

INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY JULY 20, 2003 - 0800 MDT
NATIONAL PREPAREDNESS LEVEL 4

CURRENT SITUATION:

Initial attack activity was moderate in Eastern Great Basin, Rocky Mountain, Southern California, and Southwest Areas and light elsewhere. Nationally, 250 new fires were reported. Seven new large fires were reported, two in the Rocky Mountain Area, and one each in the Eastern Great Basin, Northern Rockies, Northwest, Southwest, and Western Great Basin Areas. Six large fires were contained, one each in the Northwest and Northern Rockies Areas, and four in the Rocky Mountain Area. Very high to extreme fire indices were reported in Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, Washington and Wyoming.

SOUTHWEST AREA LARGE FIRES:

KINISHBA, Fort Apache Agency, Bureau of Indian Affairs. A Type 1 Incident Management Team (Humphrey) is assigned. This fire is in ponderosa pine, woodlands and chaparral, two miles west of Whiteriver, AZ. Fire behavior was reduced today by higher relative humidity from the remnants of Tropical Storm Claudette. Crews are holding containment lines and are conducting burn out operations.

SPRUCE COMPLEX, Gila National Forest. A Type 2 Incident Management Team (Bateman) is assigned. This complex is composed of the Spruce, Silver, Nabours, and Parallel fires and is in brush, ponderosa pine and mixed conifer, 18 to 20 miles east, southeast and northeast of Glenwood, NM. Minimal fire activity was observed. Crews are constructing direct fireline on the east flank of the Silver fire. Twenty residences and five commercial properties are threatened; structure protection is in place.

MOLINA COMPLEX, Santa Fe National Forest. A Type 2 Incident Management Team (Philbin) is assigned. This complex, comprised of the Capulin and Molina fires, is eight miles east of Cundiyo, NM. Low to moderate fire activity was observed. Crews are building fireline, patrolling and mopping up. Increase in acreage is due to more accurate mapping. One residence and one commercial property are threatened; structure protection is in place.

BLUE RIVER COMPLEX, Apache-Sitgreaves National Forest. A Type 2 Incident Management Team (Rios) is assigned. This complex, comprised of the Steeple, Largo and Thomas fires, is in ponderosa pine, mixed conifer, pinyon, brush and grass, 18 miles south of Alpine, AZ. Fire moved with steady progress with two to three foot flame lengths on the Steeple fire. Crews are building containment lines on the Largo and Steeple fires and conducting limited burnout operations on the Steeple fire.

DRY LAKE COMPLEX, Gila National Forest. A Fire Use Management Team (Rath) is assigned; the Team is also managing the Turnbo fire. This lightning caused Wildland Fire Use complex, comprised of the Sycamore, Moonshine and Granny fires, is 27 miles northwest of Silver City, NM. The primary fuels involved in these fires are pinyon pine, juniper, ponderosa pine and grass. The complex is being managed to accomplish multiple resource objectives. Minimal fire behavior was observed. Personnel are monitoring fire spread.

TURNBO, Gila National Forest. A Fire Use Management Team (Rath) is assigned. This fire is in mixed conifer with continuous pine stringers, 37 miles northwest of Silver City, NM, and is being managed with a confinement suppression strategy. Low fire activity was observed. Personnel are monitoring the fire.

DIVIDE, Gila National Forest. This fire is seven miles southeast of Aragon, NM. Moderate fire behavior was observed in grass, ponderosa pine and mixed conifers. Crews are conducting burn out operations.

GRANITE, Gila National Forest. This fire is 13 miles northwest of Hillsboro, NM. Minimal fire behavior was observed in mixed conifer. Personnel are building containment lines.

SKELETON, Arizona State. This fire is in desert shrub, brush and open grassland, 15 miles east to northeast of Douglas, AZ. The fire is being managed in a confine/contain strategy. No new information was reported.

GOVERNMENT, Cibola National Forest. This fire is in ponderosa pine, juniper and pinyon, six miles north of Datil, NM. No new information was reported.

WINCHESTER, Arizona State. This fire is in grass, mesquite, oak, and woodland, ten miles northwest of Willcox, AZ. Isolated flare-ups were observed. Personnel are monitoring the fire.

