COMMUNICATIONS

Effective communication is a critical backbone of safe and successful operations.

● Discuss the factors that can affect radio communication at the incident.

- Knowledge of the radio issued to the individuals
- Net control, frequencies
- Line-of-sight restrictions
- Antenna polarization effect (direction of the antenna)
- Minimizing noise interference

● How can you mitigate potential problems?

- Implement effective communication procedures--be brief, clear, concise, and to-the-point.
- Give a good comprehensive briefing (Refer to the Briefing Checklist inside the back cover of the Incident Response Pocket Guide.).
- Confirm that relayed information is received, acknowledged, and understood.
- Keep a continuous information flow (e.g., updates on weather, fire behavior, work progress; changes in strategy/tactics; arrival of additional resources; solicit feedback).
- Establish emergency check-in procedures.
- Provide a minimum of 4 radios per 20-person firefighter crew.

● The Five Communication Responsibilities for All Firefighters

- Brief others
- Debrief your actions
- Communicate hazards to others
- Acknowledge messages
- Ask if you don't know
