

**INCIDENT MANAGEMENT SITUATION REPORT  
SUNDAY, SEPTEMBER 01, 2002 0530 MDT  
NATIONAL PREPAREDNESS LEVEL 4**

**CURRENT SITUATION:**

Initial attack activity was heavy in the Northwest Area, moderate in the Northern Rockies Area, and light elsewhere. Nationally, 191 new fires were reported. Two large fires were reported, one each in the Rocky Mountain and Northern California Areas. Two large fires were contained, one each in the Eastern Great Basin and Southwest Areas. Very high to extreme fire indices were reported in Arizona, California, Colorado, Idaho, Kansas, Montana, Nevada, New Mexico, North Dakota, Oregon, Utah, Washington and Wyoming.

**NORTHWEST AREA LARGE FIRES:**

An Area Command Team (Chesley) is assigned to manage large fires on the Umpqua National Forest. A Unified Command between an Area Command Team (Williams-Rhodes) and the Oregon Department of Forestry (Spiesschaert) is in place to manage the Biscuit fire.

BISCUIT, Siskiyou and Six Rivers National Forests. A Unified Command between a Type 1 Incident Management Team (Dash) and the Oregon Department of Forestry is in place on the west perimeter. The northwest portion of the fire is managed by a Washington Interagency Incident Management Team (Furlong/Gormley), and a Type 2 Incident Management Team (Morcom) is in place on the east perimeter. The fire is 26 miles southwest of Grants Pass, OR. Moderate fire behavior was observed on the northwest and west flanks. Crews are constructing fireline near Mislantah Creek on the west perimeter. Mop-up and fireline rehabilitation are underway on other divisions. Residents in the Pistol River drainage remain under a pre-evacuation advisory. Structure protection is in place at the Chetco Inn, Wilderness Retreat, Gardner Ranch, Tolman Ranch and in the Pistol River drainage.

APPLE, Umpqua National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. The Team will also manage the Tiller Complex. This fire is 21 miles east of Glide, OR. Moderate fire behavior was observed in heavy timber. Crews are building contingency lines, burning out and holding. Structure protection is in place for twenty residences.

TILLER COMPLEX, Umpqua National Forest. A transfer of command from Melton's Type 1 Incident Management Team to Lohrey's Type 1 Incident Management Team is planned on September 2<sup>nd</sup> at 0600 PDT. This complex, consisting of eight large and numerous small fires, is on the Tiller Ranger District and in the Rogue-Umpqua Divide Wilderness Area, 25 miles east of Canyonville, OR. Low intensity fire activity was observed in grass, brush and timber. Crews are patrolling and mopping up.

QUARTZ MT. COMPLEX, Okanogan National Forest. A Fire Use Management Team (Cones) is assigned. This complex, consisting of the Quartz Mountain, Middle Mountain, Beauty Peak and Lake fires, is in the Pasayten Wilderness Area, northwest of Winthrop, WA. Increased fire behavior was observed in lodgepole pine and subalpine fir on the Quartz Mountain and Middle Mountain

fires. Personnel are providing structure protection at three administrative sites.

### ROCKY MOUNTAIN AREA LARGE FIRES:

COMMISSARY RIDGE, Rock Springs District, Bureau of Land Management. A Type 2 Incident Management Team (Sandman) will assume command today. This fire is 20 miles north of Kemmerer, WY. Crowning, torching and spotting were observed in mixed conifer forest, sagebrush and grass as the fire advanced east and north. Crews are constructing fireline with support from aerial resources and providing structure protection for forty residences. Summer homes and cabins have been evacuated.

PASS CREEK, Shoshone National Forest. A Type 2 Incident Management Team (Sisk) is assigned. This fire is 18 miles south of Lander, WY. Low to moderate fire activity was observed in interior islands in lodgepole pine, spruce, and heavy down fuels. Crews are building and improving fireline on the north and west flanks. Residents in the Red Canyon area are under an evacuation alert; the Pass Creek area remains evacuated. Engine crews are providing structure protection for thirty residences and a commercial property. The residence previously reported as lost was confirmed to be an abandoned outbuilding.