EASTERN GREAT BASIN AREA LARGE FIRES:

BLACKWALL, Salmon-Challis National Forest. A Type 2 Incident Management Team (Kechter) is assigned. This fire is in mixed conifer with heavy ground fuel, 32 miles north of Salmon, ID. Active fire behavior with torching, spotting and short crown fire runs was observed. Crews are building and improving containment lines.

EAST TABLE, Bridger-Teton National Forest. A Type 2 Incident Management Team (Broyles) is assigned. This fire is ten miles east of Alpine, WY. Some interior burning with isolated torching and creeping ground fires was observed. Crews are constructing containment lines and mopping up.

SUNSHINE CANYON, Salt Lake Field Office, Bureau of Land Management. This fire is five miles west of Five Mile Pass, UT. Torching and smalls runs were observed in juniper, sage, timber and grass.

FARMINGTON, Wasatch-Cache National Forest. This fire is one-half mile east of Farmington, UT. Minimal fire behavior was observed in oak brush, cheat grass, spruce and fir. Personnel are patrolling and monitoring.

TOBIAS, Salmon-Challis National Forest. A Type 2 Incident Management Team (Van Bruggen) is assigned. This fire is in grass, sage and mixed conifer with dead and down fuel, 18 miles north to northwest of Leadore, ID. Due to favorable weather conditions, fire growth was low. Crews are constructing fireline and mopping up. Structure protection is in place for two residences.

BULLDOG, Richfield Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Brunner) is assigned. This fire is in oak, mountain mahogany, juniper and pinyon pine, 17 miles north of Ticaboo, UT. Moderate fire behavior with individual torching and small runs was observed. Crews are improving containment lines and conducting burn out operations. One commercial property is threatened; structure protection is in place.

INEEL, Upper Snake River District, Eastern Idaho Area, Bureau of Land Management. This fire is 22 miles west of Idaho Falls, ID. High to extreme fire behavior was observed in grass and sage. Highway 20 was closed for a few hours, due to spotting across the highway.

ROCKY MOUNTAIN AREA LARGE FIRES:

BALCONY HOUSE COMPLEX, Mesa Verde National Park. A Type 2 Incident Management Team (Szczepanik) is assigned. This complex is comprised of Moccasin, White, Balcony and Park fires. Active fire behavior was observed in pinyon pine and juniper fuels. Crews are cold trailing the north, west and south flanks. Eight residences and nine commercial properties are threatened; structure protection is in place.

DEEP LAKE, Shoshone National Forest. This fire is in mixed conifer and grass, 30 miles northwest of Cody, WY. Low to moderate fire activity was observed. Personnel are constructing containment lines and burning out. Four residences are threatened; structure protection is in place.

JB, Western Slope Center, Bureau of Land Management. A Type 2 Incident Management Team (Saleen) is assigned. This fire is 42 miles southwest of Grand Junction, CO. Moderate fire behavior was observed in grass, sage, oak brush and ponderosa pine. Structure protection is in place for five residences.

BOLT, Southern Ute Reservation, Bureau of Indian Affairs. A Type 2 Incident Management Team has been ordered. This fire is 9 miles southwest of Pagosa Springs, CO. Spotting, crowning, torching, and rapid rates of spread were observed in ponderosa pine, mixed conifer and oak brush. Crews and dozers are building, improving and holding containment lines. Twelve residences are threatened; structure protection is in place.

GRAMM COMPLEX, Medicine Bow National Forest. A Type 2 Incident Management Team (Mullenix) is assigned. This complex, comprised of Gramm and Six Mile fires, is 30 miles southwest of Laramie, WY. Low fire activity was observed in ponderosa pine. Crews are constructing, improving, and holding containment lines. Structure protection is in place for 113 threatened residences. Increase in acreage is due to more accurate mapping.

DEVIL CREEK, San Juan National Forest. This fire is in ponderosa pine, pinyon, juniper, and oak brush, 17 miles west of Pagosa Springs, CO. Active fire behavior was observed due to high winds. Crews are building fireline and mopping up.

BEAR CREEK, San Juan National Forest. A Fire Use Management Team (Clark) is assigned. This Wildland Fire Use fire is in spruce and fir, five miles northeast of Vallecito, CO. The fire is being managed for resource benefit. Minimal fire behavior was observed. Crews are holding fireline and monitoring.

