

INCIDENT MANAGEMENT SITUATION REPORT
MONDAY, SEPTEMBER 15, 2003 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 4

CURRENT SITUATION:

Initial attack activity was moderate in Northern California and light elsewhere. Nationally, 76 new fires were reported. Three new large fires were reported, one each in the Northern California, Southern California, and Northern Rockies Areas. One large fire was contained in the Northern Rockies Area. Very high to extreme fire indices were reported in Arizona, California, Hawaii, Nevada, New Mexico, Montana, Oklahoma, Oregon, Texas, Utah and Wyoming.

NORTHERN ROCKIES AREA LARGE FIRES:

An Area Command Team (Williams-Rhodes) is assigned to manage Blackfoot Lake Complex, Wedge Canyon, Robert, Trapper Creek Complex and Little Salmon Creek Complex.

PINE HILLS, Southern Land Office, Montana Department of Natural Resources and Conservation. This fire is seven miles east of Billings, MT. Two structures were lost. No further information was received.

MYRTLE CREEK, Idaho Panhandle National Forest. A transfer of command from Frye's Type 1 Incident Management Team to a Type 3 organization will occur on 9/16. This fire is in logging slash, mixed conifer and brush, five miles northwest of Bonners Ferry, ID. The fire continued to smolder and creep with some open flame observed.

BLACKFOOT LAKE COMPLEX, Flathead National Forest. A Type 1 Incident Management Team (Bennett) is assigned. This incident, comprised of the Beta Lake, Doris Mountain, Ball Creek, Wounded Buck, Doe, Wildcat, Upper Lid, Dead Buck and Blackfoot Lake fires, is in timber, 19 miles east of Kalispell, MT. The fires continued to creep and smolder in stump holes.

WEDGE CANYON, Flathead National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is 42 miles north of Columbia Falls, MT and approximately two miles south of the international border. No new information was reported.

TRAPPER CREEK COMPLEX, Glacier National Park. A Type 2 Incident Management Team (Sandman) is assigned. This complex, which includes the Middle Fork, Rampage and Trapper Creek Complexes, is in mixed conifer with heavy dead and downed fuels, 45 miles northeast of Kalispell, MT. The fires continued to creep and smolder.

LITTLE SALMON CREEK WILDLAND FIRE COMPLEX, Flathead National Forest. This complex is 47 miles southeast of Kalispell, MT in the Bob Marshall Wilderness. The incident, comprised of the Gordon, Molly Creek, Leota Peak, Gyp Mountain, Crimson, High, Mid and Some Creek fires, is in ponderosa pine and mixed conifer. The fire smoldered in heavy fuels and single trees torched.

ROBERT, Flathead National Forest. A Type 2 Incident Management Team (Sandman) is assigned. This fire is in timber, eight miles north of Columbia Falls, MT. The fire continued creeping and smoldering in heavy dead and downed woody fuels. Area closures remain in effect. The lower end of Kelly Camp Road is open to the public; the upper end of Kelly Camp Road is open to residents only. Structure protection is in place for 100 residences and six commercial properties.

FISH CREEK COMPLEX, Lolo National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This incident, comprised of the Fish Creek, Thompson Creek, Surveyor Creek, Lower Quartz, Siamese Lake, Indian Creek, Middle Fork Indian Creek, Cedar Log and West Fork Indian Creek fires, is 35 miles west of Missoula, MT. Little fire activity was observed; there were few internal smokes.

MINERAL-PRIMM, Lolo National Forest. A Type 2 Incident Management Team (Larsen) is assigned. This incident, comprised of the Mineral-Primm, Stewart Peak, Upper Rattlesnake, and Boles Meadows fires, is in timber, 19 miles northeast of Missoula, MT. Fire behavior was minimal.

LINCOLN COMPLEX, Helena National Forest. This complex, comprised of the Moose-Wasson and Snow-Talon fires, is ten miles west of Lincoln, MT. Fire activity was minimal. Structure protection is in place for 25 residences.

CRAZY HORSE, Flathead National Forest. This fire is in mixed conifer with heavy dead and downed fuels, eight miles southwest of Condon, MT. No new information was reported. This will be the last report unless new information is received.

NORTHWEST AREA LARGE FIRES:

An Area Command Team (Greenhoe) is assigned to manage the B&B Complex.

