

**INCIDENT MANAGEMENT SITUATION REPORT
THURSDAY, JULY 25, 2002 0530 MDT
NATIONAL PREPAREDNESS LEVEL 5**

CURRENT SITUATION:

Initial attack activity was heavy in the Northwest Area, moderate in the Eastern Great Basin and Northern Rockies Areas, and light elsewhere. Nationally, 315 new fires were reported. Six of these became large fires, two in the Northwest Area and one each in the Eastern Great Basin, Northern Rockies, Northern California and the Western Great Basin Areas. Seven large fires were contained, two in the Eastern Great Basin Area and one each in the Northwest, Southern California, Rocky Mountain, Northern California and the Western Great Basin Areas. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Kansas, Minnesota, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming.

The U.S. Army Task Force Destroyer (1/5 FA 1st Battalion, 5th Regiment) commanded by Lt. Col. David R. Byrn Sr., at Ft Riley, KS, is assigned to the Monument fire.

NORTHWEST AREA LARGE FIRES:

Priorities are being established by the Northwest Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms. An Area Command Team (Mann) is assigned to manage large fires in southeast Oregon. An Area Command Team (Williams-Rhodes) is assigned to manage large fires on the Malheur and Ochoco National Forests. An Area Command Team (Ribar) is assigned to manage large fires in southwest Oregon.

DEER POINT, Wenatchee National Forest. A Unified Command has been established between a Type 1 Incident Management Team (Vail) and a Washington Interagency Management Team (Perry). This fire is 27 miles north of Chelan, WA in mixed brush, ponderosa pine and lodgepole pine. Increased winds led to short range spotting and torching. Steep, rugged terrain with limited access is impeding suppression efforts. Personnel are constructing direct and indirect attack fireline on the north flank and mopping up. Seventy-five residences are threatened in and surrounding the communities of Manson and Chelan; structure protection is in place.

TOOL BOX COMPLEX, Fremont National Forest. A Type 1 Incident Management Team (Gelobter) is assigned. This complex consists of the Tool Box, Silver and Lava fires which are approximately ten miles south of Silver Lake, OR. Active fire behavior was observed in sage, ceanothus and mixed conifer. Personnel are constructing and improving fireline while providing for structure protection. Sixty residences, a major power line and an extensive communications site are threatened.

WINTER, Klamath Lake District, Oregon Department of Forestry. An Oregon Department of Forestry Incident Management Team (Mair) is assigned. This fire is ten miles northwest of Paisley,

OR. Moderate fire behavior was observed in sagebrush, ceanothus, juniper and mixed conifer forest. Crews are constructing fireline and mopping up. Twenty residences are threatened. Reduction in acreage was due to better mapping.

TILLER COMPLEX, Umpqua National Forest. A Washington Interagency Incident Management Team (Dunton) and a Type 2 Incident Management Team (Walker) are assigned. This complex is comprised of 94 reported fires on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, west of Tiller, OR. Rolling debris is hampering containment efforts. Crews are patrolling and mopping up. Five residences are threatened.

NORTH UMPQUA COMPLEX, Umpqua National Forest. A Type 2 Incident Management Team (Jackson) is assigned. Burning in heavy timber, this complex of several fires is 25 miles east of Glide, OR. Short range spotting, running and torching were observed. Extremely rocky and steep terrain is hampering containment efforts. Crews are improving established handline, burning out and mopping up. Twenty residences and several outbuildings are threatened.

BISCUIT COMPLEX, Siskiyou National Forest. Two Type 2 Incident Management Teams (Joki and Broyles) are assigned. This complex consists of the Florence and Biscuit fires, which are 26 miles west of Grants Pass and 17 miles southwest of Cave Junction, OR respectively. Both fires exhibited very active fire behavior in mixed conifer and brush. The Florence fire spotted across the Illinois River with a significant run to the south. Crews are constructing indirect attack handline and burning out. Steep, inaccessible terrain is hampering containment efforts. Twelve residences and several outbuildings are threatened.

747/MURRAY COMPLEX, Ochoco National Forest. A Type 1 Incident Management Team (Melton) is assigned. These fires are 10 to 15 miles south of Dayville, OR. Smouldering, creeping, active torching and spotting were observed in ponderosa pine, juniper, sage and grass. Crews are burning out and mopping up. Extremely rugged and inaccessible terrain is hampering suppression efforts. Four residences and several outbuildings are threatened. Reduction in acreage was due to better mapping.

MALHEUR COMPLEX, Malheur National Forest. A Type 2 Incident Management Team (Morcom) is assigned. This complex, consisting of the Roberts, Easy and several smaller fires, is burning in mixed conifer forest, eight to 25 miles south of Prairie City, OR. Strong, erratic winds and low relative humidity resulted in very active fire behavior on the Roberts and Easy fires. Crews are constructing indirect attack fireline with assistance from dozers and burning out. Fifty-two residences, several commercial properties and numerous outbuildings are threatened.

MONUMENT, Malheur National Forest. A Type 1 Incident Management Team (Stutler) is assigned. This fire is nine miles southwest of Unity, OR in mixed conifer forest, ponderosa pine and grass. Extreme fire behavior with significant torching and mid range spotting was observed. Crews are constructing indirect attack fireline, burning out and improving established fireline. Seventy-five residences are threatened.

