

**INCIDENT MANAGEMENT SITUATION REPORT
SUNDAY, JULY 4, 2004 0800 MDT
NATIONAL PREPAREDNESS LEVEL 3**

CURRENT SITUATION:

Initial attack activity was light nationally with 215 fires reported. One new large fire was reported in the Rocky Mountain Area. One large fire was contained in the Western Great Basin Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Colorado, Nevada, New Mexico, Oklahoma, South Dakota, Texas, Utah and Washington.

ALASKA AREA LARGE FIRES:

BOUNDARY, Fairbanks Area Forestry, Alaska Division of Forestry. A Type 1 Incident Management Team (Hart) is assigned. This fire is 20 miles northeast of Fairbanks, AK in alpine tundra and black spruce. Active, wind driven, fire behavior was observed. Dozers are constructing fireline in preparation for burnout operations. The Steese Highway remains closed to the public until further notice. Evacuations remain in effect for all developments southwest and west of Chatanika, AK.

WOLF CREEK, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (Chrisman) is assigned. This fire is 80 miles northeast of Fairbanks, AK in black spruce and hardwoods. Individual tree torching was observed. Crews made good progress establishing structure protection. Increase in acreage is due to more accurate mapping.

TAYLOR COMPLEX, Tok Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Kurth) is assigned. This complex, comprised of the Wall Street, Billy Creek, Gardiner Creek, Big Creek, Anomaly, Chicken and Porcupine fires, is 35 miles northwest of Tok, AK in black spruce and tundra. Active fire behavior was reported on all fires. Structure protection is in place on the Chicken, Wall Street, Porcupine and Billy Creek fires. Crews are performing burnout operations on the Wall Street and Porcupine fires.

CAMP CREEK, Delta Area Forestry, Alaska Division of Forestry. A Type 2 Incident Management Team (Stegmier) has been ordered. This fire is 82 miles southeast of Fairbanks, AK in black spruce. Higher relative humidity moderated fire behavior with torching and spotting observed. Crews continue to provide structure protection.

EAGLE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Fire Use Management Team (Cones) is assigned. This complex, three miles northeast of Eagle, AK in tundra, black spruce and mixed hardwoods, consists of the American Summit, Edwards Creek, King Creek, Kandik River, Indian Grave Creek, Deer Creek and seven additional fires. Crews and dozers made significant progress constructing fireline around the city of Eagle, AK and Eagle Native Village. Structure protection is in place for cabins on the east side of the Yukon River.

SOLSTICE COMPLEX, Upper Yukon Zone, Bureau of Land Management. A Type 2 Incident Management Team (Jandt) is assigned. A Fire Use Management Team (Bird) has been ordered. This incident is 57 miles northwest of Fort Yukon, AK in black spruce and tundra. The complex consists of the Pingo, Winter Trail, Sucker River, Black Currant River, Vundik Lake, Boulder Creek and Sheenjek fires. Heavy smoke in the area and limited visibility are impeding logistical support of personnel. Cooler temperatures are aiding containment efforts.

FORT HAMLIN HILLS, Alaska Fire Service-Upper Yukon Zone, Bureau of Land Management. This fire is ten miles west of Stevens Village, AK in grass, black spruce, aspen and birch. Minimal fire behavior was reported. No further information was received.

SOUTHWEST AREA LARGE FIRES:

WILLOW, Tonto National Forest. A Type 1 Incident Management Team (Whitney) is assigned. This fire is 23 miles northeast of Scottsdale, AZ in grass and brush. Rough, rugged terrain, extremely dry fuels, extreme fire behavior and long distance spotting are hampering containment efforts. Crews continue to build fireline and conduct burnout operations.

NUTTALL COMPLEX, Coronado National Forest. A Type 1 Incident Management Team (Oltrogge) is assigned. This complex, located 15 miles southwest of Safford, AZ in brush and heavy timber, consists of the Nuttall and Gibson fires. Both fires reported extreme fire behavior; Gibson reported plume dominated fire behavior with crown runs and long range spotting. Structure protection is being established around a threatened observatory.

NORTHWEST AREA LARGE FIRES:

POT PEAK, Okanogan/Wenatchee National Forest. A Type 1 Incident Management Team (Lohrey) is assigned. This fire is 15 miles west of Chelan, WA in timber. Steep, difficult terrain with extremely limited access continues to hamper control efforts. Active fire behavior with minor torching was reported. Crews are continuing burnout operations with support from aerial resources.

FREEZEOUT, Okanogan/Wenatchee National Forest. A Fire Use Management Team (Cook) is assigned. This fire is 65 miles northeast of Bellingham, WA in timber. Steep, rugged terrain has hampered containment efforts. Fire behavior has moderated due to cooler temperatures, higher relative humidity and cloud cover.