MT. ZIRKEL COMPLEX, Routt National Forest. A transfer of command from Gelobter's Type 1 Incident Management Team to Bennett's Type 1 Incident Management Team will occur on September 2<sup>nd</sup> at 0600 MDT. This complex, comprised of the Burn Ridge and Hinman fires, is 25 miles north of Steamboat Springs, CO. Moderate to low intensity fire behavior was observed in heavy dead and down spruce, lodgepole pine and fir. Crews are cold trailing and constructing fireline using Minimum Impact Suppression Techniques (MIST) in the Mt. Zirkel Wilderness Area. Personnel continue to hold the west flanks of both fires and the east flank of the Burn Ridge fire near Walden. Structure protection is in place in North Park and in the Seed House corridor.

BIG FISH, White River National Forest. A Fire Use Management Team (Cook) is assigned. The Team is also managing the Lost Lakes fire. This lightning-caused Wildland Fire Use Incident, which started on July 19<sup>th</sup>, is 34 miles southwest of Steamboat Springs, CO. The fire is being managed for resource benefit and a confinement strategy is in place. Increased fire behavior was observed in heavy dead and down spruce, fir and aspen in the Skinny Fish and Paradise drainages. Engine crews are providing structure protection at several guest ranches.

LOST LAKES, Routt National Forest. A Fire Use Management Team (Cook) is assigned. This lightning-caused Wildland Fire Use Incident, which started on July 8<sup>th</sup>, is 20 miles west of Yampa, CO. The fire is in monitor status and is being managed for resource benefit. Minimal fire behavior was observed in bug kill spruce and fir.

#### NORTHERN CALIFORNIA AREA LARGE FIRES:

HICKOK, Amador-El Dorado Unit, California Department of Forestry and Fire Protection. This fire is three miles north of Cameron Park, CA. Extreme fire behavior was observed in manzanita, chamise, grass and oak woodland. Crews are constructing fireline with support from aerial resources. Residents have been evacuated near Rescue, CA; structure protection is in place for thirty homes. An evacuation center is open at Oak Ridge High School in El Dorado Hills. One residence was lost during the initial phase of the fire.

#### EASTERN GREAT BASIN AREA LARGE FIRES:

JOHNSON, Fishlake National Forest. A Type 2 Incident Management Team (Suwyn) is assigned. This fire is 23 miles southeast of Richfield, UT. Crownning, torching and spotting up to one quarter mile ahead of the front were observed in spruce, fir and aspen. A burn out was successfully completed in 7 Mile drainage. Crews are constructing fireline on the south flank in preparation for a burn out operation. Structure protection is in place for several residences, cabins and recreational trailers.

BUCK HOLLOW, Sawtooth National Forest. This fire is four miles east of Lynn, UT. Isolated torching was observed in grass and juniper. Crews are burning out interior islands and mopping up.

## SOUTHWEST AREA LARGE FIRES:

PACK RAT COMPLEX, Coconino National Forest. A Type 1 Incident Management Team (Humphrey) is assigned. This complex, consisting of the Pack Rat and 5 Mile fires, is eight miles east of Pine, AZ. Moderate fire behavior was observed in ponderosa pine, mixed conifer forest and chaparral on the Pack Rat fire. Burn out operations were successfully completed from Miller Point toward the headwaters of the East Verde River. Aerial ignition is underway south of the Mogollon Rim. Structure protection for a powerline and provisions to assure minimal watershed damage are in place.

TRICK, Kaibab National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is burning in ponderosa pine and brush, 17 miles south-southeast of Williams, AZ. No new information was reported.

SNF = Santa Fe National Forest

## SOUTHERN CALIFORNIA AREA LARGE FIRES:

LYTLE, San Bernardino National Forest. A Type 2 Incident Management Team (Dietrich) is assigned. This fire is 12 miles north of Rancho Cucamonga, CA. Moderate fire behavior was observed in grass, brush and timber. Crews made good progress constructing direct attack fireline in Coldwater Canyon and Stockton Flat. The Mt. Baldy Ski Area is threatened.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

## NORTHERN ROCKIES AREA LARGE FIRES:

BULL ELK, Crow Agency, Bureau of Indian Affairs. A Type 2 Incident Management Team (Gray) is assigned. This fire is 20 miles south of Fort Smith, MT. Significant runs to the north, northwest and southwest were observed in Douglas fir and slash. Crews are constructing fireline with support from aerial resources.

KRAFT SPRING, Custer National Forest. This fire is 30 miles southeast of Ekalaka, MT. Running and spotting were observed in grass and heavy dead and down fuels. Crews are building direct attack fireline and holding. Steep, inaccessible terrain and winds from passing thunder cells are impeding suppression efforts.

