Six Minutes For Safety

www.nifc.gov/sixminutes/index_j.asp

Topic of the Day: Entrapment, Vehicle Refuge as an Option

*** If you find yourself in a fire entrapment situation where a shelter deployment is not possible, using a vehicle for refuge may be an option.

*** Park vehicle in an area void of vegetation, fire out around the vehicle if there is time. Park behind a natural barrier or structure.

***DO NOT park on the downhill side of a road, under power lines or over-hanging vegetation. Stay off saddles or draws.

***Position vehicle in a direction which provides the area occupied by crew with maximum protection from approaching flame front.

*** Set parking brake, leave motor running at high RPM, keep vehicle lights on.

*** Roll up windows, DO NOT lock doors, someone else may need to get in.

*** Cover windows with fire shelters with reflective material placed against window.

*** You must protect your airway, remain as low in the vehicle as possible, use a dry bandanna to cover nose and mouth.