BIG SPRING, Casper Field Office (East Zone), Bureau of Land Management. This fire is 30 miles north of Kaycee, WY. Torching and short ground runs were observed in ponderosa pine, pinyon, and juniper. Crews are building containment lines with the support of aerial resources. Ten residences are threatened; structure protection is in place.

NORTHWEST AREA LARGE FIRES:

CLARK, Willamette National Forest. A Unified Command has been established between a Type 2 Incident Management Team (Gardner) and An Oregon Department of Forestry Incident Management Team (Labhart). This fire is in understory and timber with dead and down fuels, ten miles northeast of Lowell, OR. Active fire behavior with running and torching was observed. Crews are improving containment and contingency lines on the north, northwest and northeast flanks and are conducting burnout operations. Structure protection is in place for five residences.

MCGINNIS FLATS, Colville Agency, Bureau of Indian Affairs. A Washington Interagency Incident Management Team (Jennings/Perry) is assigned. This fire is in pine and grass, one mile north of Keller, WA. Twelve residences are threatened; structure protection is in place.

FAWN PEAK COMPLEX, Okanogan-Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This complex is comprised of the Fawn Peak, Sweetgrass and Farewell fires; the Fawn Peak and Sweetgrass fires have been controlled. The Farewell fire is in sub-alpine fir with heavy dead and down timber, 13 miles northwest of Winthrop, WA. Active fire behavior was observed. Crews are mopping up, constructing and improving fireline. Structure protection is in place for nine threatened residences.

NORTHERN ROCKIES AREA LARGE FIRES:

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is in subalpine fir with down fuel, 20 miles east of Eureka, MT. Active fire behavior with torching, moderate crown runs and spotting up to ¼ mile was observed. Crews are constructing fireline with the support of aerial resources. Twenty-five residences are threatened; structure protection is in place.

MISSOURI BREAKS COMPLEX, Miles City Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Gray) is assigned. This complex, comprised of the Big Coulee, Ghost Coulee, Indian and Germaine fires, is 35 miles northwest of Jordan, MT. Extreme fire behavior with torching and crowning was observed in timber and grass. Crews are constructing fireline and conducting burn out operations. Seventeen residences have been evacuated; structure protection is in place.

HIDDEN LAKE, Beaverhead/Deerlodge National Forest. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is in sub-alpine fir, 4 miles northeast of Polaris, MT. Torching and crown runs with spotting ½ mile ahead of the front were observed. Crews are conducting burnout operations. Thirty residences are threatened; structure protection is in place.

SLIMS, Nez Perce National Forest. A Type 2 Incident Management Team (Benes) is assigned. This fire is in ponderosa pine and mixed conifer, 35 miles east of Grangeville, ID. Short runs and torching were observed. Crews are holding and constructing fireline.

LONG MOUNTAIN, Lewis and Clark National Forest. This fire is 2 miles east of Neihart, MT. Torching and short range spotting were observed in timber.

AMETHYST, Yellowstone National Park. This fire is in old growth timber, litter and understory, 25 miles southeast of Mammoth Hot Springs, WY. Short crown runs and short range spotting were observed. Crews are constructing fireline and patrolling for spot fires.

MICKEY BUTTE, Charles M. Russell National Wildlife Refuge. This fire is in grass, juniper and timber, 50 miles south of Malta, MT. Torching and spotting up to ½ mile were observed. Crews are building handline.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

COYOTE, Monte Vista Unit, California Department of Forestry and Fire Protection. This fire is in chaparral, twenty miles north of Julian, CA. Low to moderate fire activity was observed. Crews are constructing fireline, focusing efforts on the south and southwest flanks and mopping up. Structure protection is in place for 100 residences. Damage assessment is underway to determine the extent of properties lost. Three additional outbuildings were confirmed lost.

SALT, Amador-El Dorado Unit, California Department of Forestry and Fire Protection. This fire is in timber with slash understory, 17 miles west of Jackson, CA. Backing fire with minor flare-ups was observed. Crews are mopping up, holding and improving containment lines.

EUCALYPTUS, San Benito-Monterey Unit, California Department of Forestry and Fire Protection. This fire is in heavy brush and oak woodland, five miles east by northeast of Del Rey Oaks, CA. Minimal fire behavior was observed. Crews are patrolling and mopping up.

