

INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY, MARCH 18, 2003 1000 MST
NATIONAL PREPAREDNESS LEVEL 2

CURRENT SITUATION:

Initial attack activity was light nationally, with 149 new fires reported yesterday. One new large fire was reported in the Southern Area. One large fire was contained in the Southern Area. Very High fire indices were reported in Arizona.

COLUMBIA RESPONSE, Federal Emergency Management Agency. A FEMA Emergency Operations Center has been established in Lufkin, Texas. Four Type 1 Incident Management Teams (Lohrey, Oltrogge, Anderson and Ferguson) are assigned in Corsicana, Hemphill, Palestine and Nacogdoches, Texas. One Type 2 Incident Management Teams (Hildreth) is assigned in Longview, Texas. Forty-eight agencies are cooperating in the search and collection of shuttle materials.

NEWCASTLE, Animal and Plant Health Inspection Service, USDA. State and Federal personnel have been mobilized in response to the outbreak of the Exotic Newcastle Disease. They are working in support of the USDA APHIS operation under a Unified Command. Support operations are being conducted in Arizona, California, and Nevada.

SOUTHERN AREA LARGE FIRES:

SIZEMORE CREEK FIRE, Oklahoma Division of Forestry. This fire is burning in hardwood, grass and logging slash eleven miles south of Tahlequa, OK. The fire burned actively yesterday, with ten to fifteen foot flame lengths observed at the head. Completion of control lines and burn out operations are planned for today.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
SIZEMORE CREEK FIRE	OK	NEU	255	78	3/18	16	0	4	0	0	NR
JANUARY HOLLOW FIRE	OK	NEU	200	100	---	1	0	1	0	0	NR

OUTLOOK:

Unstable weather with broad areas of showers and thunderstorms will continue again today in the Southern Area. Oklahoma and Texas will see showers and thunderstorms ahead of a cold front entering the area from the Rocky Mountains, and the rest of the south will see widespread rain and afternoon convective activity associated with a warm front and moist southerly flow.

Weather in the Columbia recovery area will be partly to mostly cloudy with rain showers and thunderstorms, and southerly winds at 10 to 15 mph.

COMMUNICATIONS

Effective communication is a critical backbone of safe and successful operations.

- ➊ Discuss the factors that can affect radio communication at the incident.

- Knowledge of the radio issued to the individuals
- Net control, frequencies
- Line-of-sight restrictions
- Antenna polarization effect (direction of the antenna)
- Minimizing noise interference

- ➋ How can you mitigate potential problems?

- Implement effective communication procedures--be brief, clear, concise, and to-the-point.
- Give a good comprehensive briefing (Refer to the Briefing Checklist inside the back cover of the Incident Response Pocket Guide.).
- Confirm that relayed information is received, acknowledged, and understood.
- Keep a continuous information flow (e.g., updates on weather, fire behavior, work progress; changes in strategy/tactics; arrival of additional resources; solicit feedback).
- Establish emergency check-in procedures.
- Provide a minimum of 4 radios per 20-person firefighter crew.

- ➌ The Five Communication Responsibilities for All Firefighters

- Brief others
- Debrief your actions
- Communicate hazards to others
- Acknowledge messages
- Ask if you don't know
