

INCIDENT MANAGEMENT SITUATION REPORT
FRIDAY JUNE 4, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1

CURRENT SITUATION:

Initial attack activity was light nationally with 136 fires reported. Six new large fires were reported, one each in Eastern Great Basin, Western Great Basin and Southwest Areas, and three in Southern Area. One large fire was contained in the Southern Area. Very high to extreme fire indices were reported in Alaska, Arizona, California, Kansas, Nevada, New Mexico, South Dakota, Texas, and Utah.

SOUTHWEST AREA LARGE FIRES:

PEPPIN, Lincoln National Forest. A Type 2 Incident Management Team (Bateman) is assigned. This fire is six miles northeast of Capitan, NM in timber. Hazardous terrain, poor accessibility, and heavy dead fuel loading continue to be concerns. Higher relative humidity and lighter winds have moderated fire behavior.

TANK, Coronado National Forest. This fire is six miles southeast of Patagonia, AZ in grass, brush and heavy dead fuel loads. Active surface fire was observed.

KP, Apache-Sitgreaves National Forest. This fire is 20 miles south of Alpine, AZ in brush and mixed conifer. Creeping surface fire with group torching continues.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
PEPPIN	NM	LNF	44,500	45	UNK	569	13	16	5	12	4.3M
TANK	AZ	CNF	600	30	UNK	105	2	12	1	0	NR
KP	AZ	ASF	16,150	90	UNK	103	3	4	2	0	NR

SOUTHERN AREA LARGE FIRES:

SANTA FE SWAMP, Florida Division of Forestry. This fire is 6 miles southwest of Keystone Heights, FL in dry swamp. Overnight precipitation is aiding containment efforts. Agency resources and local fire departments provided structure protection for one-hundred residences which were threatened and evacuated.

ROAD 1, Florida Division of Forestry. A Florida Division of Forestry Type 2 Incident Management Team (Jones) is assigned. This fire is 17 miles northwest of Macclenny, FL in pine. Precipitation resulted in minimal fire behavior. Reduction in acreage is due to more accurate mapping.

YELVINGTON, Florida Division of Forestry. This fire is five miles east of East Palatka, FL in swamp. No further information was received.

ROCK ROAD, Florida Division of Forestry. This fire is 11 miles southeast of Bonita Springs, FL in pine, cabbage palm and cypress. Active fire behavior with long range spotting was observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD

ROCK ROAD	FL	FLS	275	60	UNK	64	0	18	1	0	NR
GATOR	FL	FLS	3,000	100	---	0	0	0	0	0	NR

EASTERN GREAT BASIN AREA LARGE FIRES:

ARAGONITE, Salt Lake Field Office, Bureau of Land Management. This fire is five miles west of Aragonite, UT in cheat grass. Difficult access due to sandy terrain is a major concern. Moderate, wind driven runs were observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
ARAGONITE	UT	SLD	750	75	UNK	3	0	0	0	0	10K

WESTERN GREAT BASIN AREA LARGE FIRES:

MAIL SUMMIT, Ely Field Office, Bureau of Land Management. This fire is 41 miles west of Panaca, NV in grass, sage and pinyon-juniper. Wind-driven runs in dense areas of continuous fuels were observed.

INCIDENT NAME	ST	UNIT	SIZE	% CTN	EST CTN	TOTL PERS	CRW	ENG	HELI	STRC LOST	\$\$\$ CTD
MAIL SUMMIT	NV	ELD	1,500	5	UNK	89	3	6	1	0	NR

OUTLOOK:

Weather Discussion: A high pressure ridge along with hot, dry weather continues over the West with some thunderstorm activity expected over New Mexico, Utah and Colorado. Scattered thunderstorms are also on tap for Florida with high pressure across the southern portion of the state.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
SOUTHWEST AREA Mostly sunny warm and dry AZ and northern NM. Partly cloudy with a widely scattered mix of wet and dry thunderstorms remainder.	70s mountains and 80s and 90s lower elevations, except 100-110 AZ deserts	5 to 15% AZ and northern NM, 15 to 25% remainder of NM, 25 to 40% west TX.	West to southwest 10 to 15 mph with gusts to 25 mph AZ and northern NM, south to southeast 10 to 20 mph remainder.
SOUTHERN CALIFORNIA AREA Patchy morning low clouds and fog coastal areas, otherwise sunny.	75 to 85 coastal areas 75 to 90 mountains 90 to 100 valleys 90 to 100 upper deserts 100 to 110 lower deserts	8 to 20%.	Southwest to northwest 5 to 15 mph.
ROCKY MOUNTAIN AREA Isolated dry/wet thunderstorms over Front Range/mountains of Colorado, and scattered wet thunderstorms over northern Wyoming, Black Hills and eastern section of the Rocky Mountain Area.	85 to 95 lower elevations 65 to 75 mountains	5 to 15% western and southern Colorado. 15 to 25% elsewhere 20 to 30% higher elevations.	South wind, 15 to 30mph in Kansas up into South Dakota. West wind 8 to 18mph elsewhere.

UNINFORMED ON STRATEGY, TACTICS OR HAZARDS

Firefighters who are uninformed on strategy, tactics or hazards are in conflict with Watchout Situation #5. Before going to the fireline, it is imperative that firefighters obtain information about strategies, tactics or hazards by asking themselves the following questions:

- Can communications be established to find out strategy, tactics or hazards? Discuss ways you might establish communications; for example, contacting someone who is already on the fire and asking them what tactics and strategies are working or not working, what hazards they have witnessed, etc.
- Can scouting safely identify potential hazards? Talk about different methods of scouting a fire (e.g., using a lookout from your crew or sending a line scout ahead, utilizing air attack or the spotter on a smokejumper airplane). Discuss what types of hazards you might come across and ways you would mitigate them. For example, arriving at a fire after dark and a being instructed to dig line downhill with the fire below. How could you make this a safe situation?
- Have strategy, tactics or hazards changed since last informed? Discuss situations that might alter the way you are fighting a fire (e.g., wind shifts, resources you expected don't arrive, etc.). Also, think about what new hazards can develop while you are on the fireline (e.g., roots burning out and trees coming down, winds shifting direction and speed, etc.)
- Can you get a briefing from your supervisor? Talk about the importance of constant communications and ensuring firefighters are on the same page with strategies and tactics. For example, if one crew decides to do a burnout, but doesn't let the crew at the other end of the line know what they are doing, then what can happen?
- To reduce the risks:
 - Post lookouts.
 - Determine escape routes and establish safety zones.
 - Consider retreating until you are informed.
 - Don't leave a staging area or operational briefing until you have all the pertinent information. Emphasize ways to inform firefighters about strategies, tactics and hazards. Tell a story about when you were uninformed and what you did to correct the situation so that you were safe.