LIGHTNING, San Bernardino County Fire Department. This fire is in brush and trees in a river bottom area, 10 miles north of Needles, CA. No new information was reported.

OUTLOOK:

Weather Discussion: High pressure centered over the central Colorado/Utah border will move slowly westward today. Moisture will continue wrapping around the edge of the high throughout the west. Additional moisture is expected to move across northern California this afternoon, providing a chance for mixed wet and dry thunderstorms. Moisture and instability will remain in place over the Great Basin and Rocky Mountain Areas, while the Southwest experiences an increase in moisture across eastern sections as a back-door cold front arrives in New Mexico tonight. Most of the Northwest and Northern Rockies are expected to remain hot and dry. Alaska will once again be under the influence of dry high pressure as well.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Isolated thunderstorms southeast Idaho and Bridger-Teton, otherwise partly cloudy and warmer. Utah, Arizona Strip: Isolated to scattered thunderstorms.	Idaho, Bridger-Teton: 66 to 90 mountains, 88 to 105 valleys. Utah and Arizona Strip: 80 to 95 higher elevations, 95 to 108 valleys.	Idaho, Bridger-Teton: 20 to 35% mountains, 11 to 22% valleys. Utah, Arizona Strip: 15 to 25% mountains, 8 to 17% valleys.	Upslope/up valley 3 to 10 mph except west 5 to 15 mph southern Utah and Arizona Strip.
NORTHERN CALIFORNIA AREA Areas of morning low clouds and fog near the shore. Otherwise, partly cloudy. A slight chance of afternoon and evening thunderstorms over the higher terrain. Best chance along and east of the Cascade-Sierra crest. Isolated dry lightning is possible.	Mid 60s to mid 70s near the coast, mid 80s to mid 90s higher terrain, and mid 90s to 107 inland valleys.	50% or more along the coast, 18 to 28% higher terrain, 8 to 18% inland valleys, and 4 to 13% east of the Sierra-Cascade Crest.	Variable under 12 mph, mainly southeast to southwest. Peak afternoon gusts southwest about 17 to 27 mph over Cascade/Sierra crest eastward.
NORTHERN ROCKIES AREA Mostly Sunny	85 to 100	West of the Divide: 10 to 20% East of the Divide: 15 to 25%	West to northwest 5 to 15 mph
NORTHWEST AREA Sunny hot and dry.	Generally 80s and 90s with hottest spots east of the Cascades and southwest Oregon into the low 100s.	West of Cascade: 35% in the north to 20% south. Eastside...5 to 15%.	No significant wind. Generally west to northwest 5 to 15 mph. Gusty in the afternoon.
ROCKY MOUNTAIN AREA Isolated thunderstorms north. Scattered thunderstorms south.	Highs upper 80s to mid 90s (70 to 80 mountains).	13 to 23% lower elevations of western Colorado and northern Wyoming, with 25 to 40% elsewhere.	North 15 to 25 mph over the northern plains. Variable 5 to 15 mph elsewhere.

SOUTHWEST AREA Partly cloudy with widely scattered thunderstorms, most numerous over the mountains.	70s and 80s mountains, 90s to near 113 lower elevations.	10 to 20% lower elevations and 20 to 30% mountains.	Mostly upslope/up valley 5 to 15 mph, except south 10 to 20 mph across parts of eastern NM and west TX.
SOUTHERN CALIFORNIA AREA Partly cloudy with a few showers and a chance of thunderstorms, mainly over mountains and deserts.	70 to 85 coastal areas. 80 to 95 mountains. 85 to 100 valleys. 100 to 108 upper deserts. 105 to 115 low desert.	10 to 20% deserts. 15 to 30% mountains. 20 to 35% valleys.	Southeast to southwest 5 to 15 mph.
WESTERN GREAT BASIN AREA Partly cloudy skies in the morning then isolated to scattered afternoon showers and thunderstorms.	90 to 100 valleys, 80 to 90 mountains, with a maximum of 104 in the southern deserts.	10 to 20% at lower elevations, 15 to 30% in upper elevations and 25 to 35% in the Sierras.	Variable at 5 to 15 mph.
