

**INCIDENT MANAGEMENT SITUATION REPORT**  
**FRIDAY MAY 30, 2003 - 0530 MDT**  
**NATIONAL PREPAREDNESS LEVEL 2**

**CURRENT SITUATION:**

Initial attack activity was light nationally, with 118 new fires reported yesterday. Three new large fires were reported, two in Northern California Area and one in Southern Area. Two large fires were contained, one each in Alaska and the Southwest Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Minnesota, Nevada, New Mexico, Oklahoma, Texas, and Utah.

**ALASKA AREA LARGE FIRES:**

TOK RIVER, State of Alaska. A Type 2 Incident Management Team (Reed) is assigned. The fire is burning in black spruce, tundra, and mixed hardwoods five miles southeast of Tok, AK. Minimal fire activity was observed yesterday. Resources will continue to contain and line spots tying control lines together.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
TOK RIVER	AK	STA	2,960	20	6/4	80	8	0	1	0	284K
REX BRIDGE	AK	STA	1,500	100	---	251	11	5	2	3	241K

**NORTHERN CALIFORNIA AREA LARGE FIRES:**

DEL PUERTO, California Department of Forestry-Santa Clara Unit. This fire is burning in grass, brush, and scattered timber fifteen miles west of Patterson, CA. Rapid rates of spread and spotting were observed yesterday due to high winds. Steep terrain and access problems are hampering containment efforts, and presenting safety concerns.

LUHI, Hawaii Volcanoes National Park. This fire was started by lava from the Kilauea Volcano. The fire is burning in grass, brush, and rainforest. Extreme fire behavior was observed yesterday due to low relative humidity. Sections of the fire burned out when they reached old lava flows.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
DEL PUERTO	CA	SCU	625	40	UNK	113	8	24	0	0	NR
LUHI	HI	HVP	4,235	40	6/1	42	1	0	4	0	40K

**SOUTHERN AREA LARGE FIRES:**

SOUR LAKE, Texas Forest Service. The fire is burning in a pine plantation forty miles northwest of Beaumont, TX. Minimal fire behavior was observed yesterday. No further information was reported.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
SOUR LAKE	TX	TXS	100	80	UNK	9	0	0	0	0	NR

## SOUTHWEST AREA LARGE FIRES:

GRADUATION, New Mexico State Forestry. This fire is burning in ponderosa pine and grass near the town of Ojo Feliz, NM. No new information was reported. This will be the last report unless significant activity occurs.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
GRADUATION	NM	N4S	325	90	---	28	1	3	0	0	114K
CIMARRON	AZ	CNF	191	100	---	335	10	10	2	0	NR

CNF = Coronado National Forest

## OUTLOOK:

**Weather Discussion:** High pressure persists over the West. Moisture spreading up from Mexico will bring increasing threat of thunderstorms to Arizona. A disturbance along with scattered thunderstorms will be moving across the Northwest into the Northern Rockies. Dry air continues over northern and central Florida. In Alaska, a high pressure ridge building over the interior to bring warm weather along with increasing thunderstorm activity.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
<b>SOUTHERN CALIFORNIA</b> Morning low clouds and fog into the coastal valleys, otherwise mostly sunny except becoming partly cloudy in the afternoon with a slight chance of thunderstorms over the mountains and deserts east of Cajon pass and from the Sierra Crest eastward.	70-90 Mountains 80-95 Valleys 90-110 Deserts	15-25% Mountains 25-35% Valleys 10-20% Deserts	SE-SW 10-20 mph.
<b>EASTERN AREA</b> Becoming partly cloudy across Northern MN	63 to 73	28 to 38%	North to northwest wind at 15 to 30 mph
<b>ROCKY MOUNTAIN AREA</b> Scattered afternoon thunderstorms, with isolated dry storms in the west. Partly sunny.	65-75 mountains and east, 80s-90s lower elevations in the west.	15%-25% south and west, with 25%-40% north and east.	10-20 mph east-southeast winds, except terrain driven winds in the west.
<b>SOUTHWEST AREA</b> Partly cloudy. Isolated to widely scattered thunderstorms in AZ, northern NM and the TX panhandle.	Upper 70s to 80 s mountains, 80s and 90s lower elevations, except 100 to 110 in the AZ deserts.	15-25% west and 8-18% east.	Southeast to southwest mostly 5-15 mph, except becoming northeast 10-15 mph across TX panhandle.

### **INSTRUCTIONS AND ASSIGNMENTS NOT CLEAR**

Every firefighter will give and receive briefings at some point on the job. Briefings are an effective way to disseminate information that can make the firefighter's job safer and easier. When giving a briefing, it is important to keep the following questions in mind and remain perceptive to how the audience is receiving the information:

- Did they ask questions? Talk about what it is like giving a briefing. Do you get empty stares? What feedback are you looking for to ensure they understand you?
- Did they take notes? What kind of information would you like to see people write down?
- Did they repeat information back? What other ways can you identify that your briefing is registering?
- Did you give all the necessary information? How will you ensure that you covered everything necessary?
  - Task
  - Location
  - Communications
  - Hazards
  - Who, when, etc.
- It is also important for the firefighter who is receiving instructions to be mindful of the following during the briefing:
  - Did you really listen? What do you do to make yourself pay attention to everything being said?
  - Did you understand the assignment, location, and the nature and location of hazards? Do you expect to figure it out for yourself when you get out there or do you step forward and ask questions?
- To reduce the risks, take the time and get it right!
- You must know the location of the assignment and:
  - What is to be done.
  - Who you are to report to and how often to report.
  - When you are expected to complete the assignment.
  - Hazards.
  - Communication plan frequencies.
  - Weather and fire behavior.
  - Status of adjoining forces.