NEEDLE, Okanogan/Wenatchee National Forest. A Type 1 Incident Management Team (Hart) is assigned. This fire is in timber, 12 miles northwest of Winthrop, WA. Occasional torching and short range spotting primarily in sub-alpine fir were observed. Structure protection is in place for 100 residences.

B&B COMPLEX, Deschutes National Forest. A Type 1 Incident Management Team (Martin) is assigned. A Type 2 Incident Management Team (Gardner) is assigned to the portion of the Booth fire that is west of the Cascade Divide. This complex, comprised of the Booth and Bear Butte fires, is in timber with heavy ground fuels, 14 miles west of Sisters, OR. Active surface fire within interior islands on the B&B Complex; smoldering and creeping was observed on the West Booth fire.

MAPLE, Okanogan/Wenatchee National Forest. A Type 2 Incident Management Team (Reed) is assigned. This fire is in timber, 30 miles north-northwest of Leavenworth, WA. Reported acreage growth was due to burn out operations and more accurate mapping.

GLACIER PEAK COMPLEX, Mt. Baker-Snoqualmie National Forest. This incident is in timber, brush and heavy downed fuels, 16 miles southeast of Marblemount, WA. No new information was reported. This will be the last report unless new information is received

MINERAL PARK, Mt Baker-Snoqualmie National Forest. This fire is in heavy timber, brush and deep duff, 16 miles southeast of Marblemount, WA. No new information was reported. This will be the last report unless new information is received.

MOUNT RAINIER COMPLEX, Mount Rainer National Park. This complex, comprised of the Panther, Redstone and Chenuis fires, is in heavy timber with heavy downed fuels, 13 miles northeast of Packwood, WA. Fire activity was minimal throughout the complex.

LOST LAKE, Gifford Pinchot National Forest. This fire is in brush and timber, seven miles east/southeast of Packwood, WA. No new information was reported. This will be the last report unless new information is received

ISABEL, Okanogan/Wenatchee National Forest. A Washington Interagency Incident Management Team (Jennings) is assigned. This fire is ten miles northwest of Conconully, WA. Moderate activity with short range spotting was observed in the interior of the fire. Local trail and road closures remain in effect.

NORTHERN CALIFORNIA AREA LARGE FIRES:

LOMA, Shasta-Trinity National Forest. A Type 2 Incident Management Team (Szczepanik) is ordered. This fire is in timber, 21 miles west of Weaverville, CA. Active fire behavior with spotting was observed. Highway 299 is closed.

GRINDSTONE COMPLEX, Mendocino National Forest. A Type 1 Incident Management Team (Vail) is assigned. This complex, comprised of 39 confirmed fires, is in chaparral and mixed conifer, 30 miles west of Willows, CA. The Deafy fire is currently the only active fire in the complex. Rapid fire spread, group torching and frequent spotting up to ¼ mile were observed on the Deafy fire.

HUMBOLDT LIGHTNING SERIES, Humboldt-Del Norte Unit, California Department of Forestry & Fire Protection. This fire is in timber and logging slash, 16 miles north of Garberville, CA. Slow moving ground fire with rolling material was the primary cause of fire spread. The fire area is extremely steep with slope angle greater than 100 percent in many areas.

SOUTHERN CALIFORNIA AREA LARGE FIRES:

DUNCAN COMPLEX, Yosemite National Park. This lightning-caused Wild land Fire Use (WFU) incident is being managed to accomplish resource objectives. This fire is in red fir, lodge pole and some chaparral, two miles north of Yosemite Village in Yosemite National Park, CA. Rate of spread was less than one half acre per hour with isolated torching and short-range spotting.

EASTERN GREAT BASIN LARGE FIRES:

SID FIRE, Upper Snake River District, Southern Idaho Area, Bureau of Land Management. This fire is in grass and sage, 17 miles east/southeast of Dietrich, ID. No new information was reported. This will be the last report unless new information is received.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
SID FIRE	ID	SID	2,680	90	UNK	81	0	16	0	0	NR

OUTLOOK:

