

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, MARCH 17, 2003 1000 MST
NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Initial attack activity was light nationally, with 74 new fires reported March 14th through March 16th. Three new large fires were reported in the Southern Area. Two large fires were contained in the Southern Area. Very High fire indices were reported in Arizona.

COLUMBIA RESPONSE, Federal Emergency Management Agency. A FEMA Emergency Operations Center has been established in Lufkin, Texas. Four Type 1 Incident Management Teams (Lohrey, Oltrogge, Anderson and Ferguson) are assigned in Corsicana, Hemphill, Palestine and Nacogdoches, Texas. One Type 2 Incident Management Teams (Hildreth) is assigned in Longview, Texas. Forty-eight agencies are cooperating in the search and collection of shuttle materials.

NEWCASTLE, Animal and Plant Health Inspection Service, USDA. State and Federal personnel have been mobilized in response to the outbreak of the Exotic Newcastle Disease. They are working in support of the USDA APHIS operation under a Unified Command. Support operations are being conducted in Arizona, California, and Nevada.

SOUTHERN AREA LARGE FIRES:

JANUARY HOLLOW FIRE, Oklahoma Division of Forestry. This fire is near Colcord, OK and is burning in a mix of pine and hardwoods. Wind gusts of 25 miles per hour were observed with temperatures in the mid 70 s.

HIGHBRIDGE MOUNTAIN	OK	OKS	220	100	03/16		0	3	1	0	NR

OKS = Oklahoma Division of Forestry

OUTLOOK:

A chance of thunderstorms across all of north Texas this afternoon, as a dryline approaches the area from the west. Low relative humidity values and gusty southwest winds can be expected for areas that are west of the dryline. Storms will end on Tuesday evening with dry weather expected through the end of the week.

LOOKOUTS

Lookouts are often better situated to notice the cumulative changes of fire behavior.

● Fire Order #8 says, "Establish lookouts in potentially hazardous situations." Should you utilize lookouts at all times?

- Lookouts should be posted at all times.

● What are you looking for when you are selecting a lookout location?

- Choose a good vantage point, preferably with a good overview of the entire area where firefighters are located, including escape routes and safety zones.
- Utilize aircraft, but have an alternative on the ground.

● What are the desired qualities, capabilities, knowledge, and responsibilities of a lookout person?

- Experienced firefighter.
- Solid knowledge of fire behavior and ability to recognize and monitor other environmental hazards.
- Good communicator--keeps the crew advised of fire behavior changes, tracks weather trends and relays the information, informs crew of work progress and updates from the latest strategy and tactical briefings.
- Monitors and accounts for all individuals within his/her assigned area at all times, and will notify others if breaks are needed.

● What is the necessary equipment for a lookout?

- PPE, radio with extra batteries, compass, binoculars, belt weather kit, IAP, map, food, and water.