HOPKINS CANYON COMPLEX, Colville Agency, Bureau of Indian Affairs. A Washington Interagency Incident Management Team (Reed/Holloway) is assigned. This fire is eight miles west of Nespelem, WA in timber and grass. Crews are rehabilitating fireline and mopping up.

WESTERN GREAT BASIN AREA LARGE FIRES:

COYOTE SPRINGS, Desert National Wildlife Refuge. This fire is 30 miles northeast of Las Vegas, NV in pinyon pine, juniper and grass. This fire is being managed in a confine/contain strategy with aerial monitoring. No new information was reported. This will be the last report unless significant activity occurs.

HTF = Humboldt-Toiyabe National Forest

ROCKY MOUNTAIN AREA LARGE FIRES:

MCGRUDER, Uncompahgre Field Office, Bureau of Land Management. A Type 2 Incident Management Team (Mullenix) has been ordered. This fire is five miles east of Cedaredge, CO in brush and hardwood slash. Extreme fire behavior was reported. No further information was received.

OUTLOOK:

Weather Discussion: Over much of the West conditions will be dry and seasonable today with little in the way of thunderstorm activity. The exception will be across the Northern Rockies and northern portions of the Rocky Mountain Area; thunderstorms will be possible in these locations. In Alaska winds will finally shift to a southwest direction today leading to less smoky conditions, and there will be a chance of showers and wet thunderstorms.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
SOUTHWEST AREA Partly to mostly sunny and breezy.	65 to 85 mountains 85 to 95 lower elevations north 95 to 105 lower elevations south	5 to 15% Arizona and most of New Mexico 15 to 30% west Texas and northern New Mexico mountains	West to southwest 10 to 20 mph with higher gusts across eastern New Mexico and west Texas.
ALASKA Central and Eastern Interior: Partly to mostly cloudy with scattered showers and isolated afternoon thunderstorms. South Central: Mostly cloudy with scattered showers and isolated afternoon thunderstorms.	Central and Eastern Interior: 65 to 80 South Central: 60 to 75	Central and Eastern Interior: 30 to 45% South Central: Above 40%	Central and Eastern Interior: South to southwest 5 to 15 mph. South Central: Southeast to south 5 to 15 mph.
WESTERN GREAT BASIN AREA Isolated thunderstorms northeast and central, partly to mostly sunny northwest and south.	North: 82 to 92 South: 92 to 102 Mountains: 70s	North Valleys: 12 to 22% South Valleys: 5 to 15% Mountains: 15 to 30%	South: Southwest at 10 to 15 mph North: Northwest at 10 mph
NORTHERN CALIFORNIA AREA Mostly sunny.	93 to 103 in the warmest inland valleys	12 to 22% in driest inland areas	Northwest to northeast, or variable, under 12 mph in the morning. West to northwest at 4 to 12 mph in afternoon hours.
SOUTHERN CALIFORNIA AREA Areas of morning low clouds and fog from the coast into the coastal basins. Otherwise, mostly sunny except partly cloudy in the afternoon over the Sierra with a few thunderstorms.	68 to 78 coastal areas 75 to 85 mountains 85 to 95 valleys 90 to 98 upper deserts 98 to 108 lower deserts	25 to 40% valleys 12 to 25% mountains 8 to 18% deserts.	Southwest to northwest 10 to 15 mph over the mountains. 10 to 20 mph and gusty over the upper deserts. Onshore 8 to 15 mph in the coastal areas.
ROCKY MOUNTAIN AREA Scattered afternoon thunderstorms across most of the Rocky Mountain Area with isolated dry lightning in Colorado and southern Wyoming.	80s to lower 90s 70s in Wyoming 70s in mountains	13 to 25% over southern Colorado 25 to 40% elsewhere	West 10 to 20 mph over Wyoming. 8 to 18 over Colorado mountains.

NORTHWEST AREA Morning clouds on the west side with afternoon clearing. Mostly sunny on the east side with a slight risk of isolated showers and a few wet thundershowers mainly over northeast Washington.	60s western Washington 80s southwest Oregon 70s to mid 80s east of the Cascades 60s higher elevations	35 to 55% west of the Cascades 20 to 25% southwest Oregon 15 to 25% east side near 30% over the higher elevations	Northwest winds 10 to 15 mph west of the Cascade crest. East side winds northwesterly 10 to 15 mph. 15 to 25 mph and gusty through the Columbia River Gorge and in the gaps on the Cascade east slopes.