EYERLY COMPLEX, Warm Springs Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Studebaker) is assigned. This complex consists of the Eyerly and Geneva 2 fires which are burning in ponderosa pine, mixed conifer forest, juniper and bitter brush in the Metolius River Canyon, 15 miles northeast of Camp Sherman, OR. Crews are mopping up. Two hundred and eighty residences are threatened; structure protection is in place.

FLAGTAIL, Malheur National Forest. A Type 1 Incident Management Team (Wood) is assigned. Burning in mixed conifer and lodgepole, this fire is 13 miles west of Seneca, OR. Minimal fire behavior was observed. Crews are mopping up.

CACHE MOUNTAIN, Deschutes National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 15 miles northwest of Sisters, OR in brush, slash and timber. Active fire behavior was observed with spotting and torching. Steep terrain is hampering containment efforts. Ten residences are threatened along with several outbuildings and campgrounds.

SKUNK, Winema National Forest. A Type 2 Incident Management Team (Gardner) has been ordered. This fire is north of Sprague River, OR, in bitter brush and ponderosa pine. Advanced fire behavior with spotting, torching and significant runs was observed. Twenty-five residences, several outbuildings and commercial properties are threatened.

CHERRY CREEK, Prineville District, Bureau of Land Management. Burning in sage and juniper, this fire is 11 miles south of Clarno, OR. No new information was reported.

WHITE RIVER, Prineville District, Bureau of Land Management. This fire is four miles north of Maupin, OR in grass, brush and juniper. No new information was reported.

SWAMP CREEK, Burns District, Bureau of Land Management. This fire is four miles northwest of Diamond, OR. Increased winds resulted in active fire behavior in juniper, sagebrush and grass. Five residences are threatened.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

MCNALLEY, Sequoia National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is burning in heavy brush and mixed conifer forest 12 miles north of Kernville, CA. Rapid rates of spread were observed on the east flank. Burnout operations were successful around two Boy Scout camps. Crews are constructing fireline in the southwest and southeast portions of the fire. The Giant Sequoia National Monument and 200 residences are threatened.

FEMA-MICRONESIA-CHUUK, Guam, Micronesia and Northern Mariana Islands. The islands were struck by Typhoon Chata an on July 5th and Typhoon Halong on July 9th resulting in 40 major landslides causing many injuries and fatalities as well as severe damage to the islands. US Forest Service and Federal Emergency Management Agency personnel have responded to provide disaster aid and supplies. The US Forest Service has been tasked with organizing and staffing a receiving and distribution center for planning food and water distribution in Chuuk State and setting up operational planning on Chuuk and Guam.

EASTERN GREAT BASIN AREA LARGE FIRES:

Priorities are being established by the Great Basin Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

SEQUOIA, Dixie National Forest. The Type 2 Incident Management Team (Suwyn) is assigned. This fire is 26 miles southwest of Cedar City, UT. Moderate fire behavior with spotting and torching was observed in ponderosa pine and chaparral. Crews are monitoring and rehabilitating established fireline. Aerial resources are assisting suppression efforts.

MULE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Smith) is assigned. This fire is 12 miles west of Daniel, WY. Interior torching was observed in heavy timber. Crews are building direct attack fireline on the northern flank with aerial support and mopping up.

RATTLE COMPLEX, Moab Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Murphy) is assigned. This complex is 20 miles northeast of Green River, UT.

Minimal fire behavior was observed in aspen and mixed conifer forest due to favorable weather conditions. Crews are constructing direct attack fireline and patrolling. Difficult terrain and limited access are hampering containment efforts.

CANYONS COMPLEX, Manti-LaSal National Forest. A Type 1 Incident Management Team (Dash) is assigned. This complex consists of the Hang Dog and Hammond fires which are eight miles northeast of Lasal and 15 miles northwest of Blanding, UT respectively. The fires are burning in serviceberry, sage, chaparral, gambel oak, pinyon pine, juniper and ponderosa pine. The Hang Dog fire is contained. Significant rainfall minimized fire behavior on the Hammond fire. Crews are mopping up and rehabilitating dozer fireline.

COUNTY LINE, Uintah and Ouray Agency, Bureau of Indian Affairs. This fire is 30 miles north of Green River, UT. Extreme fire behavior with torching and significant running in sage, oak, pine and manzanita. Aerial resources are being utilized in containment efforts on the east flank. Containment efforts are hampered by inaccessible terrain.

GARDEN VALLEY COMPLEX, Boise National Forest. A Type 2 Incident Management Team (Brunner) will assume command today. This complex consists of approximately 60 fires northeast of Garden Valley, ID in sage, lodgepole pine and subalpine fir. Crews are performing initial attack on unstaffed fires within the complex. Steep terrain and limited access are hampering containment efforts.

ROARING, Salmon-Challis National Forest. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 30 miles west of Salmon, ID in grass and ponderosa pine. Moderate fire behavior was observed with creeping and smouldering. Crews are constructing direct attack fireline with aerial support. Extremely difficult terrain is hampering suppression efforts.

