanks.

GOLDSTONE, Beaverhead-Deer Lodge National Forest. A transfer of command from Sandman's Type 2 Incident Management Team to a Type 3 organization will occur today. This fire is 30 miles west of Wisdom, MT on the Continental Divide. Isolated heavy pockets of subalpine fir showed active fire behavior in the interior. Crews are mopping up on the east flank.

WIGWAM COMPLEX, Beaverhead-Deer Lodge National Forest. This complex, comprised of seven fires, is 17 miles southwest of Ennis, MT. Minimal fire behavior was observed in dead and down lodgepole pine, spruce and subalpine fir. Crews are improving established fireline and mopping up.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

58, San Luis Obispo Unit, California Department of Forestry and Fire Protection. This fire is east of Santa Margarita, CA in grass in chaparral. Twenty residences are threatened. Highway 58 and 229 are closed near the incident.

FEMA-MICRONESIA-CHUUK, Guam, Micronesia and Northern Mariana Islands. The islands were struck by Typhoon Chataan on July 5th and Typhoon Halong on July 9th resulting in 40 major landslides causing many injuries and fatalities as well as severe damage to the islands. US Forest Service and Federal Emergency Management Agency personnel have responded to provide disaster aid and supplies. The US Forest Service has been tasked with organizing and staffing a receiving and distribution center for planning food and water distribution in Chuuk State and setting up operational planning on Chuuk and Guam.

OUTLOOK:

The Northwest Area will have mostly sunny skies with scattered thunderstorms in eastern Oregon. High temperatures will be in the 70's to low 80's in western Washington and northwest Oregon and 80's to low 90's elsewhere. Minimum relative humidity will range from 15 to 25 percent in the east and 25 to 45 percent to the west. Winds will be northwest at 5 to 15 mph with local gusts to 20 mph.

The Eastern Great Basin Area can expect partly sunny skies with scattered showers and thunderstorms. High temperatures will be 75 to 85 in the mountains and 85 to 103 in the valleys. Minimum relative humidity will range from 15 to 35 percent in the mountains and 11 to 23 percent at lower elevations. Winds will be west at 5 to 15 mph.

High pressure over the Rocky Mountain Area will bring mostly sunny skies with isolated to widely scattered wet and dry thunderstorms. High temperatures will be in the 80's to 95. Minimum relative humidity will range from 8 to 18 percent in southeast Wyoming and eastern Colorado and 15 to 30 percent elsewhere. Winds will be southeast and west at 10 to 20 mph in the Black Hills and eastern Wyoming. Winds will be variable at 5 to 18 mph elsewhere.

High pressure over the Western Great Basin Area will bring mostly sunny skies with a chance of showers and thunderstorms. High temperatures will be a little below seasonal. Minimum relative humidity will range from 13 to 29 percent. Winds will be light except in the vicinity of thunderstorms.

A cool front moving through the Northern Rockies Area will bring mostly sunny skies with scattered thunderstorms. High temperatures will be 90 to 100 ahead of the front with 80's following. Minimum relative humidity will range from 25 to 40 percent. Winds will be south to west at 10 to 20 mph and 20 to 35 mph along the northern front range.

www.nifc.gov/sixminutes/index_j.asp

SPOT WEATHER FORECAST

Spot weather forecasts should be requested for those fires that have potential for extreme fire behavior, exceed initial attack, or are located in areas where Red Flag Warnings have been issued.

! Basic elements needed for a spot weather forecast include:

- ! Name of fire and management agency
- ! Request time and date
- ! Location by ...section
- ! Drainage name
- ! Exposure
- ! Size
- ! Elevation (top and bottom)
- ! Fuel type
- ! Fire character (ground, crown, etc.)
- ! Weather conditions (place, elevation, observation time, wind direction, wind velocity, dry bulb, wet bulb, remarks)
