

INCIDENT MANAGEMENT SITUATION REPORT
WEDNESDAY JUNE 2, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was light nationally with 129 fires reported. One new large fire was reported in the Southern Area. Very high to extreme fire indices were reported in Arizona, Colorado, Florida, Kansas, New Mexico, Nevada, Texas and Wyoming.

SOUTHWEST AREA LARGE FIRES:

PEPPIN, Lincoln National Forest. A Type 2 Incident Management Team (Bateman) is assigned. This fire is six miles northeast of Capitan, NM in timber. Hazardous terrain, poor accessibility, and heavy dead fuel loading continue to be concerns. Active fire behavior with short runs and torching within the interior was observed.

KP, Apache-Sitgreaves National Forest. This fire is 20 miles south of Alpine, AZ in brush and mixed conifer. Creeping surface fire continues to move into the Blue Mountain Primitive Area. Resource threats have diminished and most suppression resources have been demobed. This will be the last report unless significant activity occurs.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
PEPPIN	NM	LNF	33,500	45	UNK	585	13	18	5	12	3.5M
KP	AZ	ASF	15,181	90	UNK	NR	0	0	0	0	3.5M

SOUTHERN AREA LARGE FIRES:

ROAD 1, Florida Division of Forestry. A Florida Division of Forestry Type 2 Incident Management Team (Jones) is assigned. This fire is 17 miles northwest of Macclenny, FL in pine. Light precipitation fell on the fire area yesterday. No further information was received.

BEN HILL GRIFFIN, Florida Division of Forestry. This fire is 14 miles south of Fort Myers, FL in pine and brush. No further information was received.

BOMBING RANGE 1, National Forests in Florida. This previously reported fire, which began on 5/17, is 14 miles north-northwest of Umatilla, FL in brush and pine. This fire is within a Naval bombing range; no on the ground suppression action is allowed. Aerial monitoring continues with no active fire reported.

OUTLOOK:

Weather Discussion: High pressure will continue to build over the Southwest and Southern California for hot and dry weather except for some limited moisture in northern New Mexico. In Florida, scattered showers and thunderstorms are expected as moisture continues to gradually filter into the area.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
SOUTHWEST AREA Mostly sunny, warm and very dry most areas. Partly cloudy with a chance for thunderstorms northeast New Mexico and parts of west Texas.	70s mountains. 80 and 90s lower elevations. 100 to 110 deserts.	3 to 15%, except 15 to 30%+ northeast New Mexico and parts of west Texas.	Southwest to west 10 to 15 mph with higher gusts most areas, except south through east 10 to 20 mph northeast New Mexico and west Texas.
SOUTHERN CALIFORNIA AREA Patchy morning low clouds and fog coastal areas, otherwise sunny.	70 to 80 coastal areas. 75 to 90 mountains. 90 to 100 valleys. 90 to 100upper deserts. 100 to 110 lower deserts.	8 to 20%.	Southwest to northwest 5 to 15 mph.
ROCKY MOUNTAIN AREA Mostly sunny with Isolated afternoon thunderstorms over portions of southern Front Range and southern high plains.	75 to 85 at the lower elevations, 60's to 70's in the mountains.	10 to 20% over western and southern Colorado, with 20 to 35% elsewhere.	Southeast 10 to 20 mph over eastern Rocky Mountain Area.

Standard Fire Orders

The NWCG approved a revision of the Standard Fire Orders, in accordance with their original arrangements. The orders are arranged according to their importance and grouped in logical sequence. Review and consider Standard Fire Orders as a part of every shift.

- Did you receive or request adequate weather briefing, current and predicted fire behavior, wind direction, predicted humidity, fuel moisture, local factor?
- Do you have map of the fire? Is topography, type of fuels, direction of the spread defined?
- Fire behavior group deals with what the firefighter will encounter - weather, fire status, fire behavior.
 1. Keep informed on fire weather conditions and forecasts.
 2. Know what your fire is doing at all times.
 3. Base all actions on current and expected behavior of the fire.
- Are you familiar with direction, distance, location, size of escape routes and safety zones?
- Discuss the need for lookout, such as extreme fire behavior, fire located out of line-of-sight.
- Discuss importance of the situational awareness.
- Fireline safety group emphasizes personal safety.
 4. Identify escape routes and safety zones and make them known.
 5. Post lookouts when there is possible danger.
 6. Be alert. Keep calm. Think clearly. Act decisively.
- Review importance and means of passing tactical decisions and resource movement.
- Review other factors influencing potential changes in tactics, which could affect control of your forces.
- Organizational Control group is centered around tactical decisions.
 7. Maintain prompt communications with your forces, your supervisor and adjoining forces.
 8. Give clear instructions and insure they are understood.
 9. Maintain control of your forces at all time.
- After you have considered, discussed and acted on the previous nine orders:
 10. Fight fire aggressively, having provided for safety first.