ROCKY MOUNTAIN AREA LARGE FIRES:

Priorities are being established by the Rocky Mountain Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BIG ELK, Arapaho-Roosevelt National Forest. A Type 1 Incident Management Team (Bateman) is assigned. This fire is nine miles southeast of Estes Park, CO. Moderate fire activity with creeping, smouldering and single tree torching was observed in brush and ponderosa pine. Crews are building fireline.

LOST GREEN COMPLEX, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This complex is comprised of the Lost Lake and Green Creek fires which are 30 miles southwest and 15 miles southeast of Steamboat Springs, CO respectively. Interior torching and smouldering were observed in heavy dead and down spruce and fir. Twelve residences are threatened.

HENSEL, Medicine Bow National Forest. This fire is burning in bug kill ponderosa pine 20 miles northwest of Wheatland, WY. Minimal fire activity with smouldering was observed. Extremely difficult terrain is being mitigated with the use of helicopters.

NORTHERN ROCKIES AREA LARGE FIRES:

Priorities are being established by the Northern Rockies Multi-Agency Coordinating Group based on information submitted via Wildland Fire Situation Analysis reports and Incident Status Summary (ICS-209) forms.

BROAD, Yellowstone National Park. A Type 1 Incident Management Team (Frye) is assigned. This fire is burning in old growth lodgepole pine and Douglas fir 20 miles southeast of Mammoth, WY. Favorable weather conditions resulted in minimal fire behavior with smouldering, creeping and isolated interior torching. Crews are patrolling and mopping up.

FOX CREEK, Blackfeet Agency, Bureau of Indian Affairs. A Type 2 Incident Management

(Kechter) is assigned. This fire is burning nine miles southeast of Babb, MT in subalpine fir, lodgepole pine and spruce. Smouldering, creeping and isolated torching were observed in the interior. Crews are mopping up.

RED WAFFLE, Custer National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is 35 miles southeast of Bridger, MT. Precipitation resulted in minimal fire behavior with smouldering in ponderosa pine, brush and grass. Steep, rocky and difficult terrain is hampering containment efforts.

OXBOW, Clearwater Supervisory Area, Idaho Department of Lands. This fire is 13 miles west of Cottonwood, ID. This fire is burning in timber understory with active fire behavior observed in grass and brush. Crews are constructing fireline on the east and west flanks.

ALASKA AREA LARGE FIRES:

THURSDAY CREEK, Mat-Su Area Forestry, Alaska Division of Forestry. This fire is 20 miles southwest of Talkeetna, AK in lichen, muskeg and spruce. Precipitation resulted in minimal fire behavior with smouldering. Crews are mopping up.

GOBLET CREEK, Galena Zone, Bureau of Land Management. This fire is 15 miles north of Anvik, AK. The fire is burning deep in mixed fuels with occasional torching in black spruce. Higher relative humidity and precipitation are aiding containment efforts. Crews are building direct attack fireline on the east flank.

OUTLOOK:

***** A FIRE WEATHER WATCH HAS BEEN ISSUED IN SOUTHEAST OREGON AND SOUTHWEST IDAHO FOR DRY LIGHTNING *****

The Northwest Area can expect partly sunny skies with isolated wet thunderstorms east of the Cascade Mountains. High temperatures will be in the 60's along the coast, 75 to 85 west of the Cascade Mountains and 85 to 95 to the east. Minimum relative humidity will range from 45 to 55 percent west of the Cascade Mountains and 10 to 30 percent to the east. Winds will be northwest at 5 to 15 mph, 15 to 30 mph in the mountains.

The Eastern Great Basin Area can expect partly sunny skies with widely scattered showers and thunderstorms across the eastern Great Basin with heavy rain possible. High temperatures will be 75 to 85 in the mountains and 85 to 100 in the valleys. Minimum relative humidity will range from 15 to 35 percent in the mountains and 10 to 25 percent at lower elevations. Winds will be from the southwest at 10 to 15 mph with gusts to 40 mph near thunderstorms.

The Rocky Mountain Area can expect mostly sunny skies with widely scattered wet thunderstorms. High temperatures will be from 72 to 82 in the mountains and mid 80's to 90's at lower elevations. Minimum relative humidity will range from 15 to 25 percent in Colorado and 20 to 30 percent in the Black Hills. Winds will be variable at 5 to 15 mph with gusty winds near thunderstorms.

A cool front will move across the Northern Rockies Area will bring partly sunny skies with isolated thunderstorms in the north and scattered thunderstorms in the south. High temperatures will be 85 to 95. Minimum relative humidity will range from 15 to 25 percent in Idaho and Montana; 25 to 40 percent in North Dakota. Winds will be south at 5 to 10 mph becoming west at 10 to 20 mph after the front moves through.

Low pressure off the coast of the Northern California Area will bring mostly sunny skies with a chance of thunderstorms in the northeast. High temperatures will be in the 60's and 70's at the coast and 80's to near 100 inland. Minimum relative humidity will range from 14 to 19 percent.

Winds will be southwest to northwest at 10 to 20 mph.