Weather Discussion: In central and northern California, wind flow will be more onshore today with higher relative humidity. However, warm temperatures along with little chance of precipitation are in the forecast. Over the rest of the west, high pressure will lead to warm conditions with only very light showers across northern Idaho and northwest Montana. Hurricane Isabel will slowly move toward the east coast today.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
NORTHWEST AREA Partly to mostly cloudy.	Mostly 60s and 70s except in the upper 50s in parts of western Washington and northwest Oregon.	West of Cascade: above 50% except 30 to 40% in southwest Oregon interior. East of Cascades: 25 to 45% in eastern Washington and 15 to 25% in eastern Oregon.	Windy especially east of Cascades. East of Cascades: southwest to west 10 to 25 mph. West of Cascades: west 8 to 16 mph.
NORTHERN CALIFORNIA AREA Night and morning coastal fog and low clouds. Clear elsewhere with a few mid and high clouds in the north.	60s and 70s near the coast and upper 80s to upper 90s inland.	8 to 16% east of the Sierra Cascade Crest and 12 to 22% west.	Southwest to west 7 to 14 mph gusts 24 to 32 mph during the afternoon along and east of the Sierra Cascade Crest with southwest to northwest 4 to 8 mph gusts 16 to 18 mph elsewhere.
ROCKY MOUNTAIN AREA Mostly sunny.	Highs upper 70s to near 85 (65 to 75 mountains).	13 to 20% lower elevations, with 20 to 30% mountains.	West 10 to 20 mph over western sections, variable 5 to 15 mph east.
SOUTHERN CALIFORNIA AREA Sunny except night and morning fog coastal areas.	70 to 80 coastal areas. 75 to 90 mountains. 88 to 8 valleys. 90 to 100 upper desert. 95 to 105 low desert.	8 to 15% desert. 10 to 20% mountains. 20 to 35% valleys. 40 to 55% coast.	Southwest to northwest 10 to 20 mph mountains and deserts.
EASTERN GREAT BASIN AREA Idaho, Bridger-Teton: Mostly sunny. Utah, Arizona Strip: Mostly sunny.	Idaho, Bridger-Teton: 57 to 72 mountains, 70 to 82 valleys. Utah and Arizona Strip: 60 to 76 higher elevations, 70 to 95 lower elevations.	Idaho, Bridger-Teton: 20 to 30% mountains, 10 to 20% valleys. Utah, Arizona Strip: 12 to 26% mountains, 8 to 18% valleys.	Idaho, Bridger-Teton: Upslope/up valley 3 to 7 mph becoming southwest 10 to 20 after noon. Northwest 10 to 15 mph on Payette National Forest. Utah, Arizona Strip: south to southwest 10 to 20 mph and gusty.

NFDRS POCKET CARDS

An aid to identifying local fuels conditions that might contribute to severe fire behavior is the NFDRS Pocket Card. The Pocket Card displays a general assessment of the fire potential compared to local fire occurrence and historical fire danger. It is a tool that can be used to track daily outputs of the National Fire Danger Rating System (NFDRS) throughout the fire season for a local area.

● The Pocket Card provides:

- A general indicator of the potential for extreme fire behavior and difficulty of control.
- A graph to show the trend and status of the current year's fire season.
- A comparison of current year's conditions to historical worst and average conditions.
- Fire danger values related to past large fires.
- Locally significant values for temperature, humidity, wind speed, and more.

● Discuss the following ways to use the Pocket Card:

- Use it primarily before fires occur, before arriving to a fire, and during initial stages of fire events, such as initial fire size-up, initial attack, and extended attack.
- Use the Pocket Card to track local fire danger and in so doing increase the safety of your firefighters through increased awareness of fire danger conditions. NOTE: If fire danger is running at or above seasonal highs, be alert to those weather conditions that can lead to extreme fire behavior; e.g., low RH, 1-hour fuel moisture less than 5%, high temperatures, moderate to high winds.
- Use it to track daily fire dangers so that there are no surprises when extreme fire behavior occurs.
- Use it to supplement local experience.
- Use the Pocket Card as a point of reference for firefighters not familiar with the area represented by the card.
- When you receive your fire assignment outside your local area, visit the National Pocket Card website at <http://famweb.nwcg.gov/pocketcards/>. Click on the map and locate a Pocket Card for the area to which you are going.
- Put the Card in the Pocket of all your firefighters and keep a copy in your fire vehicle.
- Post the card in dispatch. Use them in briefings. Provide them to incoming crews.
- Do not use the Pocket Card for site specific fire behavior predictions and fireline actions.