#### OUTLOOK:

**\*\*\*A FIRE WEATHER WATCH HAS BEEN ISSUED IN THE COLUMBIA RIVER BASIN AND BLUE MOUNTAIN FOOTHILLS FOR GUSTY WINDS AND LOW RELATIVE HUMIDITY\*\*\***

**\*\*\*A FIRE WEATHER WATCH HAS BEEN ISSUED IN THE BLACK HILLS OF SOUTH DAKOTA FOR DRY LIGHTNING FOLLOWED BY THE PASSAGE OF A COLD FRONT\*\*\***

High pressure over the Northwest Area will bring sunny skies with a slight chance of showers in extreme northern Washington. High temperatures will be in the 60's and 70's in northeastern Washington, western Washington and northwestern Oregon, and in the 80's to 95 elsewhere. Minimum relative humidity will range from 25 to 40 percent in central Washington and west-central Oregon, and 10 to 25 percent in the remainder of the area. Winds will be west at 10 to 20 mph with gusts to 35 mph along the east slope of the Cascade Mountains and in the Fire Weather Watch areas.

A westerly flow over the Rocky Mountain Area will bring sunny skies with isolated wet thunderstorms in the central and southern mountains of Colorado. High temperatures will be mid 60's to low 80's in the mountains and in the 80's to low 90's at lower elevations. Minimum relative humidity will range from 12 to 30 percent and winds will be southwest to west at 10 to 22 mph.

High pressure over the Northern California Area will bring sunny skies with fog and low clouds along the coast. High temperatures will be upper 80's to 102. Minimum relative humidity will range from 12 to 18 percent with poor overnight relative humidity recovery readings of 22 to 27 percent. Winds will be north to northeast at less than 10 mph.

A dry, westerly flow over the Eastern Great Basin Area will bring mostly sunny skies. High temperatures will be in the 70's and 80's in the north and 85 to 102 in the south. Minimum relative humidity will range from 9 to 27 percent in Idaho and 6 to 20 percent in Utah. Winds will be northwest to southwest at 10 to 15 mph.

The Southwest Area can expect mostly to partly sunny skies with a chance of thunderstorms in west Texas and across the mountains of New Mexico and eastern Arizona. High temperatures will be in the 70's and 80's in the mountains and upper 80's to near 110 at lower elevations. Minimum relative humidity will range from 10 to 25 percent in Arizona and northern New Mexico, and 25 to 40 percent elsewhere. Winds will be south to southwest at 10 to 15 mph, gusting to 25 mph in eastern New Mexico and west Texas.

The Southern California Area can expect partly cloudy skies with patchy morning fog near the coast and a chance of thunderstorms over the Sierra Nevada Mountains. High temperatures will be in the 70's to low 80's along the coast, upper 80's to 90's in the mountains, in the 90's to 105 in the inland valleys, and 105 to 115 in the deserts. Minimum relative humidity will range from 5 to 15 percent in the mountains and deserts, 10 to 20 percent in the inland valleys, and above 50 percent near the coast. Winds will be southwest to northwest at 10 to 18 mph in the mountains and deserts.

A westerly flow over the Northern Rockies Area will bring sunny skies with a chance of showers over the mountains near the Canadian border. High temperatures will be 70 to 90. Minimum relative humidity will be in the mid teens in southeastern Montana and 20 to 30 percent elsewhere. Winds will be west at 10 to 25 mph, gusting from 25 to 35 mph in the north.

#### **TAKING A NAP NEAR THE FIRELINE**

Firefighting is often exhausting work and firefighters can find themselves needing to sleep while on the fireline. Before pausing to rest, firefighters must weigh the following considerations:

	Are lookouts posted? Discuss who that lookout can be. Can the lookout on the knob across the draw watch over you or does it need to be your partner on the fireline alternating rest times?
	Is the area free of hazards? (Falling snags or rolling materials) Discuss what you need to do to create a safe resting area.
	Are you still within agency work and rest guidelines? Review what these guidelines are.
	Does your crew need a break? Have they been pushed too hard? Talk about situations where you need to simply take yourself and/or your crew off the fire for uninterrupted rest.
	To reduce risks:
	Keep lookouts posted; rotate lookouts.
	Communicate crew condition and status to a supervisor or chain-of-command contact. Have firefighters discuss ways that they find to rest on the fireline and suggestions for methods to alternate shifts for more effective firefighting.
